BACKGROUND FINDINGS

1. On May 25, 2021, the Planning and Zoning Commission considered a Conditional Use Permit (CUP) application by Steven Beck to allow for shared parking associated with a new public pickleball court located at 115 Northwood Way Unit A.
2. The subject property is located in the Light Industrial District No. 2 (LI-2) zoning district.
3. The request is to reduce the required on-site parking and satisfy the required parking through shared

use of on-site parking. The proposed use is a pickleball court open to members of the club. In the LI District, health and fitness facilities must provide dedicated on-site parking at a ratio of one parking space for every 250 gross square feet. In this case, the ground floor of the building is 1,153 square feet (based on plans on file) and requires five parking spaces for the proposed use.

4. The building was approved for three industrial/storage uses with five parking spaces located in the front of the building. Parking was to be shared by the three uses. The project approvals at the time acknowledged limited parking on the site and restricted the permitted uses to warehouse and storage only. Over time, uses have changed. In 2019, a conditional use permit was granted (P19-115) to permit Nomadic Vehicle Sales and Repair to operate in Unit C at 115 Northwood Way. Kirk Anderson Photography exists in Unit B at 115 Northwood Way and the Pioneer Pickleball Club is in Unit A.

5. The Commission determined the parking plan proposed by the applicant and as conditioned by the Commission will be sufficient to meet the parking demand of the proposed use. The applicant will manage parking by creating a reservation system. Court reservations will be for 2-hour increments and users will be prohibited from arriving more than 10 minutes before their reservation and departing not more than 10 minutes after their reservation time.

			Staff Comments	<i>There are five on-site parking spaces, and the applicant is requesting a reduction through a shared parking plan.</i>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	17.125.080 B (i)	<i>A reduction to parking requirements for individual uses may be made after considering the following standards and criteria:</i> <i>a. There is existing on-street parking available for public use within a one thousand foot (1,000') walk as measured along the sidewalk connecting to the site of the subject use.</i>
			Staff Comments	<i>If the operating hours of the pickleball court occur after the peak hour of the surrounding businesses and uses in the building, there is sufficient parking available to meet the demand generate by the pickleball club. If the applicant provides an agreement with the other tenants of the building that the existing parking can be shared by all uses, the hours of operation would not be restricted.</i>

PIONEER PICKLEBALL CLUB
(115 NORTHWOOD WAY, UNIT A, KETCHUM, IDAHO)

OVERVIEW:

Pioneer Pickleball Club is a ground level, single-story pickleball practice court (70% standard size) located in the industrial condo at 115 Northwood, Unit A, Ketchum, Idaho. The practice court can accommodate two players for singles and four players for doubles. The limited membership (24 member) non-profit club was completed in fall / winter of 2020.

INGRESS / EGRESS & PARKING MITIGATION SYSTEM:

Based on a desire to avoid both ingress / egress and parking problems, usage of the private club, single court facility is based on a reservation system ("Kourts"). Court reservations are for 90 minute slots with users prohibited from arriving more than ten minutes before their reservation slot commences and departing not more than ten minutes after their reservation slot expires. (These commencement and departure protocols are designed to promote a smooth transition between arriving and departing players.)

The reservation system outlined above is in addition to the facility's cloud based entry system ("PDKIO") that Sentinel Fire & Security installed for the facility. This system is how players / members access the building. Each member utilizes a unique personal four-digit access code to gain entry to the building. The entry system tracks, reconciles and records entry and departure of the building for each member's unique four-digit code. (This recorded data provides the requisite information to reconcile and enforce the flow of members on and off the property. Failure to comply with entry and exit protocols can be tracked and will result in member suspension and / or dismissal. The four-digit access code can be deleted from the system at any time and the non-compliant member's property access immediately denied.)

In addition to the reservation and cloud based entry system, the building has a 24/7 camera surveillance.

SUMMARY:

After four months of beta testing, the systems outlined above have proven to effectively deal with the flow of members on and off the common area parking; and in and out of the indoor court. The system combines common sense requirements with real-time tracking and rule enforcement if required.

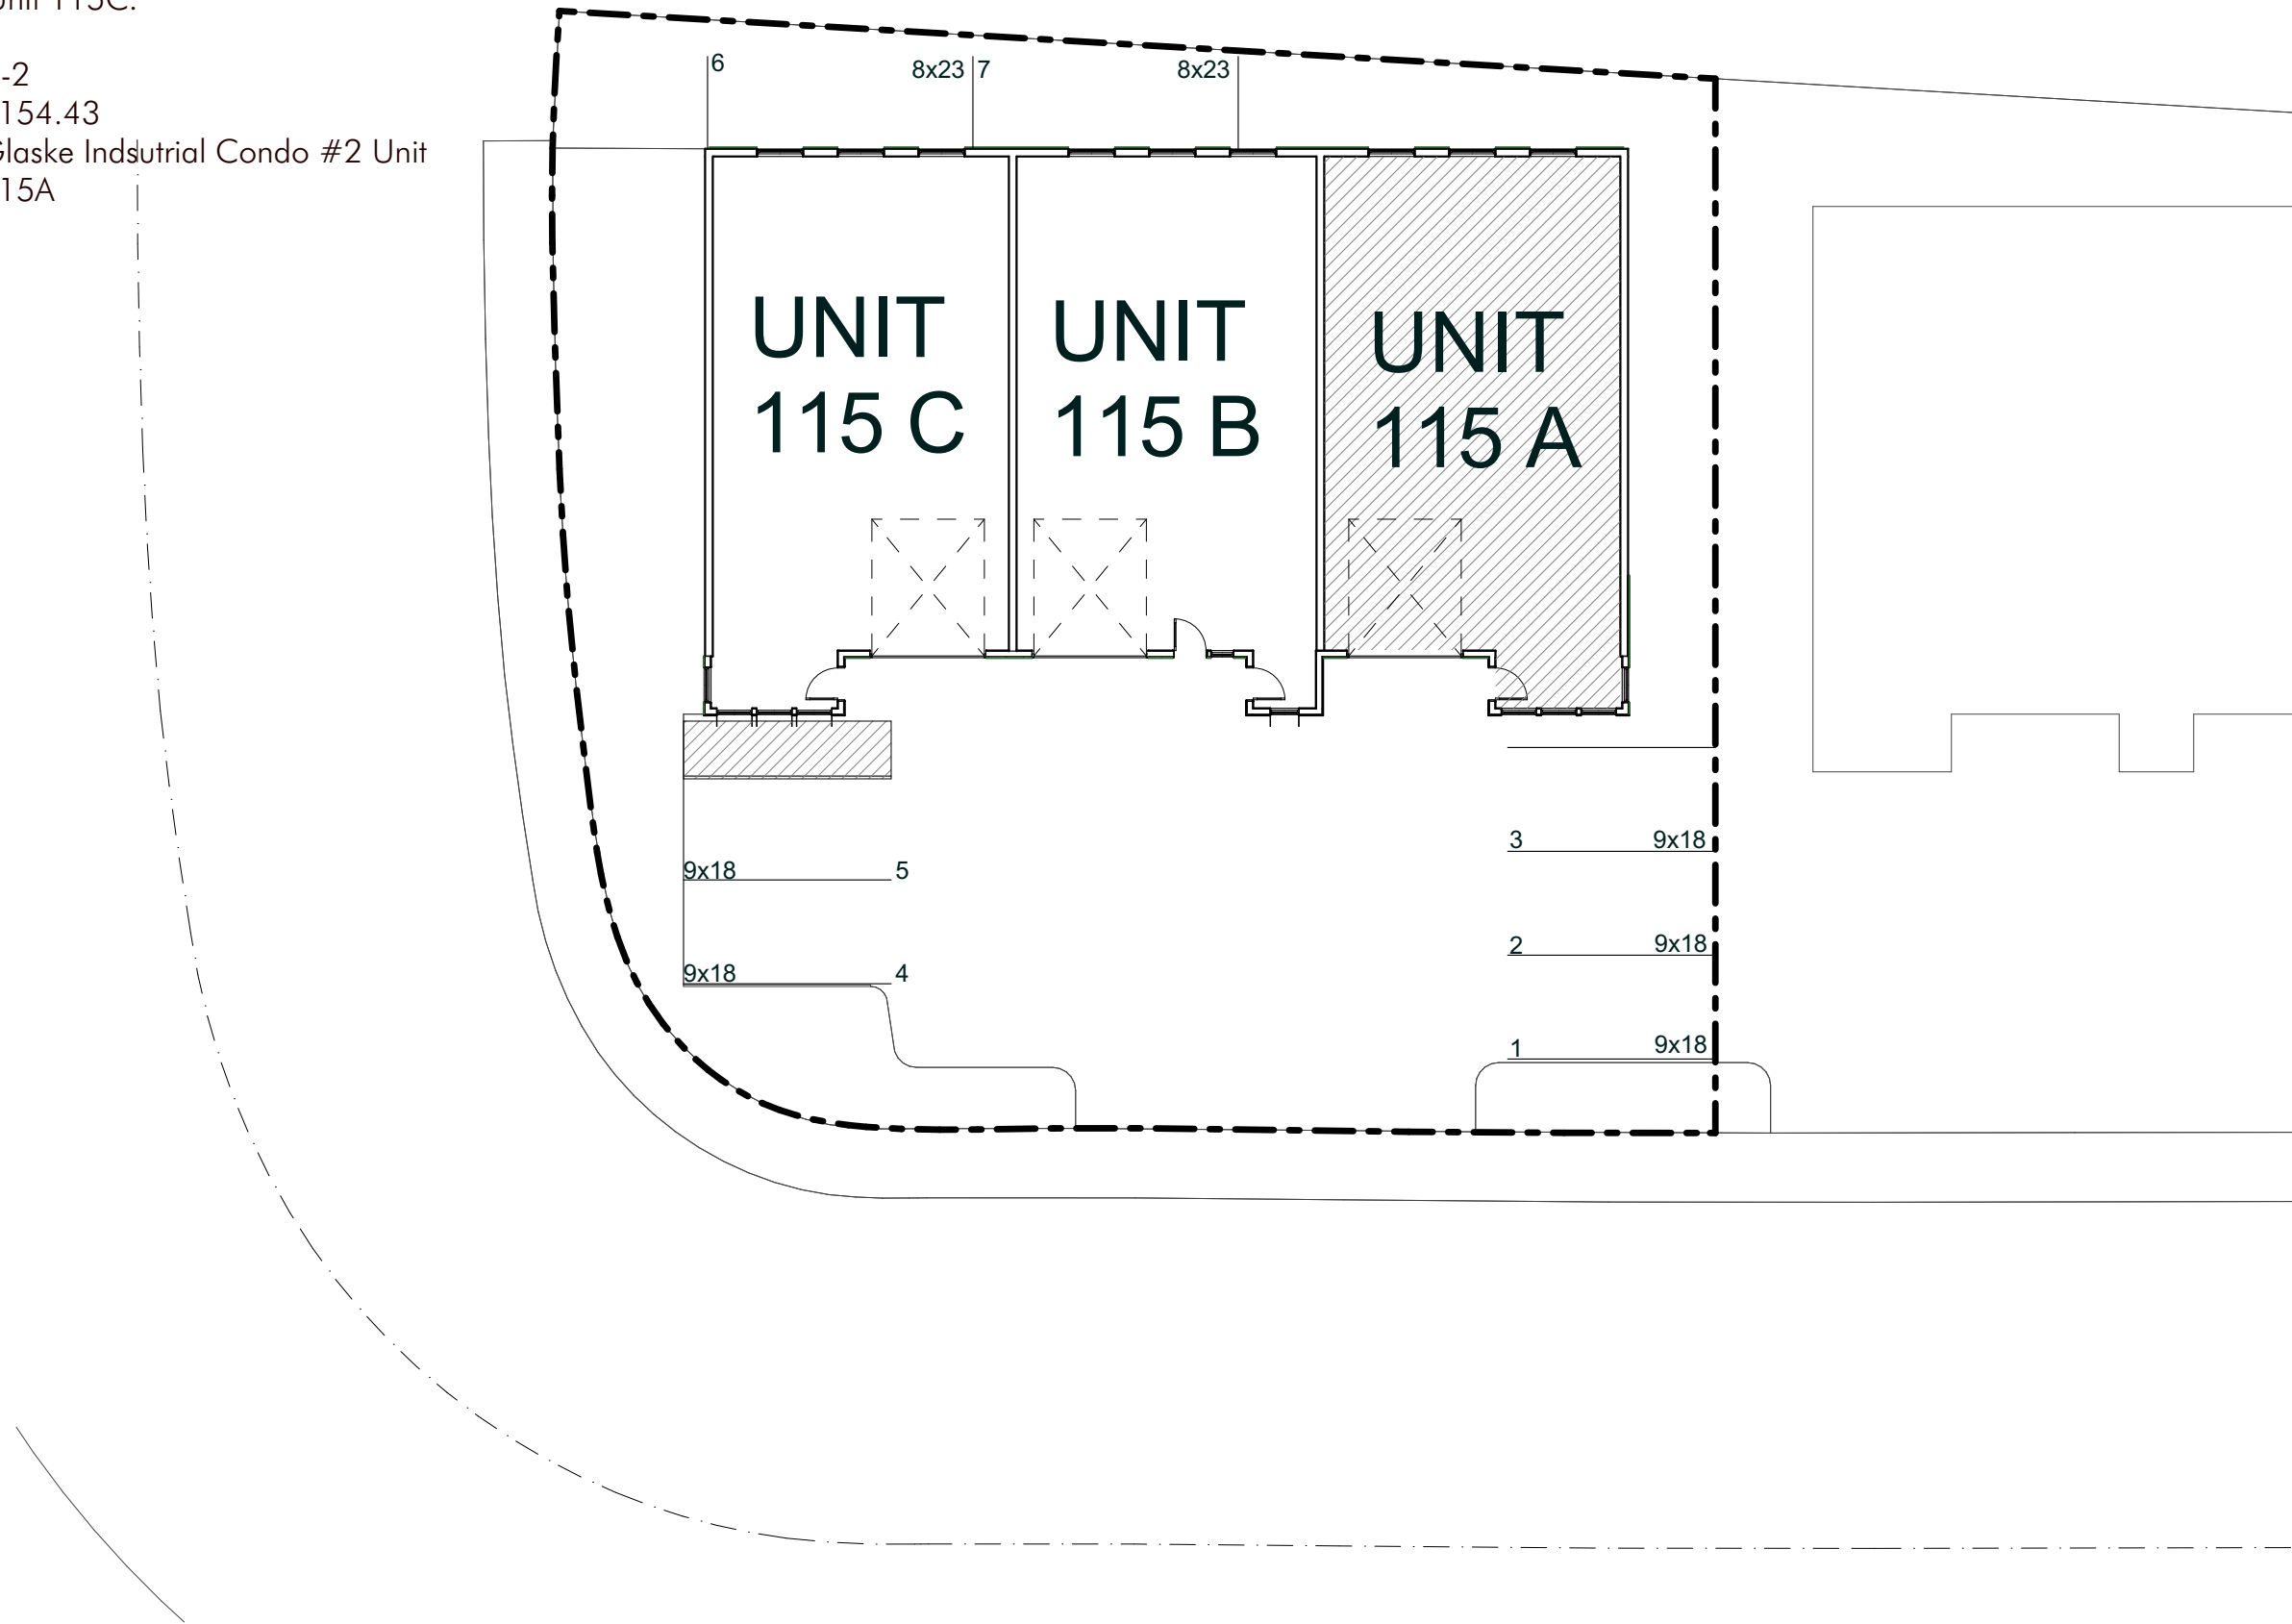

- A: PLAYERS CANNOT ACCESS THE FOLLOWS UNTIL 10 MINUTES BEFORE THE RESERVATION. (PLAYER SLOT)
- B: PLAYERS MUST EXIT THE FOLLOWS WITHIN 10 MINUTES AFTER THE RESERVATION. (PLAYER SLOT)

POWER PICKLE BALL CLUB: RESERVATION SYSTEM.
