Re: Tornado 5-21-24

On Tuesday, May 21, the City of Kaukauna experienced a massive storm causing damage to trees and property, massive power outages, and displacing over 50 people from Round House Manor. This storm was later identified as an EF1 Tornado. Thanks to the incredible efforts of our Fire Department, Police Department, Street Department, and Kaukauna Utilities those displaced have found temporary housing and the City has made remarkable progress in recovering from the storm. Thank you again to everyone involved – we would not have been able to respond so quickly had it not been for you.

Additional thanks to Outagamie County Emergency Management, Outagamie County Executive Tom Nelson, Community Emergency Response Team, Kaukauna Area School District, Red Cross, Little Chute Fire Department and Public Works Department, Combined Locks Fire Department and Public Works Department, and Kimberly Public Works for their assistance in finding shelter and temporary homes for those displaced and for cleanup efforts following the storm.
