Re: **Item 2e. Authorization to Seek Bids for Project #9-24 - 2024 Concrete Street Patch Program**

Background information:

The Engineering Department and Street Department have identified various areas in need of concrete street panel replacement for which we have budgeted funds in the 2024 CIP. The City would also contract with KU to add any winter water main break patches with our larger replacement project in an effort to save money, staff resources, and to simplify project coordination. Due to some high traffic and school-adjacent patches on this project, we are seeking bids early in 2024, and will require contractors to complete any work on STH 55 or near schools, during the summer months.

Strategic Plan:

This program aims to maintain roadways in good condition to allow for safer travel, helping to maintain a safe and healthy community.

Budget:

This program was budgeted for in the 2024 Capital Improvement Plan.

Staff Recommendation:

Authorize the Engineering Department to seek bids for Project #9-24 – 2024 Concrete Street Patch Program.
