Subject: FW: Intersection of Warm Springs and 10th Street - dangerous school crossing

Hi Andrea,

This looks like a Traffic Authority public comment for you!

Cheers,
Dawn

Subject: Intersection of Warm Springs and 10th Street - dangerous school crossing

Jade, Morgan, Courtney, and Ramsey

I am writing today to request a **stop light (or stop sign) on Warm Springs Road at the intersection of 10th Street** - at the entrance to Hemingway Elementary.

Due to the **Basecamp gas station**, this is a totally blind crossing, and in my opinion, extremely dangerous for drivers as well as children trying to cross the street. But you may have already conducted a study of that intersection.

I know that putting a stoplight in will take time and careful consideration. But I hope you can come up with a temporary solution to this issue - even if its just during school dropoff.

Thank you

Andrew Van Hook
