

City Council Agenda December 21, 2023

Agenda Item: **Ordinance** **(Action Item)**

Agenda Description:

Discuss, consider, the possible action on establishing 20 mph speed limit on E. 8th St. between Veatch St. and SH 174.

Background Information:

I received a request from a resident about posting speed limit signs on E. 8th St.

This resident felt people were speeding on this street, so I conducted a traffic study.

The study concluded that the 20 mph signs are an effective tool with calming traffic.

30 mph is the state law for residential streets but taking into consideration the overall width and length of this street, I feel 20 mph to be more appropriate.

Financial Information:

Will be billed to our current street sign repair & maintenance budget.

City Contact and Recommendations:

Staff recommends approval.
