The City was contacted by Valley Transit in regard to construction and residential parking on Reaume Avenue making navigation of Reaume Avenue near Hendricks Avenue difficult and dangerous. Staff installed temporary no parking signage at this location during our utility project to maintain a safe route for busses and other vehicles. The Engineering Department has reviewed the request and has observed traffic in the area. All information is entered into a Wisconsin Department of Transportation (WisDOT) Traffic Signal Warrant Summary Worksheet. The worksheet uses the data to determine if any of the nine traffic signal warrants are met. After submitting the worksheet and data to WisDOT for review, it has been confirmed that none of signal warrants are met at this time. Questions from the Board were answered.

**a. Crossing Guard at Lawe Street and Delanglade Street.**

Police Chief Graff stated he is proposing we eliminate the crossing guard at Lawe Street and Delanglade Street. The intersection of Lawe Street and Delanglade is a controlled intersection, which means there are stop lights and cross walk signals. This intersection is much like the intersection of Crooks Avenue and Second Street where we do not have a crossing guard. At the start of this school year, the Kaukauna Area School District changed their bussing radius from 1 mile to 2 miles. Before making a change at this intersection, I wanted to see if the new bussing regulations affected the foot traffic at this intersection. With the new bussing regulations, we are seeing less children using this crossing point than the year before. Discussion was held and questions answered.
