

WATER AND SEWER SERVICE AGREEMENT
(The Ridge Johnstown, Filing No. 1)

THIS WATER AND SEWER SERVICE AGREEMENT (“Agreement”) is made and entered into this ____ day of November 2020, by, between and among **J-25 Land Holdings, LLC**, a Delaware Limited Liability Company (“Developer”), the **Town of Johnstown**, a Colorado municipal corporation (“Town”) and the **Villages at Johnstown Metropolitan District No. 3** (East Village), a quasi-municipal corporation and political subdivision of the State of Colorado (“District”), collectively sometimes referred to as the “Parties”.

WITNESSETH:

WHEREAS, the Developer is the owner of land situated in the S1/2N1/2 of Section 26, T.05N, R.68 W. of the 6th P.M., Town of Johnstown, County of Larimer, State of Colorado County, known as The Ridge Johnstown Filing No. 1, more specifically described on Exhibit A attached hereto and incorporate herein by reference (“Subject Property”); and

WHEREAS, the Developer and the Town entered into an Agreement Concerning Water Rights Dedication Between Town of Johnstown and J-25 Land Holdings LLC, dated August 3, 2020 (“Water Bank Agreement”), which, upon the dedication of certain shares of the Consolidated Home Supply Ditch & Reservoir Company by the Developer, established The Ridge Water Bank; and

WHEREAS, the Subject Property is being developed to include: 208 single-family detached homes with irrigated landscape averaging 3,011 square feet per lot and totaling 14.37 irrigated acres (“Project”); and

WHEREAS, the Developer and the Town desire to set forth their agreement concerning water rights dedication and use of The Ridge Water Bank, preliminary projections of water and sewer demand and a current commitment by the Town for water and sewer service for the Project.

NOW, THEREFORE, in consideration of the mutual promises hereinafter contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties hereto agree as follows:

1. Water and Sewer Demand Studies. In compliance with the Town Water Rights Dedication Ordinance, Chapter 13, Sections 13-61 through 13-72, inclusive, of the Johnstown Municipal Code, as amended, (“Ordinance”), the Developer has submitted to the Town a preliminary water and sewer demand analysis for the Project dated August 12, 2020. Said analysis was received by the Town and is on file with the Town and, as modified by the Town’s Water Engineer by memorandum dated August 20, 2020, is hereby accepted by the Town as to the potable water demands of the Project. The analysis provided by Developer addresses the projected water and sewer demands for the Project as follows:

| Development Component (Potable) | Demand (AF/YR) | Consumption (AF/YR) |
|------------------------------------|-------------------|------------------------|
| In-house water use | 68.64 | 3.43 |
| Residential landscaping | 25.17 | 21.39 |
| Common area irrigation | 0.81 | 0.69 |
| Total potable water use | 94.62 | 25.51 |

2. **Low Water Landscaping.** This Agreement is expressly based and contingent upon compliance with the following requirements: (i) the residential homes shall only be entitled to use irrigated turf in the backyards with landscape plans providing that not more than fifty percent (50%) of the total landscaping be irrigated with moderate to high water use vegetation and that the remainder of the landscaping follow xeric design principles; (ii) the residential homes shall use xeric design principles in the front yards; and (iii) the common area shall include at least 0.81 acres of xeric design principles (collectively, "Low Water Landscaping Requirements"). The Developer recognizes and agrees that the Low Water Landscaping Requirements are material terms of this Agreement. Subsequent to development, the obligation to meet and maintain the Low Water Landscaping Requirements shall continue and shall be a covenant running with the land. If, at any time, the Low Water Landscaping Requirements are not met and maintained, then the Developer, District or homeowners' association, as appropriate, shall be dedicate additional water to the Town as further described in Paragraph 6.

3. **Water Rights Dedication.** The Developer has previously dedicated to the Town eighteen (18) shares of stock in the Consolidated Home Supply Ditch & Reservoir Company pursuant to the Water Bank Agreement, resulting in a surplus dedication credit with the Town of approximately 144.00 acre-feet per year of potable water. Pursuant to Paragraph 5 of the Water Bank Agreement, prior to the issuance of any building permits for the Subject Property, the Town and the Developer must enter into a water and sewer service agreement. The Town and the Developer agree that they will apply the water held in The Ridge Water Bank to supply the necessary water for the Project.

4. **Water Bank Credit.** Subsequent to the use of the water for the Project, the Developer will have a credit in The Ridge Water Bank of approximately 49.38 acre-feet. The credit is calculated as follows:

Credit for potable water dedicated: 144.00 acre-feet
 LESS:
 Estimated potable demand for Project: 94.62 acre-feet
Net current water bank credit: 49.38 acre-feet

5. **Commitment to serve.** Subject to Developer's performance of all the covenants contained herein and payment of all required fees, the Town commits to provide to the Project up to 94.62 acre-feet per year of potable water supply together with the corresponding sewer service, to include up to 68.64 acre-feet per year of potable water supply for in-home use together with the corresponding sewer service, 25.17 acre-feet of water supply for approximately 75 acres of irrigated residential lawns and landscaping and 0.81 acre-feet of water supply for common area.

6. Future review of water usage and dedication requirements. In accordance with Section 13-68(h) of the Ordinance, the Town reserves the right to review actual water usage within the Project, at a point in time after water usage has been established, to confirm the adequacy of the water demand projections made by the Developer, and to require additional water rights dedication and/or cash-in-lieu payments based on actual water usage. The additional water rights shall be dedicated from, and/or cash-in-lieu payments made by, the Developer or the District, as appropriate at the time. If the District has dissolved, then the additional water shall be dedicated by the metropolitan district providing covenant enforcement or by the operative homeowners' association. If, at a point in time after water usage has been established, the Town determines that the actual water usage is less than the water demand projection, upon written approval of the Town and execution of a subsequent agreement, the Developer may use the surplus water to satisfy the raw water demands associated with other phases of The Ridge Johnstown development.

7. Payment of Water Court Transfer fees. The water court transfer fee for the water supply held in The Ridge Water Bank was previously paid to the Town. However, in accordance with the Ordinance, additional fees may be required in connection with future development of any property to which all or any portion of the surplus dedication credit is subsequently assigned pursuant to a subsequent mutual agreement of the Parties in accordance with the Town's Ordinance.
