- Alley Between E 9th Street and E 10th Street – Boyd Avenue to Cleveland Avenue

Background

The Engineering Department has included an alley reconstruction project in the 5 year capital plan in order to continue the replacement of deteriorating alleys throughout the City. The areas chosen for 2022 are alleys which had been previously identified for significant repairs, have existing drainage issues, and had little to no utility work required. The Engineering Department has completed survey and is finalizing design for installation of Asphalt Alleys for the above listed areas (also as shown on the attached maps).

A preliminary resolution declaring intent to exercise special assessments is included in your packets for Council consideration on Tuesday night.

Recommended Action

Motion to authorize the Engineering Department to seek bids for Project #3-22, 2022 Alley Paving Project.
