Re: DAR Parklet Donation Request

Staff has been working with DAR (Daughters of the American Revolution) on a parklet that will be located on the corner of Hendricks and Reaume Avenue. DAR will be donating a monument in honor of Captain Hendrick Aupaumut, replacing the existing monument at this location, as well as some benches created from recycled plastic. The Engineering and Public Works Department has agreed to assist with cement pouring, bench installations, and seeding the ground. DAR is coming before RACK to request a donation to assist with the cost of the cement for the walkways. This funding would be in addition to their own funding efforts.

For more information on Captain Hendrick Aupaumut and his impact on our country, please see the links below:
