

Ordinance 2024-01(b)(N)  
Manager's Report

**An Ordinance Appropriating \$100,000 to the Manager for Expanded Inundation Maps and Hydrological Modeling of the Mendenhall River; Funding Provided by General Funds.**

This ordinance would appropriate \$100,000 of general funds for expanded inundation maps and hydrological modeling of the Mendenhall River. In August 2024, the Mendenhall Vally was flooded by a glacier outburst flood caused by Suicide Basin. The 2024 flood levels exceeded previous flooding events, damaging over 300 residences in the area. This funding would contribute toward detailed mapping and hydrological modeling of the Mendenhall River to determine potential flood impacts in the future, with data collected to be used for mitigation solutions.

The Committee of the Whole reviewed this request at the September 9, 2024 meeting.
