Re: Storage Container Ordinance Ver 1

To follow up from the discussion on April 2<sup>nd</sup> 2024, staff have drafted an ordinance for storage containers. The ordinance addresses the items discussed by the plan commission and limits the use of these containers in residential areas while still allowing provisions to have shipping containers for moving/temporary use. This ordinance is still in review and would be added to section 17.32 Supplementary District Regulations. The draft ordinance is attached to this memo for review.

### **Recommendation:**

Discussion on Draft Ordinance to ensure the ordinance draft is meeting expectations of the Plan Commission
