none

Reasons for Applying

I have been a season pass holder for over 40 years and skiing is probably the number 1 reason I have remained in Juneau my entire life .We are lucky enough to have the only municipally owned and operated ski area in North America .I was married at Eaglecrest . I have used the eaglecrest area for skiing -mtn biking-berry- picking-hiking and just plain relaxing in the beautiful alpine environment . I am a known problem solver and do my best to bring a common sense solution to fruition .

Qualifications

I am now retired but worked for a engineering firm for over 30 years where I held a supervisory position the entire time . I have been involved in the surveying and design of the Blackbear chairlift -the ski school building and various other projects at our local ski area .I also was involved in the surveying and building of the Mt Roberts Tram and the surveying of the Hoonah zipline I am currently on the volunteer trail mix crew and have been rebuilding the treadwell ditch trail which will link Eaglecrest all the way to Mt Jumbo .I have known and worked with all our previous ski area managers and even taught skiing at Eaglecrest . I have a vested interest to see Eaglecrest succeed and continue to provide a quality and affordable experience to our residents and visitors alike.

Civic Activities, Memberships or Non-profits Involved With

Volunteer Trail Mix crew 2023 to present-property and lands committee Shepherd of the Valley Lutheran church 2023 to present- North douglas ski bum association 1980 to present and beyond

Working with a Group

The volunteer Trail Mix crew is a diverse group of individuals with different political views and backgrounds but we all come together to for a common goal of doing our little bit to make Juneau a better place to live .In my career days we all worked as a design team to see projects through to completion and sometimes did not agree on the best solution but respected each others unique qualifications and experience that brought us each to the table .
