

## August 2024

In August, the Joshua Police Department made job offers to two police applicants. One officer is highly experienced and the other has experience in corrections. They are set to begin employment on September 16<sup>th</sup>. We also received two additional applications and are awaiting their background packets. During August, four Joshua police officers visited two separate police academies in order to increase the number of police applicants. The two new police vehicles that are being readied for service were presented to a graphics business for the application of new police graphics.
