City of Ketchum
Ketchum, Idaho

Mayor Bradshaw and City Councilors:

**Recommendation to Approve Purchase Order 22075
With Aqua-Aerobics Systems, Inc. for Filter Cloth Media**

Recommendation and Summary

Staff is recommending the council approve Purchase Order 22075 and adopt the following motion:

"I move to approve Purchase Order 22075 with Aqua-Aerobics Systems, Inc. for the purchase of Filter Cloth Media, with accessory hardware, to be used at the wastewater treatment plant in the approximate amount of \$21,127.95.

The reasons for the recommendation are as follows:

- Routine maintenance of the AquaDisk Cloth Media Filters at the wastewater treatment plant requires periodic replacement of the filter cloth media.
- The media in one of the filters has reached its useful life expectancy needs to be replaced.

Introduction and History

Cloth media filters were added to Ketchum's wastewater treatment process in 2006 in order to meet removal limits established by DEQ and EPA in the city's reuse and discharge permits. The primary purpose of the filters is to remove solids which interfere with UV disinfection. A secondary benefit is additional phosphorous removal accomplished during filtration. The cloth filter media has a lifespan of approximately three to five years. The media we will be replacing is at the end of its usefulness and is allowing higher than normal amounts of solids to pass into the UV disinfection system.
