Chair and Commissioners  
Ketchum Urban Renewal Agency  
Ketchum, Idaho

### **Recommendation to Review, Discuss and Provide Direction on Proposed Projects**

Vice Chair Johnson and Chair Scovell are proposing the Board discuss and act on KURA funding for the following projects:

- Repair 4<sup>th</sup> street pavers from Walnut to Washington
- Replace the pavers in the alley behind town square with asphalt or concrete—the existing pavers just don't hold up to the snow removal and truck traffic
- Replace the pavers/install snow melt in town square—the existing pavers are not holding up during snow removal and significant dollars are spent to remove the snow in the winter
- Install and improve ADA curb ramps throughout the downtown intersections
- Convert the pedestrian activated light at 4<sup>th</sup> Street and Main Street to a Hawk system which improves pedestrian and bicycle safety. Once this system is in place, the signal at Sun Valley Road and Main Street can be modified to include a pedestrian scramble crossing system
- Wayfinding Signage
- Closure of 4<sup>th</sup> Street for improved pedestrian and bicycle access
- Bike infrastructure including education signage on items like the Idaho Stop (unique law to Idaho that confuses tourists and many locals)
