Re: Authorization to seek bids for Project #7-23: Municipal Pool Project

### Discussion:

Staff has been working with Parkitecture + Planning on the design for the Kaukauna Municipal Pool Renovation on final plans and specifications with guidelines for the types of equipment, site amenities and construction. The renovation will revitalize the facility, provide a new bathhouse with state-of-the-art facilities and pool equipment in compliance with state pool regulations, and add new amenities for residents. The new day-use area will extend the season beyond the current summer pool season with a recirculating splashpad and miniature golf course. City staff will save costs by performing some of the site work (asphalt and lighting) in and around the area in conjunction with the project. Work would begin in late summer or early fall of 2023 after the closure of the 2023 pool season.

### Recommended Action:

Authorize staff to seek bids for Project #7-23: Municipal Pool Renovation.
