Mayor Bradshaw and City Councilors:

Recommendation to Approve Purchase Order #22078 and Contract with Data Ticket Inc. for Parking Citation Management Services

Recommendation and Summary

Staff is recommending approval of a contract with Data Ticket Inc. for parking citation management services. On April 11, 2022, the City Council received an update from Dixon Consulting regarding the development of a downtown parking strategic plan. One of the recommendations was to improve the adjudication of parking citations and improve collection of fees (out of state license plates). An RFP was issued for the services and Data Ticket was the only respondent.

"I move approval of Purchase Order #22078 and associated contract with Data Ticket for Parking Citation Management Services."

The reasons for the recommendations are as follows:

- Data Ticket’s scope of work provides turnkey Citation Management Services (CMS) including mail and payment processing, customer service phone support, delinquent collections, and online adjudication services.
- The change in the vendor is projected to save the City over \$28,000 through the 5-year contract term. Cost savings do not include previous City administrative support commitment, or the anticipated revenue increase due to delinquent collections and automated support services.
- Data Ticket offers additional modular and integrated solutions including an administrative citation solution that can be used for CSO non-parking citation issuance and an online parking permit management system that can support employee and residential parking permit programs.

Financial Impact:

The contract is a not to exceed of \$15,000. Dixon Consulting performed a financial analysis which projected costs savings of \$28,665.40 over a 5-year contract period. The cost savings were derived by using actual 2021 citations issued and number of out of state plates.
