

Hi Marco and Ellen:

Thank you again for selecting AQUA.

To clarify:

Our design phase engineering fee is \$ 1,013,057

Our “preliminary” construction phase engineering fee is \$824,650.

Total Fee for Design and Construction Engineering is \$1,837,707.

If you are going to award the full fee amount on May 3, AQUA will reduce our total fee to an even \$1,800,000 to match your budget.

Please advise if you need additional information.

Bob

Subject: RE: Award

Good morning Bob,

Marco asked me to reach out in regards to the proposal Aqua submitted for the Central Plant Design. The Town Budgeted 1.8M for design and Aqua's proposal came in at a little over 1.8M. Could Aqua re-evaluate the proposal to identify potential cost savings to bring the total proposal cost to the budgeted 1.8M?

I would like to take this to council May 3rd which requires final documentation by this Friday 4-23.

Please let me know if this is something Aqua could look into. The Town would greatly appreciate this effort in order to stay within budget.

Thank you,

Ellen Hilbig | Deputy Public Works Director
Town of Johnstown
