Please explain, with specificity, your reasons for applying to serve on this particular board.

I have an interest in helping see Juneau develop in a rational, sustainable way. Although not an aspect of my past employment, I am, and have long been, interested in efficient and "user-friendly" development patterns. I have spent my career using data to draw conclusions, make decisions, and report results, and I believe my analytical skills would be useful in helping the Planning Commission to make decisions in a transparent information-driven way. I have periodically attended public information sessions regarding potential development in the city (including a meeting about a year ago when I was the only member of the public to attend) and, now that I am retired, I have the time to commit to a larger role. I am also an avid user of recreational opportunities within the borough.
