

**Animal Advisory Board  
September 17, 2024**

**Ordinance**

**Action Item**

**Agenda Description:**

Discuss, consider, and possible action on accepting the revisions to A3.001 Animal Control Fees.

**Background Information:**

Currently, the City's ordinances do not include a fee for failing to possess a valid rabies certificate for pets. Typically, this fee is associated with non-compliance related to sterilizing an animal following adoption. This item proposes the establishment of a specific fee for failure to present a valid rabies certificate in alignment with related animal control regulations.

**Financial Information:**

The proposed addition of a rabies certificate fee will empower animal control to impose a penalty for failure to vaccinate pets as required by City ordinances. This fee will enhance the enforcement of public health regulations and ensure better compliance with vaccination requirements.

**City Contact and Recommendations:**

Amber Bransom, staff recommends revisions.
