Mayor Bradshaw and City Councilors
City of Ketchum
Ketchum, Idaho

Mayor Bradshaw and City Councilors:

Recommendation to Approve Purchase Order 22110 With Evident Scientific for a Phase Contrast Microscope

Recommendation and Summary

Staff is recommending the council approve Purchase Order 22110 with Evident Scientific and adopt the following motion:

"I move to approve Purchase Order 22110 with Evident Scientific for the purchase of a Phase Contrast Microscope to be used at the wastewater treatment plant laboratory in the amount of \$5,709.10 plus shipping."

The reasons for the recommendation are as follows:

- This microscope is necessary to implement a new biological monitoring and control program we wish to implement at the wastewater treatment plant (WWTP) to enhance our treatment abilities.
- The current microscope does not have the capability to process the samples required for the new program.

Introduction and History

The WWTP laboratory technician has identified a new monitoring program which will enhance the biological removal processes at the treatment plant. The microbiology sampling and monitoring techniques for this program require a microscope with phase contrast capabilities.

Analysis

The laboratory technician worked closely with Evident Scientific to customize this microscope to meet the requirements of the new program. Other vendors were considered but itemized quotes were not requested. Evident Scientific demonstrated lower pricing in preliminary discussions and were determined to be the best supplier for our need.

Sustainability

This purchase does not apply to the current sustainability plan.

Financial Impact

Funds for the purchase of the microscope will come from capital improvement funds in the Wastewater Expenditures Budget and were budgeted for FY22. As a capital expenditure, this expense will be shared equally with the Sun Valley Water and Sewer District.
