

MEMO

Department

To: Board of Public Works
From: Finance Director, Van Rossum, and DPW Director Neumeier
Date: May 5, 2025
Re: 2025 Capital Improvement Plan (CIP) – Review for Approval

Background information:

Attached to this memo is the latest version of the Capital Improvement Plan (CIP), reviewed and updated by city staff as of April 24, 2025. The plan provides important insights into upcoming projects and highlights the potential debt service impacts associated with bonding.

Since the CIP was last presented to the Board of Public Works at the September 30, 2024, meeting, several projects have advanced for board approval to seek bids and enter contracts. These project costs have been updated on the attached sheet within the 2025 section of the plan. Projects listed for 2025 that have not yet come before the board for bidding permission will do so when they are ready.

Historically, the city has scheduled approximately \$5 million in projects annually, aligning with debt service targets. The 2025 CIP, as currently proposed, includes about \$4.8 million in projects, which closely aligns with the city's typical General Obligation Bond borrowing levels.

City staff have finalized the project needs for the 2025 CIP and now seek the board's final feedback or requested adjustments before moving forward with formal approval of the 2025 project list.

Strategic Plan:

Review and approval of projects and financing is a key component for our foundation of Financial Responsibility. We manage the limited resources available in a responsible way to provide services and amenities that enrich our

community. Being a steward of limited resources is essential for the city to operate the most efficiently.

Budget: The Capital improvement plan won't have a direct impact on the general operating budget, but the debt repayment of the cost to complete these projects will need to be managed so the budget will not be impacted in turn, causing the taxpayer rate to dramatically fluctuate.

Staff Recommended Action:

Approve the list of projects in the 2025 Capital Improvement Plan as final, authorizing staff to proceed with project initiation in 2025 while following the permission to bid and enter the contract procedure.
