Late File Appeal Request

City & Borough of Juneau (CBJ) Property Assessor,

I am writing today to request a Late File Appeal Request. During the month of March my wife Kellie Glen had a last-minute surgery that left them unable to complete daily tasks without assistance leaving myself as their caregiver, our children's care giver, and working full-time. During this time Kellie experienced complications with their surgery having us in and out of doctors' appointments to insure they would not need to have additional surgeries. Kellie just last week on 04/03/2023 returned to work full-time and has been able to regain all daily tasks. Also, during this time our home came down with COVID and made it so we were unable to leave the house and participate as functioning members of society. With these factors I do hope that you will grant our request for a late file appeal.

Thank you for your time,

A handwritten signature in cursive script that reads "Michelle Glen".

Michelle L. Glen
