Re: 2024 Housing Fee Report

### **Background Information:**

In 2018, the Wisconsin State Legislature approved new legislation (Wis. Stats. 66.10013) which requires communities with populations of 10,000 or more to provide an annual report related to housing in an effort to shed light and foster change on affordable housing issues across the state. This report contains information on the amount of plats, certified survey maps, and building permits approved by the city, as well as maps showing undeveloped parcels in the city that may be suitable for residential development. The report analyzes the prior year, as data cannot be finalized until the year is complete. The report being brought forth shows data from 2024.

### **Staff Recommendation**

To receive and place on file the 2024 Housing Fee Report.
