Subject: Support for proposed Greyhawk Townhomes

Follow Up Flag: Follow up
Flag Status: Completed

I am writing to express my support for the proposed project currently under review by the Planning & Zoning Commission.

As someone familiar with the site, I believe the design is thoughtful and appropriate for the location. The hillside has already been significantly disturbed, and I feel the proposed project does a good job of blending the structure into the surrounding landscape while improving the appearance of the site.

I encourage the Commission to consider the project on its overall merits. In my opinion, it is a well-designed proposal that will be a positive addition to Ketchum.

Thank you for your time and consideration.

Sincerely,

Kenneth Rizzotti
