

### City of Ketchum

December 7th, 2020

Mayor Bradshaw and City Councilors City of Ketchum Ketchum, Idaho

Mayor Bradshaw and City Councilors:

### Recommendation to hold a public hearing, consider public input, and approve the Emery Lot Line Shift

### **Recommendation and Summary**

Staff recommends the Ketchum City Council approve the Lot Line Shift Plat submitted by Sean Flynn PE on behalf of the Patricia Hanwright Trust, property owner, and Lance Emery, under contract to purchase the property, to combine two existing tax lots into a single platted lot. The action will create the Emery Subdivision, a one (1) lot subdivision.

One written public comment has been received to date; the comment received is in support of this action.

Recommended Motion: "I move to approve the Emery Lot Line Shift subject to conditions 1-7 included in the Findings of Fact, Conclusions of Law, and Decision and to authorize the Mayor to sign the Findings of Fact, Conclusions of Law, and Decision."

The reasons for the recommendation are as follows:

- This action combines two (2) tax lots into a single lot of record. The subject property is currently undeveloped. Prior to 2020 the subject property was landlocked, without access to an adjacent public or private street. However, on November 16<sup>th</sup>, 2020 the City approved two agreements pertaining to the subject property Agreement 20557, which approves and establishes maintenance responsibilities for existing driveway improvements in the right of way that were installed when the adjacent Stone's Throw Townhomes were constructed and Agreement 20558, which allows installation of utilities for lot 6496 to be installed in the right of way. Both agreements have been signed by all parties and are pending recordation with Blaine County at the time of writing of this staff report (12/1/20).
- All city departments have reviewed the proposal and have no concerns with approval of the application as conditioned.
- The request to combine the two tax lots into a single lot of record meets all applicable standards for Final Plats contained in Ketchum Municipal Code's Subdivision (Title 16) regulations.

## SURVEY NARRATIVE & NOTES

- 1. The purpose of this map is to show the monuments found during the boundary retracement of Tax Lots 8549 & 8553, and vacate the lot line between said tax lots as shown hereon. The boundary shown is based on said found monuments and the Record of Survey of Tax Lots 6496 & 8487, and Gap Parcel, Instrument Number 659019, and Quitclaim Deed, Instrument Number 666485, both records of Blaine County, Idaho. All found monuments have been accepted. Refer to the Notes on said Record of Survey regarding the "gap parcel," now referenced as Tax Lot 8553 hereon. Additional documents used in the course of this survey include; (al records of Blaine County, Idaho)
  - -The Association Condominiums, Instrument Number 198107
  - -The Association Condominiums and Lot 20, Fosters Addition, Instrument Number 263525 -A Replat of Units 1 & 4 and Common Area, River Run Lodge Condominiums, Instrument Number 356732
  - -Mary's Place Subdivision, Instrument Number 445345, and Lot 1A, Block 1, Mary's Place Subdivision, Instrument Number 457464 -Stones Throw Townhomes, Instrument Number 543346
- 2. The distances shown are measured. Refer to the Record of Survey, Instrument Number 659019, records of Blaine County, Idaho, and above referenced documents for previous record
- 3. This survey does not purport to reflect any of the following which may be applicable to subject real property: natural hazards, encroachments, wetlands, easements, building setbacks, restrictive covenants, subdivision restrictions, zoning or any other land—use regulations.
- 4. A Title Commitment for Tax Lots 8549 & 8553 has been prepared by Pioneer Title Co., File Number 730614, Commitment Date of July 17, 2020. Certain information contained in said title policy may not appear on this map or may affect items shown hereon. It is the responsibility of the owner or agent to review said title policy. Some of the encumbrances and easements listed in the title report are NOT plotted hereon. Review of specific documents is required, if further information is desired.
- 5. An Encroachment Agreement recorded under Instrument describes the terms and conditions for maintenance and improvements within the right—of—way adjacent to the subject property.
- 6. An Encroachment Agreement recorded under Instrument \_ describes the terms and conditions for underground utility improvements within the right-of-way adjacent to the subject property.
- 7. Current Zoning District is GR-L.

## CERTIFICATE OF SURVEYOR

I hereby certify that I am a Registered Land Surveyor in the State of Idaho and that this map is a true and accurate representation of a survey done under my direct supervision.

### NOTICE OF PUBLIC HEARING BEFORE THE KETCHUM CITY COUNCIL

Meeting Date:

Monday, December 7, 2020

**Meeting Time:** 

4:00 PM, or thereafter as the matter can be heard.

**Meeting Location:** 

City Hall Council Chambers, 480 East Avenue North, Ketchum, Idaho. Due to the COVID-19 Pandemic, **remote participation in public meetings will occur until further notice** in order to keep residents safe and help stop the community spread of the virus. The meeting will be live streamed at <a href="www.ketchumidaho.org/meetings">www.ketchumidaho.org/meetings</a>. Public comment may be given either by phone or in writing. By phone, public comment will occur for this item by dialing +1 253 215 8782 and using **Meeting ID** 912 2500 6534. Written

comments can be provided to participate@ketchumidaho.org.

**Project Name:** 

**Emery Lot Line Shift** 

**Project Location:** 

Tax Lots 8549 and 8553Ketchum, ID 83340 (Ketchum Sec 13 4N 17E)

Representative:

**Application Type:** 

Galena Engineering

Owner:

Patricia Hanwright

Project

Lot Line Shift

Description:

The Council will consider and take action regarding a Lot Line Shift Application submitted by Galena Engineering, LLC to vacate the lot line between Tax Lot 8549 and

Tax Lot 8553. This platting action will combine Tax Lot 8549 and Tax Lot 8553 to create Lot 1 of Emery Subdivision. Lot 1 has a proposed area of 19,483 square feet (0.45 acres). The subject property is located to the south of Bird Drive's intersection with Wood River Drive (FR SESE TL 8549 & TL 8553, Ketchum, ID 83340) within the City's

General Residential Low Density (GR-L) Zoning District.

A copy of the Staff Report will be available on the City website at the following link <a href="https://ketchumidaho.org/meetings">https://ketchumidaho.org/meetings</a>. The meeting will be livestreamed with the video feed accessible at the same link at 4:00 p.m. the day of the meeting.

NOTICE IS FURTHER GIVEN that at the aforementioned time all interested persons shall be given an opportunity to comment on the matter stated above either by phone or in writing. Comments and questions prior to the hearing may be directed to the Ketchum Department of Planning and Building, P.O. Box 2315, Ketchum, Idaho, 83340, via email to participate@ketchumidaho.org, or via facsimile to (208)726-7812. Written comments received by 5:00 PM, seven (7) days prior to the hearing will be included as an attachment to the staff report. For additional information, please call (208) 726-7801.

By order of the Ketchum City Council Dated this 18<sup>th</sup> day of November 2020

I HAVE THE CLOSEST PROPERTY TO THE PROPERTY ABOVE AND HAVE NO OBJECTION TO THE OWNERS REQUEST.

### **Findings Regarding Application Filed**

**PROJECT:** Emery Lot Line Shift

**APPLICATION TYPE:** Lot Line Shift

FILE NUMBER: P20-066

ASSOCIATED PERMITS: Agreement #20557, Agreement #20558

**OWNERS:** Patricia Hanwright Trust dated 1-31-05

**REPRESENTATIVE:** Sean Flynn, P.E., Galena Engineering

**REQUEST:** Lot Line Shift to combine two existing tax lots into one lot

LOCATION: KETCHUM FR SESE TL 8549 & TL 8553 SEC 13 4N 17E – south end of Bird Drive

unplatted right-of-way

**NOTICE:** Notice appeared in the Idaho Mountain Express and was mailed to properties within

300' and to political subdivisions on November 18th, 2020. Notice was posted on site

and on the City of Ketchum website on November 30<sup>th</sup>, 2020.

**ZONING:** General Residential – Low Density (GR-L)

**OVERLAY:** None

### **Background Findings of Fact**

- 1. On December 7<sup>th</sup>, 2020, the Ketchum City Council considered the readjustment of lot lines application to combine tax lots KETCHUM FR SESE TL 8549 & TL 8553 SEC 13 4N 17E into Lot 1, Emery Subdivision.
- 2. The subject property is located in the General Residential Low Density (GR-L) zoning district and is 19,483 square feet in size.

3. Two Right-of-Way Agreements are associated with the subject property. Agreement 20557 approves and establishes maintenance responsibilities for existing driveway improvements in the right of way that were installed when the adjacent Stone's Throw Townhomes were constructed. No agreement was approved when the improvements were installed. Lot 1, Emery Subdivision, an unimproved lot, must have access to Bird Drive in order to develop the lot. The only way to provide access is via the Stones Throw private driveway. This agreement authorizes the owner of Lot 1, Emery Subdivision, to use and maintain the driveway access. Agreement 20558 allows installation of utilities for lot 6496 to be installed in the right of way.

**Table 1: Findings Regarding Final Plat Requirements** 

	Final Dist Description and					
			T.	Final Plat Requirements

buildings.  2. Whenever a proposed subdivision contains lot(s), in whole or in part, within the floodplain, o	ation of
2. Whenever a proposed subdivision contains lot(s), in whole or in part, within the floodplain, o	nd
contains land with a slope in excess of twenty live percent (25%), based upon natural contours,	
creates corner lots at the intersection of two (2) or more streets, building envelopes shall be sho	
the lot(s) so affected on the preliminary and final plats. The building envelopes shall be located	
manner designed to promote harmonious development of structures, minimize congestion of	
structures, and provide open space and solar access for each lot and structure. Also, building en	-
shall be located to promote access to the lots and maintenance of public utilities, to minimize of	
fill for roads and building foundations, and minimize adverse impact upon environment, waterc and topographical features. Structures may only be built on buildable lots. Lots shall only be cre	
that meet the definition of "lot, buildable" in section 16.04.020 of this chapter. Building envelop	
be established outside of hillsides of twenty five percent (25%) and greater and outside of the fl A waiver to this standard may only be considered for the following:	

			1	,
				a. For lot line shifts of parcels that are entirely within slopes of twenty five percent (25%) or greater to create a reasonable building envelope, and mountain overlay design review
				standards and all other city requirements are met.
				b. For small, isolated pockets of twenty five percent (25%) or greater that are found to be in
				compliance with the purposes and standards of the mountain overlay district and this section.
				3. Corner lots outside of the original Ketchum Townsite shall have a property line curve or corner of a
				minimum radius of twenty five feet (25') unless a longer radius is required to serve an existing or future
				use.
				4. Side lot lines shall be within twenty degrees (20°) to a right angle or radial line to the street line.  5. Double frontage lots shall not be created. A planting strip shall be provided along the boundary line
				of lots adjacent to arterial streets or incompatible zoning districts.
				6. Every lot in a subdivision shall have a minimum of twenty feet (20') of frontage on a dedicated public
				street or legal access via an easement of twenty feet (20') or greater in width. Easement shall be
				recorded in the office of the Blaine County recorder prior to or in conjunction with recordation of the
				final plat. Minimum lot sizes in all cases shall be reversed frontage lot(s).
				#1 – This standard has been met.
				Standards #2, #3, #4 and #5 are not applicable.
				#5 – This standard is met due to the Right-of-Way Encroachment Access Agreement #20557 that describes
				private improvements in the city's Bird Drive right-of-way.
$\boxtimes$			16.04.040.G	G. Block Requirements: The length, width and shape of blocks within a proposed subdivision shall
				conform to the following requirements:
				1. No block shall be longer than one thousand two hundred feet (1,200'), nor less than four
				hundred feet (400') between the street intersections, and shall have sufficient depth to
				provide for two (2) tiers of lots.
				2. Blocks shall be laid out in such a manner as to comply with the lot requirements.
				3. The layout of blocks shall take into consideration the natural topography of the land to
				promote access within the subdivision and minimize cuts and fills for roads and minimize
				adverse impact on environment, watercourses and topographical features.
				4. Except in the original Ketchum Townsite, corner lots shall contain a building envelope
				outside of a seventy five foot (75') radius from the intersection of the streets.
				This standard has been met. Only one block, with 2 lots, is being platted.
		$\boxtimes$	16.04.040.H	Street Improvement Requirements:
				1. The arrangement, character, extent, width, grade and location of all streets put in the proposed subdivision shall conform to the comprehensive plan and shall be considered in their relation to existing
				and planned streets, topography, public convenience and safety, and the proposed uses of the land;
				2. All streets shall be constructed to meet or exceed the criteria and standards set forth in chapter
				12.04 of this code, and all other applicable ordinances, resolutions or regulations of the city or any other
				governmental entity having jurisdiction, now existing or adopted, amended or codified;
				3. Where a subdivision abuts or contains an existing or proposed arterial street, railroad or limited
				access highway right of way, the council may require a frontage street, planting strip, or similar design
				features;
				4. Streets may be required to provide access to adjoining lands and provide proper traffic circulation
				through existing or future neighborhoods;
				5. Street grades shall not be less than three-tenths percent (0.3%) and not more than seven percent
				(7%) so as to provide safe movement of traffic and emergency vehicles in all weather and to provide for
				adequate drainage and snow plowing;
				6. In general, partial dedications shall not be permitted, however, the council may accept a partial street dedication when such a street forms a boundary of the proposed subdivision and is deemed necessary
				for the orderly development of the neighborhood, and provided the council finds it practical to require the dedication of the remainder of the right of way when the adjoining property is subdivided. When a
				partial street exists adjoining the proposed subdivision, the remainder of the right of way shall be
				dedicated;
				7. Dead end streets may be permitted only when such street terminates at the boundary of a
				subdivision and is necessary for the development of the subdivision or the future development of the
				adjacent property. When such a dead end street serves more than two (2) lots, a temporary turnaround
				easement shall be provided, which easement shall revert to the adjacent lots when the street is
				extended;
L	i	Ī.	1	1

			vehicular movement. Dead end alleys shall be permitted only within the original Ketchum Townsite and only after due consideration of the interests of the owners of property adjacent to the dead-end alley including, but not limited to, the provision of fire protection, snow removal and trash collection services to such properties. Improvement of alleys shall be done by the subdivider as required improvement and in conformance with design standards specified in subsection H2 of this section.
		16.04.040.I	Alley Improvement Requirements: Alleys shall be provided in, commercial and light industrial zoning districts. The width of an alley shall be not less than twenty feet (20'). Alley intersections and sharp changes in alignment shall be avoided, but where necessary, corners shall be provided to permit safe
			city. Access to the subject property will be from Bird Drive. The private improvements to this right-of-way are described in Agreement # 20557.
			The subject property abuts a portion of Bird Drive right-of-way that is not maintained by the
			24. No new public or private streets or flag lots associated with a proposed subdivision (land, planned unit development, townhouse, condominium) are permitted to be developed on parcels within the Avalanche Zone.
			of-way unless approved by the City Council; and
			accessing more than one single-family dwelling unit and one accessory dwelling unit, and public rights-
ı			designated shall be a required improvement installed by the subdivider;  23. Gates are prohibited on private roads and parking access/entranceways, private driveways
			22. Sidewalks, curbs and gutters shall be required consistent with adopted city standards and where
			construction or improvement shall be in accordance with adopted standard specifications;
			additional traffic which will require construction of a new bridge or improvement of an existing bridge, such construction or improvement shall be a required improvement by the subdivider. Such
			21. Whenever a proposed subdivision requires construction of a new bridge, or will create substantial
			elsewhere in the City;
			20. Street signs shall be installed by the subdivider as a required improvement of a type and design approved by the Administrator and shall be consistent with the type and design of existing street signs
			this section and chapter 12.04 of this code;
			Council. Private streets shall be constructed to meet the design standards specified in subsection H2 of
			be installed by the subdivider as a requirement improvement;  19. Private streets may be allowed upon recommendation by the commission and approval by the
			18. Street lighting shall be required consistent with adopted city standards and where designated shall
			17. In general, the centerline of a street shall coincide with the centerline of the street right of way, and all crosswalk markings shall be installed by the subdivider as a required improvement;
			required improvements by the subdivider;
			specified and shown on the final plat, and all landscaping and irrigation systems shall be installed as
			readily accessible to adjacent collector and arterial streets;  16. Reserve planting strips controlling access to public streets shall be permitted under conditions
			15. Street patterns of residential areas shall be designed to create areas free of through traffic, but
			minimum cuts and fills;
			preliminary plat approval;  14. Street alignment design shall follow natural terrain contours to result in safe streets, usable lots, and
			proposed subdivision from the County Assessor's office before submitting same to council for
			streets within Blaine County, Idaho. The subdivider shall obtain approval of all street names within the
			13. Proposed streets which are a continuation of an existing street shall be given the same names as the existing street. All new street names shall not duplicate or be confused with the names of existing
			arterial and collector streets;
			12. A tangent of at least one hundred feet (100') long shall be introduced between reverse curves on
ı			streets, and one hundred twenty five feet (125') for minor streets;  11. Streets with centerline offsets of less than one hundred twenty five feet (125') shall be prohibited;
ı			required having a minimum centerline radius of three hundred feet (300') for arterial and collector
			10. Where any street deflects an angle of ten degrees (10°) or more, a connecting curve shall be
			seventy degrees (70°);
			line; 9. Streets shall be planned to intersect as nearly as possible at right angles, but in no event at less than
			turnaround radius of sixty feet (60') at the property line and not less than forty five feet (45') at the curb
			hundred feet (400') from entrance to center of turnaround, and all cul-de-sacs shall have a minimum
			of the subdivision, and provided, that no such street shall have a maximum length greater than four

		This proposal does not create a new alley. Alley improvements were not applicable to this project.
	16.04.040.J	Required Easements: Easements, as set forth in this subsection, shall be required for location of utilities and other public services, to provide adequate pedestrian circulation and access to public waterways and lands.
		1. A public utility easement at least ten feet (10') in width shall be required within the street right-of-way boundaries of all private streets. A public utility easement at least five feet (5') in width shall be required within property boundaries adjacent to Warm Springs Road and within any other property boundary as determined by the City Engineer to be necessary for the provision of adequate public utilities.
		2. Where a subdivision contains or borders on a watercourse, drainageway, channel or stream, an easement shall be required of sufficient width to contain such watercourse and provide access for private maintenance and/or reconstruction of such watercourse.
		3. All subdivisions which border the Big Wood River, Trail Creek and Warm Springs Creek shall dedicate a ten foot (10') fish and nature study easement along the riverbank. Furthermore, the Council shall require, in appropriate areas, an easement providing access through the subdivision to the bank as a sportsman's access. These easement requirements are minimum standards, and in appropriate cases where a subdivision abuts a portion of the river adjacent to an existing pedestrian easement, the Council may require an extension of that easement along the portion of the riverbank which runs through the proposed subdivision.
		4. All subdivisions which border on the Big Wood River, Trail Creek and Warm Springs Creek shall dedicate a twenty five foot (25') scenic easement upon which no permanent structure shall be built in order to protect the natural vegetation and wildlife along the riverbank and to protect structures from damage or loss due to riverbank erosion.
		5. No ditch, pipe or structure for irrigation water or irrigation wastewater shall be constructed, rerouted or changed in the course of planning for or constructing required improvements within a proposed subdivision unless same has first been approved in writing by the ditch company or property owner holding the water rights. A written copy of such approval shall be filed as part of required improvement construction plans.
		6. Nonvehicular transportation system easements including pedestrian walkways, bike paths, equestrian paths, and similar easements shall be dedicated by the subdivider to provide an adequate nonvehicular transportation system throughout the City.
	16.04.040.K	No new easements are required.  Sanitary Sewage Disposal Improvements: Central sanitary sewer systems shall be installed in all subdivisions and connected to the Ketchum sewage treatment system as a required improvement by the subdivider. Construction plans and specifications for central sanitary sewer extension shall be prepared by the subdivider and approved by the City Engineer, Council and Idaho Health Department prior to final plat approval. In the event that the sanitary sewage system of a subdivision cannot
		connect to the existing public sewage system, alternative provisions for sewage disposal in accordance with the requirements of the Idaho Department of Health and the Council may be constructed on a temporary basis until such time as connection to the public sewage system is possible. In considering such alternative provisions, the Council may require an increase in the minimum lot size and may impose any other reasonable requirements which it deems necessary to protect public health, safety and welfare.
		N/A, this is a Lot Line Shift to combine two (2) tax lots into a one (1) lot. Utilities will be installed at the time the lot is developed. The extensions of utilities to the subject property is covered by Right-of-Way Encroachment Agreement #20557.
	16.04.040.L	Water System Improvements: A central domestic water distribution system shall be installed in all subdivisions by the subdivider as a required improvement. The subdivider shall also be required to locate and install an adequate number of fire hydrants within the proposed subdivision according to specifications and requirements of the City under the supervision of the Ketchum Fire Department and other regulatory agencies having jurisdiction. Furthermore, the central water system shall have sufficient flow for domestic use and adequate fire flow. All such water systems installed shall be looped

1	1	1	
			extensions, and no dead end systems shall be permitted. All water systems shall be connected to the
			Municipal water system and shall meet the standards of the following agencies: Idaho Department of
			Public Health, Idaho Survey and Rating Bureau, District Sanitarian, Idaho State Public Utilities
			Commission, Idaho Department of Reclamation, and all requirements of the City.
			N/A, this is a Lot Line Shift to combine two (2) tax lots into a one (1) lot. Utilities will be installed at the
			time the lot is developed. The extensions of utilities to the subject property is covered by Right-of-Way
			Encroachment Agreement #20557.
		16.04.040.M	Planting Strip Improvements: Planting strips shall be required improvements. When a predominantly residential subdivision is proposed for land adjoining incompatible uses or features such as highways, railroads, commercial or light industrial districts or off street parking areas, the subdivider shall provide planting strips to screen the view of such incompatible features. The subdivider shall submit a landscaping plan for such planting strip with the preliminary plat application, and the landscaping shall be a required improvement.
			This standard is not applicable.
		16.04.040.N	Cuts, Fills, And Grading Improvements: Proposed subdivisions shall be carefully planned to be compatible with natural topography, soil conditions, geology and hydrology of the site, as well as to minimize cuts, fills, alterations of topography, streams, drainage channels, and disruption of soils and vegetation. The design criteria shall include the following:  1. A preliminary soil report prepared by a qualified engineer may be required by the commission and/or Council as part of the preliminary plat application.  2. Preliminary grading plan prepared by a civil engineer shall be submitted as part of all preliminary plat applications. Such plan shall contain the following information:  a. Proposed contours at a maximum of five foot (5') contour intervals. b. Cut and fill banks in pad elevations. c. Drainage patterns. d. Areas where trees and/or natural vegetation will be preserved. e. Location of all street and utility improvements including driveways to building envelopes. f. Any other information which may reasonably be required by the Administrator, commission or Council to adequately review the affect of the proposed improvements. 3. Grading shall be designed to blend with natural landforms and to minimize the necessity of padding or terracing of building sites, excavation for foundations, and minimize the necessity of cuts and fills for streets and driveways. 4. Areas within a subdivision which are not well suited for development because of existing soil conditions, steepness of slope, geology or hydrology shall be allocated for open space for the benefit of future property owners within the subdivision.  5. Where existing soils and vegetation are disrupted by subdivision development, provision shall be made by the subdivider for revegetation of disturbed areas with perennial vegetation sufficient to stabilize the soil upon completion of the construction. Until such times as such revegetation has been installed and established, the subdivider shall maintain and protect all disturbed surfaces from erosion.
			Additional setback distances shall be provided as necessary to accommodate drainage
			features and drainage structures.
			N/A as there is no site work occurring at this time.
	$\boxtimes$	16.04.040.O	Drainage Improvements: The subdivider shall submit with the preliminary plat application such maps, profiles, and other data prepared by an engineer to indicate the proper drainage of the surface water to

			natural drainage courses or storm drains, existing or proposed. The location and width of the natural
			drainage courses shall be shown as an easement common to all owners within the subdivision and the
			City on the preliminary and final plat. All natural drainage courses shall be left undisturbed or be
			improved in a manner that will increase the operating efficiency of the channel without overloading its
			capacity. An adequate storm and surface drainage system shall be a required improvement in all
			subdivisions and shall be installed by the subdivider. Culverts shall be required where all water or
			drainage courses intersect with streets, driveways or improved public easements and shall extend
			across and under the entire improved width including shoulders.
			N/A as there is no site work occurring at this time.
	$\boxtimes$	16.04.040.P	Utilities: In addition to the terms mentioned in this section, all utilities including, but not limited to,
			electricity, natural gas, telephone and cable services shall be installed underground as a required
			improvement by the subdivider. Adequate provision for expansion of such services within the
			subdivision or to adjacent lands including installation of conduit pipe across and underneath streets
			shall be installed by the subdivider prior to construction of street improvements.
			N/A, this is a Lot Line Shift to combine two (2) tax lots into a one (1) lot. Utilities will be installed at the
			time the lot is developed. The extensions of utilities to the subject property is covered by Right-of-Way
			Encroachment Agreement #20557.
	$\boxtimes$	16.04.040.Q	Off Site Improvements: Where the off site impact of a proposed subdivision is found by the commission
			or Council to create substantial additional traffic, improvements to alleviate that impact may be
			required of the subdivider prior to final plat approval, including, but not limited to, bridges,
			intersections, roads, traffic control devices, water mains and facilities, and sewer mains and facilities.
			No off-site improvements are required.
	$\boxtimes$	16.04.040.R	Avalanche And Mountain Overlay: All improvements and plats (land, planned unit development,
			townhouse, condominium) created pursuant to this chapter shall comply with City of Ketchum
			Avalanche Zone District and Mountain Overlay Zoning District requirements as set forth in Title 17 of
			this Code.
			N/A
	$\boxtimes$	16.04.040.S	Existing natural features which enhance the attractiveness of the subdivision and community, such as
			mature trees, watercourses, rock outcroppings, established shrub masses and historic areas, shall be
			preserved through design of the subdivision.
			N/A, this is a Lot Line Shift to combine two (2) tax lots into a one (1) lot.

			Staff	Required: 80' average	
			Comment	Proposed: Lot 1's width exceeds 80'.	

### **CONCLUSIONS OF LAW**

1. The City of Ketchum is a municipal corporation established in accordance with Article XII of the Constitution of the State of Idaho and Title 50 Idaho Code and is required and has exercised its authority pursuant to the Local Land Use Planning Act codified at Chapter 65 of Title 67 Idaho Code and pursuant to Chapters 3, 9 and 13 of Title 50 Idaho Code to enact the Ordinances and regulations, which Ordinances

are codified in the Ketchum City Code ("KMC") and are identified in the Findings of Fact and which are herein restated as Conclusions of Law by this reference and which City Ordinances govern the Applicant's Condominium Subdivision Final Plat application for the development and use of the project site.

- 2. The Council has authority to approve the applicant's Lot Line Shift (Readjustment of Lot Lines) application pursuant to Chapter 16.04 of Ketchum Code Title 16.
- 3. The City of Ketchum Planning Department provided adequate notice for the review of this application, which consisted of including notice of the application on the City Council meeting agenda.
- 4. The proposed Lot Line Shift for Lot 1, Emery Subdivision, meets the standards for Final Plats under Title 16 of Ketchum Municipal Code subject to conditions of approval.

#### **DECISION**

**THEREFORE,** the Ketchum City Council **approves** this Lot Line Shift Final Plat application this Monday, December  $7^{th}$ , 2020 subject to the following conditions:

#### **CONDITIONS OF APPROVAL**

- 1. The instrument numbers associated with both Encroachment Agreements shall be referenced on the plat prior to the plat being recorded.
- 2. The recorded plat shall show a minimum of two Blaine County Survey Control Monuments with ties to the property and an inverse between the two monuments. The Survey Control Monuments shall be clearly identified on the face of the map.
- 3. An electronic CAD file shall be submitted to the City of Ketchum prior to final plat signature by the City Clerk. The electronic CAD file shall be submitted to the Blaine County Recorder's office concurrent with the recording of the Plat containing the following minimum data:
  - a. Line work delineating all parcels and roadways on a CAD layer/level designated as "parcel";
  - b. Line work delineating all roadway centerlines on a CAD layer/level designated as "road"; and,
  - c. Line work that reflects the ties and inverses for the Survey Control Monuments shown on the face of the Plat shall be shown on a CAD layer/level designated as "control"; and,
  - d. All information within the electronic file shall be oriented and scaled to Grid per the Idaho State Plane Coordinate System, Central Zone, NAD1983 (1992), U.S. Survey Feet, using the Blaine County Survey Control Network. Electronic CAD files shall be submitted in a ".dwg", ".dgn" or ".shp" format and shall be submitted digitally to the City on a compact disc. When the endpoints of the lines submitted are indicated as coincidental with another line, the CAD line endpoints shall be separated by no greater than 0.0001 drawing units.
- 5. The applicant shall provide a copy of the recorded Final Plat to the Planning and Building Department for the official file on the application.
- 6. The Final Plat mylar shall contain all items required under Title 50, Chapter 13, Idaho Code as well as all items required pursuant to KMC §16.04.030J including certificates and signatures.
- 7. All governing ordinances and department conditions pertinent to the Fire Department, Building Department, Utilities Department, Street Department and Ketchum City Engineer shall be met.

Findings of Fact adopted this 7th day of December, 2020

	Neil Bradshaw, Mayor	
Katrin Sharn Deputy City Clerk		

Katrin Sharp, Deputy City Clerk
