This is another excellent example of why Brenda M. should step down from P and Z. She is involved in the design of monster buildings in Ketchum and then sits on the P and Z board that approves them. This is a terrible conflict of interest. As well, during Brenda's tenure (a Bradshaw appointee) the buildings seem to be getting bigger and uglier and look more like something from Dallas, Tex. Please do the right thing for Ketchum and permanently step down Brenda. We desperately need to do a de-bradshawing. Please do your part to MKHA - make Ketchum happy again.

Above all, no to 680 N. Leadville.
