

AIRPORT MANAGER'S REPORT – February 8, 2024

- a. Deputy Airport Manager Recruitment. The Airport is still recruiting for the Deputy Airport Manager position. A contract is now in place to use a Recruiter to assist in hiring for this position.
- b. Aircraft Rescue Fire Fighting (ARFF) Truck Update. The Airport and Capital City Fire/Rescue submitted a draft agreement to the Palmer Fire Department for the lease of their spare ARFF truck as an interim measure until the Airport can acquire a replacement truck for engine A-2. The Airport has quotes through a cooperative purchasing source and is currently submitting the grant application for funding prior to ordering a new ARFF truck. It is anticipated that this will still take 12-18 months before it arrives in JNU.
- c. Cargo Road Vehicle Vandalism. The Airport received reports that vehicles along Alex Holden (cargo road) have seen an increase in vehicle break-ins and thefts in the past few weeks. This is occurring to employee vehicles while they are working. Juneau Police Department (JPD) has been notified.
- d. Airport Fund Balance (AFB) and Capital Revolving Account Balance (CRAB) (Attachment #1). **NO CHANGE** The Airport Fund Balance page reflects updates to the FY23/24 budgets and reflects what has been submitted to the Assembly and approved by the Board.
- e. CARES/CRRSAA/ARG Fund Balance (Attachment #2). **NO CHANGE** since the January update. This will be updated as actuals come in.
- f. Hot Topics. The following is a list of on-going topics that staff is working on in addition to the regular Airport Project Reports:
- **NEW** – (but old) *ADEC Site Contamination*. In 2014 during a project that required paving a drive lane just south of the old sand shed and Channel/Loken (Coastal) hangar, contamination of soil and groundwater was found. This contamination record was never mitigated, nor further testing done, and remained an open contamination case for both the Airport and Loken/Channel Flying. The Airport will continue to work with the Alaska Department of Environmental Conservation (ADEC) to close out this site, which may take some time.
 - **NO CHANGE** – *Juneau Douglas North Crossing Project*. Alaska Department of Transportation (ADOT) continues with the second channel crossing project between Juneau and Douglas. The Airport participates in the Technical Advisory Committee due to protection of aircraft approach corridors coming down the channel. JNU Airport will continue to voice concerns with any bridge option that will impact airport approaches, departures or future development. Please visit the ADOT website for the project www.jdnorthcrossing.com or make comment to the project email JDNorthCrossing@dowl.com.
 - **NO CHANGE** – *Title 49 (Jordan Creek) Variance Request*. Staff is still looking to work with the CBJ on Title 49 language for limbing after the Planning Commission denied the Development Department (CDD) during their rewrite of Title 49 for inclusion of safety or other ways to allow limbing in this area. The Assembly has approved \$150,000 in their FY24 Capital

Improvement Project plan for: *the Jordan Creek Greenbelt Improvements, for installation of lighting, improve pathway and improve sightlines for Jordan Creek Greenbelt.*

- **NO CHANGE** – *Transportation Security Administration (TSA) Mandate for Employee Screening Going into Secured and Sterile Areas.* Staff completed the first trial of the aviation workers screening (AWS) plan. This trial is part of the AWS implementation plan for the first quarter of the informed compliance period, which started September 25, 2023. Trial runs will continue once a week during the second quarter (Jan. – Mar.). This plan is presuming that the lawsuit filed in the D.C. Circuit Court of Appeals would be unsuccessful. JNU and approximately ten other airports filed a Joint Petition for Judicial Review of TSA’s worker screening amendment.
- **NO CHANGE**– *Alaska Department of Natural Resource (ADNR) Land Conveyance Close-out.* During the Runway Safety Area (RSA) project, the Airport through the Environmental Impact Statement (EIS) public process and mitigation, acquired wetlands parcels from the State for the extension of the RSA on both the RWY 8 and RWY 26 ends, and to accommodate portions of the approach lighting systems. The Airport is still working with ADNR to convey these parcels to the Airport’s property. Once this is completed and recorded, the Airport Layout Plan and ‘Exhibit A’ will need to be updated to reflect the airport boundaries.
- **NO CHANGE**– *Mendenhall River Flooding Damage to Airport.* On August 25, 2023, CBJ Engineering and Airport Airfield Maintenance staff assessed the downstream end of the existing riprap that was damaged in the recent flood event. Approximately 110 linear feet of riverbank has lost riprap, exposing the original geotextile that was beneath the rock. The loss of riprap has left the top of bank undermined in places. Estimated repair costs for the damage (i.e., replacing riprap) is \$110,000 (based on 110 LF @ \$1K/LF). Staff is working with emergency services (CBJ/State) to document the repairs needed. See Project Manager Greene report.
- **NO CHANGE** – *Runway 26 Medium Intensity Approach Lighting System with Runway Alignment Indicator Lights (MALSR) approach lighting.* After introduction by Senator Sullivan, the language that would include the MALSR in the FY24 Reauthorization Bill (that would allow the transfer, ownership and maintenance of approach lighting systems to the FAA upon completion) has support from the House. The language would add MALSR equipment to the list of allowable lighting equipment and allow the transfer of this to the FAA even if paid for through Airport Improvement Program (AIP) funding. This is now pending final approval within the Reauthorization Bill. A new five-year Corps of Engineers wetlands permit has been issued.
- **NO CHANGE** – *Encampments on Airport Property.* Airfield crew continues to clean up the illegal campsites and trash in the greenbelt areas around the creeks. They perform weekly clean-outs of these sites and belongings. Of safety concern are the number of drug needles they are finding in the greenbelt. Ongoing.
- **NO CHANGE** – *PFAS Testing and Monitoring.* Cox Environmental continues with their quarterly testing of groundwater, surveying the test wells to determine flow direction, including two private wells within the test radius.

- **NO CHANGE** – *Egan/Yandukin Intersection Improvements Project*. ADOT has narrowed down design alternatives for the project. Please visit ADOT website for the project at <http://dot.alaska.gov/eganyandukin>.
- **NO CHANGE** – *FAA Compliance Land Use/Financial Letter (January 2019)*. Staff continues to work on the remaining compliance items. Staff is looking to acquire the Loken/Channel Flying property due to through-the-fence operations. See Greene Report.
- **NO CHANGE** – *Passenger Facility Charge (PFC) cap increase* JNU continues to discuss PFC increases with our DC Lobbyist and Congressional Delegation.
- **NO CHANGE** – *Capital Improvement Program (CIP) and Passenger Facility Charge (PFC) 10*. With FFY20 FAA AIP terminal grants covering the entire amount of FAA-eligible terminal construction, PFC (PFC9) collections may be abbreviated with less match required. Staff is monitoring the amount needed for the terminal project to assess when to start PFC10 application process.
- **NO CHANGE** – *Maintenance Programs* (roofs, heat pump equipment, baggage systems, etc.). Staff continues to develop maintenance contracts for specialized systems similar to what we do with airfield lighting and controls.

Rent Abatements: Revenue not collected due to Abatements (approx. \$1.25m) is not factored into the Budget Revenue line (a) for Adopted, Revised,

Note 1: Projected budgets, but is reflected in Actuals for FY22. i.e. budget lines for FY23 & FY24 are shown "whole" so that rates and fees can be accurately derived.

Board-Approved CARES Expenditures: \$2,340,400 of Board-approved, grant-funded, expenditures are projected for FY23. These expenses are not included in the O&M expense line (b), so that they do not inflate the FY23 deficit for Rates and Fees calculations. The grant-funded expenses are shown on the Non-Operational Expenses line, Other (c).

Note 2:

Note 3: **Non-Operational Revenues, Total (d):** The CARES/CRSSA/ARPA grant draw for FY23 is projected at \$4.6M; this includes the operational deficit \$1.6M, GO Bond debt service \$660K, and Board-approved projects \$2.3M.

(a) See Attachment 1 for summary and Attachment 4 for detail by account.

(b) See Attachment 1 for summary and Attachment 3 for detail by account.

(c) Other includes: capital expenditures, transfer of sales tax to Airport fund, and transfers between Airport operations and

CIP projects, and other changes in restrictions of fund balance. At year end, the audited financial statements are not on a cash basis but on accrual--The Airport budgets/reports are revenues & expenditures – which are cash basis.
