Subject: Appreciation for the Resolution Calling for the Reinstatement of the Sawtooth NF Employees Terminated

To the Members of the Ketchum City Council:

I want to personally thank you for passing the resolution calling for the immediate reinstatement of Sawtooth National Forest employees that have been terminated. I met Tripp Hutchinson, one of your Council members, at the Save Our Civil Servants Rally on Wednesday, February 26, 2025 in Hailey. As a steward of the Local 1753 of the National Federation of Federal Employees and a community member, I am grateful for your support and recognition of the importance and value of our public lands, along with those that protect and maintain them while serving the American people. It gives me hope that democracy still exists. Together we can stop this detrimental trend towards the desecration of these sacred lands and the loss of them to all.

Thanks again for your support!

Salud,
Audra:0) Serran
