

May 2024 Naturalist's Report

Admin/Finance

- Administrative Assistant Cassie Kohls met with Megan Schuessler of the Community Foundation to learn more about the endowment fund and the history of the partnership. She learned a great deal about the operation of the fund, as well as other ways in which the Community Foundation can work with the center.

Building/Grounds

- The goat project was again widely successful. The two areas that were browsed show a significant reduction in buckthorn. WFRV and WLUK both came out on-site for news programs.
- High water levels along the Fox River required cancelling a Crayfish and Critter Hunt program and closed the boardwalk trails temporarily. No permanent damage to the trails was noticed.
