

October 2024

In October, the Joshua Police Department participated in the Joshua Citizen’s Police Academy Alumni Association’s National Night Out and the Drug Enforcement Administration’s Drug Take-Back Program. The National Night Out was very well attended and was the most successful National Night Out I have taken part of in Joshua, Texas. Our congratulations go out the JCPAAA members who organized this event. We hope to see even greater participation from the community in the future. The Drug Take-Back event was also a great success. The amount of drugs collected was more than double that of previous years. The Joshua Police Department also continued working towards several other goals during the month of October. The JCPAAA returned the draft of the Citizen’s on Patrol program manual to us along with any of their membership’s recommendations and suggestions. We took delivery of a FIST suit to be used in department defensive tactics training and in the Women’s Self-Defense course. This suit is a fully padded suit with a helmet and allows a person to act as an aggressor while taking full strength strikes from someone in training. We thank the JCPAAA for the donated funds which allowed us to purchase this important tool. The first Women’s Self-Defense class is scheduled for November 12, 2024. We look forward to providing this and similar training to the public in the future.
