

City of Ketchum

November 16th, 2020

Mayor Bradshaw and City Councilors City of Ketchum Ketchum, Idaho

Mayor Bradshaw and City Councilors:

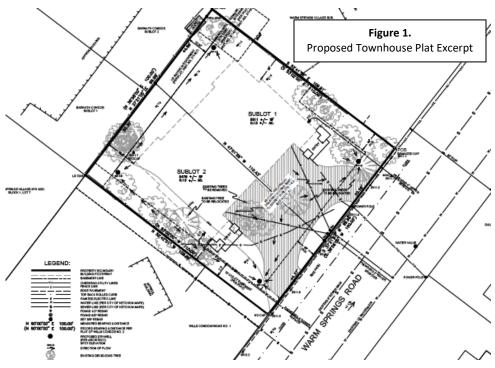

Recommendation to hold a public hearing and approve the Waddell-Roush Townhouse Subdivision Preliminary Plat

Recommendation and Summary

Staff recommends the City Council hold a public hearing, consider public input, and approve the Townhouse Subdivision Preliminary Plat by Benchmark Associates, submitted on behalf of property owners Doug and Stacey Waddell.

Design Review approval and a Building Permit for the construction of a new 2-unit residential structure were granted by the City in 2020. Previously, a 2-unit condominium building occupied the site; the condominium plat was vacated earlier in the spring of 2020 and the condominium building was demolished during the summer of 2020. The building permit for the new 2-unit building was issued on September 11, 2020 and the building is currently under construction.

The building was designed with the intent of platting the two residential units into townhomes so that each unit could be owned separately. The Preliminary Plat is the first step in the action of platting the building into townhouse units.

The Planning and Zoning Commission held a public hearing and recommended approval of the Preliminary Plat application on October 13th, 2020.

All city departments have reviewed the Preliminary Plat and have no issues or concerns with the application at this time. No public comments regarding the application have been received to date. Any public comments received after publication of the staff report will be included in the record and forwarded to Council.

480 East Ave. N. ★ P.O. Box 2315 ★ Ketchum, ID 83340 ★ main (208) 726-3841 ★ fax (208) 726-8234 facebook.com/CityofKetchum ★ twitter.com/Ketchum_Idaho ★ www.ketchumidaho.org **Recommended motion:** "I move to approve the Waddell-Roush Townhouse Subdivision Preliminary Plat application, subject to conditions 1-7 contained in the draft Findings of Fact, Conclusions of Law, and Decision and to adopt the draft Findings as presented."

The reasons for the recommendation are as follows:

- The two-unit residential building, currently under construction, was designed with the intent of being platted into townhouse units. The request to subdivide meets all applicable standards for Lot Line Shift Preliminary Plats contained in Ketchum Municipal Code's Subdivision (Title 16) and Zoning (Title 17) regulations.
- The Planning and Zoning Commission recommended approval of the Preliminary at their October 13th, 2020 meeting.

<u>Financial Impact</u> None at this time.

FINDINGS OF FACT

of

- 1. The applicant is requesting Preliminary Plat approval for a two-unit attached townhome development. The subject property, 3020 Warm Springs Road (Wills Condominium No. 2 Amended), is located within the City's General Residential Low Density (GR-L) Zoning District.
- Previously, a two-unit condominium building, the Wills Condominium No. 2 development, occupied the site. In 2020 the condominium plat was vacated via the Readjustment of Lot Lines procedure (P20-61). The property owners proceeded to receive Design Review (P20-031) and Building Permit (B20-079) approval for a new two-unit residential building; the building was designed with the intent to be platted into individual townhouse units located on individual townhouse sublots. After issuance of the Building Permit for the new structure the prior structure was demolished.
- 3. The new building is currently under construction and the property owner has now applied for a preliminary plat to subdivide the property located at 3020 Warm Springs Road into two townhouse

sublots (Waddell-Roush Townhomes: Sublots 1 and 2). The subdivision platting action will make the two townhouse sublots eligible for individual sale.

- 4. The townhome development has been evaluated for conformance with zoning, Design Review, and all other applicable life safety codes through the Design Review and Building Permit review processes and the project complies with all applicable standards and regulations. Review of this application is limited to the Preliminary Plat standards of evaluation for townhome developments.
- 5. The Planning & Zoning Commission reviewed the Waddell-Roush Townhouse Subdivision Preliminary Plat, held a public hearing, and recommended approval of the application to the City Council on October 13th, 2020. Ketchum City Council held a public hearing on November 16th, 2020 and approved the Preliminary Plat application.

Table 2: Townhouse Plat Requirements

				Townhouse Plat Requirements
Co	Compliant			Standards and Planning and Zoning Commission Findings
Yes	No	N/ A	City Code	City Standards and Planning and Zoning Commission Findings
			16.04.080.B	Townhouse Owners' Documents: The subdivider of the townhouse project shall submit with the preliminary plat application a copy of the proposed party wall agreement and any proposed document(s) creating an association of owners of the proposed townhouse sublots, which shall adequately provide for the control and maintenance of all commonly held facilities, garages, parking and/or open spaces. Prior to final plat approval, the subdivider shall submit to the city a final copy of such documents and shall file such documents prior to recordation of the plat, which shall reflect the recording instrument numbers.
			Findings	The applicant has submitted the draft Townhouse Declaration for the project. The developer shall submit a final copy of the document to the Planning & Building Department and file such document prior to recordation of the final plat.

\boxtimes		16.04.080.C.1	Preliminary Plat Procedure: Townhouse developments shall be administered
			consistent with the procedures and design and development regulations established in §16.04.030 and §16.04.040 and the standards of this subsection.
			All townhouse developments shall be platted under the procedures contained in
			the subdivision ordinance in effect and shall be required to obtain design review
			approval prior to building permit issuance.
		Findings	In 2020, the project received Design Review approval under the procedural
			regulations in place at the time. A Building Permit was issued for the townhome
			development in 2020.
\boxtimes		16.04.080.C.2	The subdivider may apply for preliminary plat approval from the commission
			pursuant to subsection 16.04.030D of this chapter at the time application is made for design review approval pursuant to title 17, chapter 17.96 of this code. The
			commission may approve, deny or conditionally approve such preliminary plat
			upon consideration of the action taken on the application for design review of the
			project.
		Findings	The Commission approved Design Review for this development prior to hearing the
		_	Preliminary Plat application.
\boxtimes		16.04.080.C.3	The preliminary plat, other data, and the commission's findings may be
			transmitted to the council prior to commencement of construction of the project
			under a valid building permit issued by the City. The council shall act on the
			preliminary plat pursuant to subsection 16.04.030E and F of this chapter.
		Findings	A Building Permit was issued for the project in 2020 and the townhomes are
		16.04.080.C.4	<i>currently under construction.</i> 4. In the event a phased townhouse development project is proposed, after
	\mathbf{X}	10.04.080.0.4	preliminary plat is granted for the entirety of a project, the final plat procedure for
			each phase of a phased development project shall follow §16.04.030.G and
			comply with the additional provisions of §16.04.110 of this code.
		Findings	N/A as the applicant has not proposed phasing for this development project. The
		_	developer is constructing the townhomes concurrently as the two townhouses are
			located within the same building and share a party wall.
\boxtimes		16.04.080.D	D. Final Plat Procedure:
			1. The final plat procedure contained in subsection 16.04.030G of this chapter
			shall be followed. However, the final plat shall not be signed by the city clerk and
			recorded until the townhouse has received either: a. A certificate of occupancy issued by the city of Ketchum for all
			structures in the townhouse development and completion of all design
			review elements as approved by the planning and zoning administrator; or
			b. Signed council approval of a phased development project consistent
			with §16.04.110 herein.
			2. The council may accept a security agreement for any design review elements
			not completed on a case by case basis pursuant to title 17, chapter 17.96 of this
			code.
		Findings	The applicant shall follow the final plat procedure upon completion of construction.
X		16.04.080.E.1	E. Required Findings: In addition to all Townhouse Developments complying with the applicable provisions of Title 17 and this Subdivision Chapter (§16.04), the Administrator shall find that

			All Townhouse Developments, including each individual sublot, shall not exceed the maximum building coverage requirements of the zoning district.
		Findings	This standard has been met and was verified for compliance during Building Permit review and approval.
		16.04.080.E.2	Garage: All garages shall be designated on the preliminary and final plats and on all deeds as part of the particular townhouse units. Detached garages may be platted on separate sublots; provided, that the ownership of detached garages is tied to specific townhouse units on the townhouse plat and in any owner's documents, and that the detached garage(s) may not be sold and/or owned separate from any dwelling unit(s) within the townhouse development.
		Findings	Each unit has a garage and both garages are entirely contained within the structure and are located on each respective townhouse sublot.
X		16.04.080.E.3	General Applicability: All other provisions of this chapter and all applicable ordinances, rules and regulations of the city and all other governmental entities having jurisdiction shall be complied with by townhouse subdivisions. (Ord. 1061 § 3, 2009: Ord. 879 § 4, 2001: Ord. 460 § 2, 1987)
		Findings	<i>This townhouse subdivision will comply with all applicable local, state, and federal ordinances, rules, and regulations.</i>

Table 3: Preliminary Plat Requirements (all subdivisions)

				Preliminary Plat Requirements

		Α		
\boxtimes			16.04.030.C.1	The subdivider shall file with the administrator copies of the completed
				subdivision application form and preliminary plat data as required by this
				chapter.
			Findings	The application has been reviewed and determined to be complete.
\boxtimes			16.04.030.J	Application and Preliminary Plat Contents: The preliminary plat, together with all
				application forms, title insurance report, deeds, maps, and other documents
				reasonably required, shall constitute a complete subdivision application. The
				preliminary plat shall be drawn to a scale of not less than one inch equals one
				hundred feet (1" = 100') and shall show the following:
			Findings	All required materials for the Preliminary Plat application have been submitted.
\boxtimes			16.04.030.I.1	The scale, north point and date.
			Findings	This standard has been met. The preliminary plat contains a scale, north point, and
				date.
\boxtimes			16.04.030.J.2	The name of the proposed subdivision.
			Findings	This standard has been met. The name of the proposed subdivision is Waddell/Roush
			0	Townhomes.
\boxtimes			16.04.030.J.3	The name and address of the owner of record, the subdivider, and the engineer,
				surveyor, or other person preparing the plat.
			Findings	This information has been provided on the application form and indicated on the
				Preliminary Plat.
\boxtimes			16.04.030.J.4	Legal description of the area platted.
			Findings	This standard has been met.

\boxtimes			16.04.030.J.5	The names and the intersecting boundary lines of adjoining subdivisions and parcels of property.
			Findings	This standard has been met. The Warm Springs Village Sub. Block 5, Lot 5, Galena
			-	Townhomes, Wills Condominiums No. 1, Sage Townhouses Lot 5A, Barnath Condos,
				and Warm Springs Village 4 th Addition, Block 1, Lot 7 properties and their boundary
				lines are identified on the Preliminary Plat.
		X	16.04.030.J.6	A contour map of the subdivision with contour lines and a maximum interval of two
				feet (2') to show the configuration of the land based upon the United States
				geodetic survey data, or other data approved by the city engineer.
			Findings	This standard is not applicable as this is redevelopment of a site that was previously
				developed. The former structure has been demolished, the site cleared, and the new
				two-unit project is under construction.
\boxtimes			16.04.030.J.7	The scaled location of existing buildings, water bodies and courses and location of
				the adjoining or immediately adjacent dedicated streets, roadways and easements,
				public and private.
			Findings	The features present in the vicinity, existing buildings, streets, and easements, are
				indicated.
\boxtimes			16.04.030.J.8	Boundary description and the area of the tract.
			Findings	This boundary description and the area of the tract are noted on the Preliminary Plat.
\boxtimes			16.04.030.J.9	Existing zoning of the tract.
			Findings	The property is within the GR-L Zoning District. Plat note #5 references the zoning
			U	district.
\mathbf{X}			16.04.030.J.10	The proposed location of street rights of way, lots, and lot lines, easements,
	_	_		including all approximate dimensions, and including all proposed lot and block
				numbering and proposed street names.
			Findings	This standard has been met. No new streets are proposed. The sublot lines and
			U	dimensions are indicated on the preliminary plat.
\boxtimes			16.04.030.J.11	The location, approximate size and proposed use of all land intended to be
				dedicated for public use or for common use of all future property owners within the
				proposed subdivision.
			Findings	No land for common or public use is required or proposed.
\mathbf{X}			16.04.030.J.12	The location, size and type of sanitary and storm sewers, water mains, culverts
				and other surface or subsurface structures existing within or immediately
				adjacent to the proposed sanitary or storm sewers, water mains, and storage
				facilities, street improvements, street lighting, curbs, and gutters and all
				proposed utilities.
			Findings	The plat indicates the proposed locations of all utilities service the townhome
				development. No street infrastructure improvements are proposed with this
				project.
		\boxtimes	16.04.030.J.13	The direction of drainage, flow and approximate grade of all streets.
			Findings	N/a as no new streets are proposed.
\boxtimes			16.04.030.J.14	The location of all drainage canals and structures, the proposed method of
				disposing of runoff water, and the location and size of all drainage easements,
				whether they are located within or outside of the proposed plat.
			Findings	Civil drawings for the drainage improvements were reviewed and approved with the
				Building Permit application.
\boxtimes			16.04.030.J.15	Vicinity map drawn to approximate scale showing the location of the
				proposed subdivision in reference to existing and/or proposed arterials and
				collector streets.

		L Finalinga	This application subdivides a platted let into two townhouse sublets. The original
		Findings	<i>This application subdivides a platted lot into two townhouse sublots. The original subdivision's plat, Wills Condominiums No. 2, serves as the vicinity map.</i>
	\boxtimes	16.04.030.J.16	
		10.04.030.J.10	The boundaries of the floodplain, floodway and avalanche overlay district shall
			also be clearly delineated and marked on the preliminary plat or a note provided
			if the entire project is in the floodplain, floodway or avalanche overlay district.
		Findings	N/A. The property is not currently mapped to be in the floodplain/floodway. The
			property is not within the avalanche overlay.
	\boxtimes	16.04.030.J.17	Building envelopes shall be shown on each lot, all or part of which is within a
			floodway, floodplain, or avalanche zone; or any lot that is adjacent to the Big
			Wood River, Trail Creek, or Warm Springs Creek; or any lot, a portion of which
			has a slope of twenty five percent (25%) or greater; or upon any lot which will
			be created adjacent to the intersection of two (2) or more streets.
		Findings	N/A . The property is not located within the floodway, floodplain, or avalanche
			zone. The property doesn't lie adjacent to a river or creek. The lot doesn't contain
			slopes of 25% or greater. The subject property is not a corner lot.
\boxtimes		16.04.030.J.18	Lot area of each lot.
		Findings	The proposed size of each lot is indicated: Sublot 1 – 5,511 square feet, Sublot 2 –
			5,476 square feet.
X		16.04.030.J .19	Existing mature trees and established shrub masses.
		Findings	The townhome development is currently under construction. The landscape plan
		0	was approved through Design Review and the Building Permit processes.

		Findings 16.04.040.B	 constructed in compliance with construction standard specifications adopted by the city. Existing natural features which enhance the attractiveness of the subdivision and community, such as mature trees, watercourses, rock outcroppings, established shrub masses and historic areas, shall be preserved through design of the subdivision. N/A. The site was cleared prior to receipt of the Preliminary Plat application. However, a landscaping plan was required with Design Review approval; the site will be landscaped concurrently with construction of the new building. Improvement Plans: Prior to approval of final plat by the commission, the subdivider shall file two (2) copies with the city engineer, and the city engineer shall approve construction plans for all improvements required in the proposed subdivision. Such plans shall be prepared by a civil engineer licensed in the
		Findings	state. The City Engineer reviewed and approved the civil drawings submitted with Building
		16.04.040.C Findings	Permit 20-079. Prior to final plat approval, the subdivider shall have previously constructed all required improvements and secured a certificate of completion from the city engineer. However, in cases where the required improvements cannot be constructed due to weather conditions or other factors beyond the control of the subdivider, the city council may accept, in lieu of any or all of the required improvements, a performance bond filed with the city clerk to ensure actual construction of the required improvements as submitted and approved. Such performance bond shall be issued in an amount not less than one hundred fifty percent (150%) of the estimated costs of improvements as determined by the city engineer. In the event the improvements are not constructed within the time allowed by the city council (which shall be one year or less, depending upon the individual circumstances), the council may order the improvements installed at the expense of the subdivider and the surety. In the event the cost of installing the required improvements exceeds the amount of the performance bond shall automatically become a lien upon any and all property within the subdivision owned by the owner and/or subdivider.
X		16.04.040.D	As Built Drawing: Prior to acceptance by the city council of any improvements installed by the subdivider, two (2) sets of as built plans and specifications, certified by the subdivider's engineer, shall be filed with the city engineer. Within ten (10) days after completion of improvements and submission of as built drawings, the city engineer shall certify the completion of the improvements and the acceptance of the improvements, and shall submit a copy of such certification to the administrator and the subdivider. If a performance bond has been filed, the administrator shall forward a copy of the certification to the city clerk. Thereafter, the city clerk shall release the performance bond upon application by the subdivider.
X		Findings 16.04.040.E	The City Engineer shall inspect the required improvements prior to issuance of a Certificate of Occupancy for the project. Monumentation: Following completion of construction of the required
		10.04.040.E	improvements and prior to certification of completion by the city engineer, certain land survey monuments shall be reset or verified by the subdivider's

1			
			engineer or surveyor to still be in place. These monuments shall have the size,
			shape, and type of material as shown on the subdivision plat. The monuments
			shall be located as follows:
			1. All angle points in the exterior boundary of the plat.
			2. All street intersections, points within and adjacent to the final plat.
			3. All street corner lines ending at boundary line of final plat.
			4. All angle points and points of curves on all streets.
			5. The point of beginning of the subdivision plat description.
		Findings	The applicant shall meet the required monumentation standards prior to
		Thangs	recordation of the final plat.
X		10 04 040 5	
		16.04.040.F	Lot Requirements:
			1. Lot size, width, depth, shape and orientation and minimum building setback lines
			shall be in compliance with the zoning district in which the property is located and
			compatible with the location of the subdivision and the type of development, and
			preserve solar access to adjacent properties and buildings.
			2. Whenever a proposed subdivision contains lot(s), in whole or in part, within the
			floodplain, or which contains land with a slope in excess of twenty five percent
			(25%), based upon natural contours, or creates corner lots at the intersection of two
			(2) or more streets, building envelopes shall be shown for the lot(s) so affected on
			the preliminary and final plats. The building envelopes shall be located in a manner
			designed to promote harmonious development of structures, minimize congestion
			of structures, and provide open space and solar access for each lot and structure.
			Also, building envelopes shall be located to promote access to the lots and
			maintenance of public utilities, to minimize cut and fill for roads and building
			foundations, and minimize adverse impact upon environment, watercourses and
			topographical features. Structures may only be built on buildable lots. Lots shall onl
			be created that meet the definition of "lot, buildable" in section 16.04.020 of this
			chapter. Building envelopes shall be established outside of hillsides of twenty five
			percent (25%) and greater and outside of the floodway. A waiver to this standard
			may only be considered for the following: a. For lot line shifts of parcels that are
			entirely within slopes of twenty five percent (25%) or greater to create a reasonable
			building envelope, and mountain overlay design review standards and all other city
			requirements are met. b. For small, isolated pockets of twenty five percent (25%) or
			greater that are found to be in compliance with the purposes and standards of the
			mountain overlay district and this section.
			3. Corner lots outside of the original Ketchum Townsite shall have a property line
			curve or corner of a minimum radius of twenty five feet (25') unless a longer radius
			is required to serve an existing or future use.
			4. Side lot lines shall be within twenty degrees (20°) to a right angle or radial line to
			the street line.
			5. Double frontage lots shall not be created. A planting strip shall be provided along
			the boundary line of lots adjacent to arterial streets or incompatible zoning districts
			6. Every lot in a subdivision shall have a minimum of twenty feet (20') of frontage or
			a dedicated public street or legal access via an easement of twenty feet (20') or
			greater in width. Easement shall be recorded in the office of the Blaine County
			recorder prior to or in conjunction with recordation of the final plat
		Findings	Standards 1, 4, 5, and 6 have been met.
			Standards 2 and 3 are not applicable.

	X	16.04.040.G Findings	 G. Block Requirements: The length, width and shape of blocks within a proposed subdivision shall conform to the following requirements: No block shall be longer than one thousand two hundred feet (1,200'), nor less than four hundred feet (400') between the street intersections, and shall have sufficient depth to provide for two (2) tiers of lots. Blocks shall be laid out in such a manner as to comply with the lot requirements. The layout of blocks shall take into consideration the natural topography of the land to promote access within the subdivision and minimize cuts and fills for roads and minimize adverse impact on environment, watercourses and topographical features. Except in the original Ketchum Townsite, corner lots shall contain a building envelope outside of a seventy five foot (75') radius from the intersection of the streets.
	X		H. Street Improvement Requirements:
			 1. The arrangement, character, extent, width, grade and location of all streets put in the proposed subdivision shall conform to the comprehensive plan and shall be considered in their relation to existing and planned streets, topography, public convenience and safety, and the proposed uses of the land; N/A, the subject properties are within an existing subdivision. No new streets are
		Findings	proposed.
	X	16.04.040.H.2	2. All streets shall be constructed to meet or exceed the criteria and standards set forth in chapter 12.04 of this code, and all other applicable ordinances, resolutions or regulations of the city or any other governmental entity having jurisdiction, now existing or adopted, amended or codified;
		Findings	This proposal does not create a new street. These standards are no applicable.
	\boxtimes	-	3. Where a subdivision abuts or contains an existing or proposed arterial street, railroad or limited access highway right of way, the council may require a frontage street, planting strip, or similar design features;
		Findings	N/A. No street frontage improvements like planting strips are required.
	X		 Streets may be required to provide access to adjoining lands and provide proper traffic circulation through existing or future neighborhoods;
	5-2	Findings	This proposal does not create a new street. These standards are no applicable.
	\boxtimes		5. Street grades shall not be less than three-tenths percent (0.3%) and not more than seven percent (7%) so as to provide safe movement of traffic and emergency vehicles in all weather and to provide for adequate drainage and snow plowing;
		Findings	This proposal does not create a new street. These standards are no applicable.
	X	16.04.040.H.6 Findings	6. In general, partial dedications shall not be permitted, however, the council may accept a partial street dedication when such a street forms a boundary of the proposed subdivision and is deemed necessary for the orderly development of the neighborhood, and provided the council finds it practical to require the dedication of the remainder of the right of way when the adjoining property is subdivided. When a partial street exists adjoining the proposed subdivision, the remainder of the right of way shall be dedicated; N/A. This proposal does not create a new street. These standards are no applicable.
	\mathbf{X}	-	7. Dead end streets may be permitted only when such street terminates at the
			boundary of a subdivision and is necessary for the development of the
			ubdivision Proliminary Plat

			subdivision or the future development of the adjacent property. When such a dead end street serves more than two (2) lots, a temporary turnaround easement shall be provided, which easement shall revert to the adjacent lots when the street is extended;
		Findings	N/A. This proposal does not create a new street. These standards are no applicable.
	\boxtimes	16.04.040.H.8	8. A cul-de-sac, court or similar type street shall be permitted only when necessary to the development of the subdivision, and provided, that no such street shall have a maximum length greater than four hundred feet (400') from entrance to center of turnaround, and all cul-de-sacs shall have a minimum turnaround radius of sixty feet (60') at the property line and not less than forty five feet (45') at the curb line;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are proposed.
	X	16.04.040.H.9	9. Streets shall be planned to intersect as nearly as possible at right angles, but in no event at less than seventy degrees (70°);
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are proposed.
	\boxtimes	16.04.040.H.10	10. Where any street deflects an angle of ten degrees (10°) or more, a connecting curve shall be required having a minimum centerline radius of three hundred feet (300') for arterial and collector streets, and one hundred twenty five feet (125') for minor streets;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are proposed.
	X	16.04.040.H.11	11. Streets with centerline offsets of less than one hundred twenty five feet (125') shall be prohibited;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are proposed.
	\boxtimes	16.04.040.H.12	12. A tangent of at least one hundred feet (100') long shall be introduced between reverse curves on arterial and collector streets;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are proposed.
			13. Proposed streets which are a continuation of an existing street shall be given the same names as the existing street. All new street names shall not duplicate or be confused with the names of existing streets within Blaine County, Idaho. The subdivider shall obtain approval of all street names within the proposed subdivision from the County Assessor's office before submitting same to council for preliminary plat approval;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are proposed.
	X	16.04.040.H.14	14. Street alignment design shall follow natural terrain contours to result in safe streets, usable lots, and minimum cuts and fills;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are proposed.
	\boxtimes	16.04.040.H.15	15. Street patterns of residential areas shall be designed to create areas free of through traffic, but readily accessible to adjacent collector and arterial streets;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are proposed.

_			
	\boxtimes	16.04.040.H.16	16. Reserve planting strips controlling access to public streets shall be permitted under conditions specified and shown on the final plat, and all landscaping and irrigation systems shall be installed as required improvements by the subdivider;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are
		•	proposed.
	\mathbf{X}		17. In general, the centerline of a street shall coincide with the centerline of the
	_		street right of way, and all crosswalk markings shall be installed by the
			subdivider as a required improvement;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are
		-	proposed.
	X		18. Street lighting shall be required consistent with adopted city standards and
			where designated shall be installed by the subdivider as a requirement
			improvement;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are
		•	proposed.
	\boxtimes		19. Private streets may be allowed upon recommendation by the commission and
			approval by the Council. Private streets shall be constructed to meet the design
			standards specified in subsection H2 of this section and chapter 12.04 of this
			code;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are
			proposed.
	\boxtimes	16.04.040.H.20	20. Street signs shall be installed by the subdivider as a required improvement of a
			type and design approved by the Administrator and shall be consistent with the
			type and design of existing street signs elsewhere in the City;
		Findings	N/A. The townhouse sublots are within an existing subdivision. No new streets are
 			proposed.
	\boxtimes	16.04.040.H.21	21. Whenever a proposed subdivision requires construction of a new bridge, or will
			create substantial additional traffic which will require construction of a new
			bridge or improvement of an existing bridge, such construction or improvement
			shall be a required improvement by the subdivider. Such construction or
		ria dia se	improvement shall be in accordance with adopted standard specifications;
		•	N/A. This proposal does not require construction of a new bridge or impact any
	X		existing bridges.
		10.04.040.0.22	22. Sidewalks, curbs and gutters shall be required consistent with adopted city standards and where designated shall be a required improvement installed by
			the subdivider;
		Findings	N/A. The subject properties abut an existing developed street within a residential area.
		-	N/A. The subject properties about an existing developed street within a residential area. No sidewalks are required for the project. The property does, however, have frontage
			on the existing bike path.
	\mathbf{X}		23. Gates are prohibited on private roads and parking access/entranceways, private
_	_	10104104011120	driveways accessing more than one single-family dwelling unit and one
			accessory dwelling unit, and public rights-of-way unless approved by the City
			Council; and
		Findings	N/A. No private road or gates are proposed.
	X	•	24. No new public or private streets or flag lots associated with a proposed
			subdivision (land, planned unit development, townhouse, condominium) are
			permitted to be developed on parcels within the Avalanche Zone
		Findings	N/A. The townhouse sublots are not located within the Avalanche Zone and no new
		-	public or private streets or flag lots are proposed.

		_		
		\boxtimes	16.04.040.I Findings	I. Alley Improvement Requirements: Alleys shall be provided in, commercial and light industrial zoning districts. The width of an alley shall be not less than twenty feet (20'). Alley intersections and sharp changes in alignment shall be avoided, but where necessary, corners shall be provided to permit safe vehicular movement. Dead end alleys shall be permitted only within the original Ketchum Townsite and only after due consideration of the interests of the owners of property adjacent to the dead end alley including, but not limited to, the provision of fire protection, snow removal and trash collection services to such properties. Improvement of alleys shall be done by the subdivider as required improvement and in conformance with design standards specified in subsection H2 of this section. N/A. The townhouse sublots are located in the GR-L Zone and do not abut an alley.
\mathbf{X}			16.04.040.J.1	J. Required Easements: Easements, as set forth in this subsection, shall be required
				 for location of utilities and other public services, to provide adequate pedestrian circulation and access to public waterways and lands. 1. A public utility easement at least ten feet (10') in width shall be required within the street right-of-way boundaries of all private streets. A public utility easement at least five feet (5') in width shall be required within property boundaries adjacent to Warm Springs Road and within any other property boundary as determined by the City Engineer to be necessary for the provision of adequate public utilities.
			Findings	The required public utility along Warm Springs Road is reflected on the plat. All other existing and necessary easements are indicated on the plat.
		\boxtimes	16.04.040.J.2	2. Where a subdivision contains or borders on a watercourse, drainageway, channel or stream, an easement shall be required of sufficient width to contain such watercourse and provide access for private maintenance and/or reconstruction of such watercourse.
			Findings	N/A. The townhouse sublots do not border a waterway.
		\boxtimes	16.04.040.J.3	3. All subdivisions which border the Big Wood River, Trail Creek and Warm Springs
	_			Creek shall dedicate a ten foot (10') fish and nature study easement along the riverbank. Furthermore, the Council shall require, in appropriate areas, an easement providing access through the subdivision to the bank as a sportsman's access. These easement requirements are minimum standards, and in appropriate cases where a subdivision abuts a portion of the river adjacent to an existing pedestrian easement, the Council may require an extension of that easement along the portion of the riverbank which runs through the proposed subdivision.
			Findings	N/A. The townhouse sublots do not border a waterway.
		\boxtimes	16.04.040.J.4	4. All subdivisions which border on the Big Wood River, Trail Creek and Warm Springs Creek shall dedicate a twenty five foot (25') scenic easement upon which no permanent structure shall be built in order to protect the natural vegetation and wildlife along the riverbank and to protect structures from damage or loss due to riverbank erosion. N/A. The townhouse sublots do not border a waterway.
		X	Findings	
			16.04.040.J.5	5. No ditch, pipe or structure for irrigation water or irrigation wastewater shall be constructed, rerouted or changed in the course of planning for or constructing required improvements within a proposed subdivision unless same has first been approved in writing by the ditch company or property owner holding the

improvement construction plans. Findings N/A. No changes to ditches, pipes, or other irrigation structures are proposed. □ □ 16.04.040.J.6 6. Nonvehicular transportation system easements including pedestrian walkways, bike paths, equestrian paths, and similar easements shall be dedicated by the subdivider to provide an adequate nonvehicular transportation system throughout the City. Findings N/A. The townhouse sublots exist in a developed residential area and abut an existing public street, Warm Springs Road, and bike path. □ □ ■ 16.04.040.K K. Sanitary Sewage Disposal Improvements: Central sanitary sewer systems shall be installed in all subdivisions and connected to the Ketchum sewage treatment system as a required improvement by the subdivider. Construction plans and specifications for central sanitary sewer extension shall be prepared by the subdivisior cannot connect to the existing public sewage system, alternative provisions for sewage disposal in accordance with the requirements of the Idaho Department of Health and the Council may be constructed on a temporary basis until such time as connection to the public sewage system is possible. In considering such alternative provisons, the Council may require an increase in the minimum lot size and may impose any other reasonable requirements which it deems necessary to protect public health, safety and welfare. □ □ ■ 16.04.040.L L. Water System Improvements: A central domestic water distribution system shall be installed in all subdivisions by the subdivider as a required improvement. The subdivider shall also be required to locate and install an adequate number of fire				water rights. A written copy of such approval shall be filed as part of required
Findings N/A. No changes to ditches, pipes, or other irrigation structures are proposed. 1 16.04.040.16 6. Nonvehicular transportation system easements including pedestrian walkways, bike peatity maps, equasity in paths, and similar easements shall be dedicated by the subdivider to provide an adequate nonvehicular transportation system throughout the City. Findings N/A. The townhouse sublots exist in a developed residential area and abut an existing public street, Warm Springs Road, and bike path. Image: Street, Warm Springs Road, and bike path. K. Sanitary Sewage Disposal Improvements: Central sanitary sewer systems shall be installed in all subdivisions and connected to the Ketchum sewage treatment system as a required improvement by the subdivider. Construction plans and specifications for central sanitary sewer extension shall be prepared by the subdivider and approved by the City Engineer, Council and Idao Health Department prior to final plat approval. In the event that the sanitary sewage system of a subdivision cannot connect to the existing public sewage system, alternative provisions for sewage disposal in accordance with the requirements of the Idaho Department of a site that is already connected to the public sewage system. planned to be compatible with natural topography. soil conditions, geology and	\boxtimes		16.04.040.N.1	N. Cuts, Fills, And Grading Improvements: Proposed subdivisions shall be carefully
	1			planned to be compatible with natural topography, soil conditions, geology and

			hydrology of the site, as well as to minimize cuts, fills, alterations of topography, streams, drainage channels, and disruption of soils and vegetation. The design criteria shall include the following:
			1. A preliminary soil report prepared by a qualified engineer may be required by the commission and/or Council as part of the preliminary plat application.
		Findings	Grading improvements were reviewed and approved as part of the Building Permit B20-079.
		16.04.040.N.2	 Preliminary grading plan prepared by a civil engineer shall be submitted as part of all preliminary plat applications. Such plan shall contain the following information: a. Proposed contours at a maximum of five foot (5') contour intervals.
			b. Cut and fill banks in pad elevations. c. Drainage patterns.
			d. Areas where trees and/or natural vegetation will be preserved. e. Location of all street and utility improvements including driveways to building envelopes.
			f. Any other information which may reasonably be required by the Administrator, commission or Council to adequately review the affect of the proposed improvements.
		Findings	Site grading was approved with Building Permit B20-079.
X		16.04.040.N.3	3. Grading shall be designed to blend with natural landforms and to minimize the necessity of padding or terracing of building sites, excavation for foundations, and minimize the necessity of cuts and fills for streets and driveways.
		Findings	The site grading plan was reviewed and approved by City Departments with Building Permit B20-079.
	\boxtimes	16.04.040.N.4	4. Areas within a subdivision which are not well suited for development because of existing soil conditions, steepness of slope, geology or hydrology shall be allocated for open space for the benefit of future property owners within the subdivision.
		Findings	N/A. This is a redevelopment project and is appropriate for the construction of the two townhome units.
		16.04.040.N.5	5. Where existing soils and vegetation are disrupted by subdivision development, provision shall be made by the subdivider for revegetation of disturbed areas with perennial vegetation sufficient to stabilize the soil upon completion of the construction. Until such times as such revegetation has been installed and established, the subdivider shall maintain and protect all disturbed surfaces from erosion.
		Findings	Landscaping will be installed pursuant to the landscape plan approved with the Design Review and Building Permit applications.
	\boxtimes	16.04.040.N.6	 6. Where cuts, fills, or other excavations are necessary, the following development standards shall apply: a. Fill areas shall be prepared by removing all organic material detrimental to proper compaction for soil stability. b. Fills shall be compacted to at least ninety five percent (95%) of maximum density
			as determined by AASHO T99 (American Association of State Highway Officials) and ASTM D698 (American Standard Testing Methods).

			c. Cut slopes shall be no steeper than two horizontal to one vertical (2:1). Subsurface
			drainage shall be provided as necessary for stability.
			d. Fill slopes shall be no steeper than three horizontal to one vertical (3:1). Neither
			cut nor fill slopes shall be located on natural slopes of three to one (3:1) or steeper,
			or where fill slope toes out within twelve feet (12') horizontally of the top and
			existing or planned cut slope.
			e. Toes of cut and fill slopes shall be set back from property boundaries a distance of
			three feet (3'), plus one-fifth (1/5) of the height of the cut or the fill, but may not
			exceed a horizontal distance of ten feet (10'); tops and toes of cut and fill slopes
			shall be set back from structures at a distance of at least six feet (6'), plus one-fifth
			(1/5) of the height of the cut or the fill. Additional setback distances shall be
			provided as necessary to accommodate drainage features and drainage structures.
		Findings	N/A no significant cuts, fills, or excavation were required for the townhome
		0	development.
	X	16.04.040.0	O. Drainage Improvements: The subdivider shall submit with the preliminary plat
			application such maps, profiles, and other data prepared by an engineer to
			indicate the proper drainage of the surface water to natural drainage courses or
			storm drains, existing or proposed. The location and width of the natural
			drainage courses shall be shown as an easement common to all owners within
			the subdivision and the City on the preliminary and final plat. All natural
			drainage courses shall be left undisturbed or be improved in a manner that will
			increase the operating efficiency of the channel without overloading its capacity.
			An adequate storm and surface drainage system shall be a required
			improvement in all subdivisions and shall be installed by the subdivider. Culverts
			shall be required where all water or drainage courses intersect with streets,
			driveways or improved public easements and shall extend across and under the
			entire improved width including shoulders.
		Findings	No natural drainage courses are proposed to be disturbed.
\boxtimes		16.04.040.P	P. Utilities: In addition to the terms mentioned in this section, all utilities including,
			but not limited to, electricity, natural gas, telephone and cable services shall be
			installed underground as a required improvement by the subdivider. Adequate

	shrub masses and historic areas, shall be preserved through design of the subdivision.
Findings	The landscape plan approved with the Design Review and Building Permit applications will enhance the attractiveness of the proposed subdivision.

CONCLUSIONS OF LAW

- 1. The City of Ketchum is a municipal corporation organized under Article XII of the Idaho Constitution and the laws of the State of Idaho, Title 50, Idaho Code.
- 2. Under Chapter 65, Title 67, of the Idaho Code the City has passed a subdivision ordinance, Title 16.
- 4. The City Council has authority to review and recommend approval of the applicant's Preliminary Plat Application pursuant to Chapter 16.04 of Ketchum Code Title 16.
- 5. The project **does** meet the standards of approval under Chapter 16.04 of Subdivision Code Title 16.

DECISION

THEREFORE, the Ketchum City Council **approves** of this Preliminary Plat application this Monday, November 16th, 2020 subject to the following conditions:

CONDITIONS OF APPROVAL

- All governing ordinances, requirements, and regulations of the Fire Department (2012 International Fire Code and local Fire Protection Ordinance No.1125), Building Department (2012 International Building Code, the 2012 International Residential Code, and Title 15 of Ketchum Municipal Code), Utilities Department, Street Department (Title 12 of Ketchum Municipal Code), and the City Engineer shall be met prior to Certificate of Occupancy.
- 2. This preliminary plat approval is subject to Building Permit 20-079 and Design Review approval P20-031. All conditions of approval shall apply.
- 3. The recorded plat shall show a minimum of two Blaine County Survey Control Monuments with ties to the property and an inverse between the two monuments. The Survey Control Monuments shall be clearly identified on the face of the map.
- 4. An electronic CAD file shall be submitted to the City of Ketchum prior to final plat signature by the City Clerk. The electronic CAD file shall be submitted to the Blaine County Recorder's office concurrent with the recording of the Plat containing the following minimum data:
 - a. Line work delineating all parcels and roadways on a CAD layer/level designated as "parcel";
 - b. Line work delineating all roadway centerlines on a CAD layer/level designated as "road"; and,
 - c. Line work that reflects the ties and inverses for the Survey Control Monuments shown on the face of the Plat shall be shown on a CAD layer/level designated as "control"; and,
 - d. All information within the electronic file shall be oriented and scaled to Grid per the Idaho State Plane Coordinate System, Central Zone, NAD1983 (1992), U.S. Survey Feet, using the Blaine County Survey Control Network. Electronic CAD files shall be submitted in a ".dwg", ".dgn" or ".shp" format and shall be submitted digitally to the City on a compact disc. When the endpoints of the lines submitted are indicated as coincidental with another line, the CAD line endpoints shall be separated by no greater than 0.0001 drawing units.
- 5. The applicant shall provide a copy of the recorded final plat to the Department of Planning and Building for the official file on the application.

- 6. The Townhouse Declaration shall be simultaneously recorded with the Final Plat. The developer shall submit a final copy of the document to the Planning & Building Department and file such document prior to recordation of the final plat. The City will not now, nor in the future, determine the validity of the Townhouse Declaration.
- 7. Failure to record a Final Plat within two (2) years of Council's approval of a Preliminary Plat shall cause the Preliminary Plat to be null and void.

Findings of Fact **adopted** this 16th day of November 2020.

Neil Bradshaw Mayor City of Ketchum

Katrin Sharp Deputy City Clerk City of Ketchum
