Mayor Bradshaw and City Councilors
City of Ketchum
Ketchum, Idaho

Mayor Bradshaw and City Councilors:

Recommendation to approve the Lofts @ 660 Condominium Subdivision Final Plat

Recommendation and Summary

Staff recommends the City Council approve the Condominium Subdivision Final Plat for the Lofts @ 660 Condominiums, submitted by Galena Engineering, on behalf of property owner 660 First Ave LLC. Council approved the Preliminary Plat on September 16th, 2020. The Final Plat conforms to the Preliminary Plat.

The subject property is located at 660 N. 1st Avenue in the Community Core zoning district, subdistrict 2, Mixed-use. Design Review approval and a Building Permit for the construction of the new four-unit residential structure were granted by the City in 2019. The structure will contain one (1) deed-restricted Community Housing unit on the ground floor. An in-lieu housing fee was paid for the development's community housing unit obligation that was not met by the square footage of the on-site deed restricted unit. The Exceedance Agreement governing this development is recorded with Blaine County under instrument number #20424.

Recommended motion: "I move to approve the Lofts at 660 Condominium Subdivision Final Plat application, subject to conditions 1-5 contained in the draft Findings of Fact, Conclusions of Law, and Decision and to adopt the draft Findings as presented."

The reasons for the recommendation are as follows:

- A Certificate of Occupancy for the building has been issued.
- Minor details that were unable to be completed due to weather have been bonded for (completion of landscaping, installing power to the City streetlight, asphalt patching along 1st Avenue, and striping parking spaces).
- The Final Plat conforms to the previously approved Preliminary Plat.

Financial Impact

Recording the Final Plat signals to the Blaine County Assessor that the individual condominium units have been created and can be taxed as separate properties and added to the tax rolls.

SURVEY NARRATIVE & NOTES

1. The purpose of this survey is to show the monuments found and set during the boundary retracement of Lot 6, Block 34, Ketchum Townsite, Instrument Number 302967, records of Blaine County, Idaho, and to condominiumize said property as shown hereon. All found monuments have been accepted. Lot corner monuments were set by stake breakdown and proportioning record distances. Instrument walls were set by stake breakdown and proportioning record distances. Instrument walls were set by stake breakdown and proportioning record distances. Instrument walls were set by stake breakdown and proportioning record distances.
2. In interpreting the Declaration, Plat or Plans, and Deeds, the existing physical boundaries of the unit as originally constructed, or reconstructed in lieu thereof, shall be deemed to be the boundaries of the unit. The boundaries of the unit as originally expressed or depicted in the declaration, plat or plans, and/or deeds, regardless of setting or lateral movement of the building and regardless of minor variances between boundaries shown in the declaration, plat or plans, and/or deeds, and the actual boundaries of the unit in the buildings.
3. Dimensions shown hereon will be subject to slight variations, owing to normal construction tolerances.
4. Horizontal or sloping planes shown hereon are top of finished subfloor and bottom of finished ceiling; vertical planes are finished surfaces of interior walls. Some structural members extend into units, limited common areas and parking spaces.
5. Property shown hereon is subject to terms, provisions, covenants, conditions, restrictions, easements, charges, assessments and liens provided by applicable Condominium Law or the Condominium Declaration recorded under instrument Number _____, records of Blaine County, Idaho. Consult the Condominium Declaration for the definition of common and limited common area.
6. All area outside of units that is not designated as limited common is common area. Areas of "common" or "limited common" are shown by diagram.
7. Building ties are to the interior corners of unit walls.
8. Utility easements necessary to allow for access and maintenance of utilities serving units other than the unit they are located in are hereby granted by this plat.
9. The current zoning is CC. Refer to the City of Ketchum Zoning Ordinance for specific information about this zone.
10. The owner is 660 First Avenue LLC, Reed Sanborn representative, PO Box 5023 Ketchum, ID 83340. The surveyor/representation is Mark E. Phillips, Galena Engineering, Inc., 317 N. River St., Halley, Idaho 83333.
11. This development is subject to an Exceedance Agreement recorded under instrument Number 420424.

CERTIFICATE OF OWNERSHIP

This is to certify that the undersigned are the owners in fee simple of the following described condominium property:

A parcel of land located within Section 13, T.4N., R.17E., B.M., City of Ketchum, Blaine County, Idaho, more particularly described as follows:
Lot 6, Block 34, Ketchum Townsite

The easements indicated hereon are not dedicated to the public, but the right to use said easements is hereby reserved for the public utilities and for any other uses indicated hereon and no permanent structures are to be erected within the lines of said easements. I do hereby certify that all units within this condominium plat will be served by a water distribution system and that the existing water distribution system has agreed in writing to serve all of units shown within this plat.

It is the intent of the owners to hereby include said condominium property in this plat.

)	
Lofts at 660 1 st Avenue Condominium Subdivision)	KETCHUM CITY COUNCIL
Preliminary Plat)	FINDINGS OF FACT, CONCLUSIONS OF LAW, AND
Date: March 1, 2021)	DECISION
)	
File Number: P20-095)	

Findings Regarding Application Filed

PROJECT: Lofts at 660 1st Avenue Condominium Subdivision Preliminary Plat

APPLICATION TYPE: Condominium Subdivision Preliminary Plat

FILE NUMBER: P20-055

ASSOCIATED PERMITS: P19-084, BP19-112

OWNERS: 660 First Ave LLC (per Blaine County assessor 2/24/21)

REPRESENTATIVE: Galena Engineering

REQUEST: Preliminary Plat to condominimize seven (7) condominium units within a multi-family residential development currently under construction

LOCATION: 660 N. 1st Avenue (Lot 6, Block 34, Ketchum Townsite)

NOTICE: A public hearing was not required for the Final Plat

ZONING: Community Core, Sub-district 2 – Mixed Use

OVERLAY: None

Findings Regarding Associated Development Applications

The subject property is owned by 660 First Ave LLC and was developed by Galena Peak Partners LLC. The development has been completed and is a 12,129 square foot three-story building with seven (7) dwelling units, including one Community Housing unit. The project is located on N. 1st Avenue near the southeast corner of E. 7th Street and N. 1st Avenue in downtown Ketchum’s Community Core Subdistrict 2 Mixed Use zoning district.

This application finalizes the process of platting the dwelling units into condominium units.

The building previously received Design Review approval and a building permit (P19-084, B19-112) and the building was designed and intended to be condominimized. The Final Plat substantially conforms to the

Preliminary Plat (P20-052) that was recommended for approval by the Planning and Zoning Commission on August 11th, 2020 and was approved by City Council on September 16th, 2020.

Findings Regarding City Department Comments

All City Department standards as well as required right-of-way improvements were reviewed through the Design Review and Building Permit processes. Prior to issuance of a Certificate of Occupancy City Departments conducted final inspections to ensure compliance with all conditions and requirements of the associated Design Review, Exceedance Agreement, Building Permit, and Preliminary Plat approvals. Four items that were unable to be complete due to timing and weather were bonded for: completion of landscaping, installing power to the City streetlight, asphalt patching along 1st Avenue, and striping parking spaces.

**Findings Regarding Condominium Subdivision Procedure
(KMC§16.04.070)**

All land subdivisions in the City of Ketchum are subject to the standards contained in Ketchum, Municipal Code, Title 16, Subdivision. Many standards are related to the design and construction of multiple new lots that will form new blocks and infrastructure, such as streets that will be dedicated to and maintained by the City. The standards for certain improvements (KMC §16.04.040) including street, sanitary sewage disposal, planting strip improvements are not applicable to the subject project as the application proposes to subdivide a building currently under construction into condominium units. As conditioned, the request to subdivide meets all applicable standards for Condominiums Preliminary Plats contained in Ketchum Municipal Code’s Subdivision (Title 16) and Zoning (Title 17) regulations. The Condominium Subdivision does not change the proposed residential use or alter the proposed development as reviewed and approved through Design Review P19-084 and Building Permit B19-112.

The first step in the condominium platting process is Preliminary Plat review and to receive a recommendation from the Planning and Zoning Commission. The Planning and Zoning Commission held a public hearing and unanimously recommended approval of the Preliminary Plat application to the City Council on August 11th, 2020. City Council held a public hearing on September 21st, 2020 and approved the Preliminary Plat. City Council reviewed and approved the Final Plat during their meeting on March 1st, 2021.

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	16.04.040.B	Improvement Plans: Prior to approval of final plat by the Council, the subdivider shall file two (2) copies with the city engineer, and the city engineer shall approve construction plans for all improvements required in the proposed subdivision. Such plans shall be prepared by a civil engineer licensed in the state.
				<i>N/A this is a condominium subdivision of an existing structure.</i>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	16.04.040.C	Performance Bond: Prior to final plat approval, the subdivider shall have previously constructed all required improvements and secured a certificate of completion from the city engineer. However, in cases where the required improvements cannot be constructed due to weather, factors beyond the control of the subdivider, or other conditions as determined acceptable at

			<p>the sole discretion of the city, the city council may accept, in lieu of any or all of the required improvements, a performance bond filed with the city clerk to ensure actual construction of the required improvements as submitted and approved. Such performance bond shall be issued in an amount not less than one hundred fifty percent (150%) of the estimated costs of improvements as determined by the city engineer. In the event the improvements are not constructed within the time allowed by the city council (which shall be two years or less, depending upon the individual circumstances), the council may order the improvements installed at the expense of the subdivider and the surety. In the event the cost of installing the required improvements exceeds the amount of the bond, the subdivider shall be liable to the city for additional costs. The amount that the cost of installing the required improvements exceeds the amount of the performance bond shall automatically become a lien upon any and all property within the subdivision owned by the owner and/or subdivider.</p> <p><i>A performance bond is in place for the items noted in the Background Facts section.</i></p>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>16.04.040.D As Built Drawing: Prior to acceptance by the city council of any improvements installed by the subdivider, two (2) sets of as built plans and specifications, certified by the subdivider's engineer, shall be filed with the city engineer. Within ten (10) days after completion of improvements and submission of as built drawings, the city engineer shall certify the completion of the improvements and the acceptance of the improvements, and shall submit a copy of such certification to the administrator and the subdivider. If a performance bond has been filed, the administrator shall forward a copy of the certification to the city clerk. Thereafter, the city clerk shall release the performance bond upon application by the subdivider.</p> <p><i>N/A this is a condominium subdivision of an existing structure.</i></p>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>16.04.040.E Monumentation: Following completion of construction of the required improvements and prior to certification of completion by the city engineer, certain land survey monuments shall be reset or verified by the subdivider's engineer or surveyor to still be in place. These monuments shall have the size, shape, and type of material as shown on the subdivision plat. The monuments shall be located as follows:</p> <ol style="list-style-type: none"> 1. All angle points in the exterior boundary of the plat. 2. All street intersections, points within and adjacent to the final plat. 3. All street corner lines ending at boundary line of final plat. 4. All angle points and points of curves on all streets. 5. The point of beginning of the subdivision plat description. <p><i>The applicant shall meet the required monumentation standards prior to recordation of the Final Plat.</i></p>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>16.04.040.F Lot Requirements:</p> <ol style="list-style-type: none"> 1. Lot size, width, depth, shape and orientation and minimum building setback lines shall be in compliance with the zoning district in which the property is located and compatible with the location of the subdivision and the type of development, and preserve solar access to adjacent properties and buildings. 2. Whenever a proposed subdivision contains lot(s), in whole or in part, within the floodplain, or which contains land with a slope in excess of twenty five percent (25%), based upon natural contours, or creates corner lots at the intersection of two (2) or more streets, building envelopes shall be shown for the lot(s) so affected on the preliminary and final plats. The building envelopes shall be located in a manner designed to promote harmonious development of structures, minimize congestion of structures, and provide open space and solar access for each lot and structure. Also, building envelopes shall be located to promote access to the lots and maintenance of public utilities, to minimize cut and fill for roads and building foundations, and minimize adverse impact upon environment, watercourses and topographical features. Structures may only be built on buildable lots. Lots shall only be created that meet the definition of "lot, buildable" in section 16.04.020 of this chapter. Building envelopes shall be established outside of hillsides of twenty five percent (25%) and greater and outside of the floodway. A waiver to this standard may only be considered for the following: <ol style="list-style-type: none"> a. For lot line shifts of parcels that are entirely within slopes of twenty five percent (25%) or greater to create a reasonable building envelope, and mountain overlay design review standards and all other city requirements are met. b. For small, isolated pockets of twenty five percent (25%) or greater that are found to be in compliance with the purposes and standards of the mountain overlay district and this section.

				<p>3. Corner lots outside of the original Ketchum Townsite shall have a property line curve or corner of a minimum radius of twenty five feet (25') unless a longer radius is required to serve an existing or future use.</p> <p>4. Side lot lines shall be within twenty degrees (20°) to a right angle or radial line to the street line.</p> <p>5. Double frontage lots shall not be created. A planting strip shall be provided along the boundary line of lots adjacent to arterial streets or incompatible zoning districts.</p> <p>6. Every lot in a subdivision shall have a minimum of twenty feet (20') of frontage on a dedicated public street or legal access via an easement of twenty feet (20') or greater in width. Easement shall be recorded in the office of the Blaine County recorder prior to or in conjunction with recordation of the final plat. Minimum lot sizes in all cases shall be reversed frontage lot(s).</p>
				<i>Not applicable. This standard is not applicable as the application proposes to subdivide a multi-family residential building into condominium units.</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	16.04.040.G	<p>G. Block Requirements: The length, width and shape of blocks within a proposed subdivision shall conform to the following requirements:</p> <ol style="list-style-type: none"> 1. No block shall be longer than one thousand two hundred feet (1,200'), nor less than four hundred feet (400') between the street intersections, and shall have sufficient depth to provide for two (2) tiers of lots. 2. Blocks shall be laid out in such a manner as to comply with the lot requirements. 3. The layout of blocks shall take into consideration the natural topography of the land to promote access within the subdivision and minimize cuts and fills for roads and minimize adverse impact on environment, watercourses and topographical features. 4. Except in the original Ketchum Townsite, corner lots shall contain a building envelope outside of a seventy five foot (75') radius from the intersection of the streets.
				<i>This application does not create a new block. This requirement is not applicable.</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	16.04.040.H	<p>Street Improvement Requirements:</p> <ol style="list-style-type: none"> 1. The arrangement, character, extent, width, grade and location of all streets put in the proposed subdivision shall conform to the comprehensive plan and shall be considered in their relation to existing and planned streets, topography, public convenience and safety, and the proposed uses of the land; 2. All streets shall be constructed to meet or exceed the criteria and standards set forth in chapter 12.04 of this code, and all other applicable ordinances, resolutions or regulations of the city or any other governmental entity having jurisdiction, now existing or adopted, amended or codified; 3. Where a subdivision abuts or contains an existing or proposed arterial street, railroad or limited access highway right of way, the council may require a frontage street, planting strip, or similar design features; 4. Streets may be required to provide access to adjoining lands and provide proper traffic circulation through existing or future neighborhoods; 5. Street grades shall not be less than three-tenths percent (0.3%) and not more than seven percent (7%) so as to provide safe movement of traffic and emergency vehicles in all weather and to provide for adequate drainage and snow plowing; 6. In general, partial dedications shall not be permitted, however, the council may accept a partial street dedication when such a street forms a boundary of the proposed subdivision and is deemed necessary for the orderly development of the neighborhood, and provided the council finds it practical to require the dedication of the remainder of the right of way when the adjoining property is subdivided. When a partial street exists adjoining the proposed subdivision, the remainder of the right of way shall be dedicated; 7. Dead end streets may be permitted only when such street terminates at the boundary of a subdivision and is necessary for the development of the subdivision or the future development of the adjacent property. When such a dead end street serves more than two (2) lots, a temporary turnaround easement shall be provided, which easement shall revert to the adjacent lots when the street is extended; 8. A cul-de-sac, court or similar type street shall be permitted only when necessary to the development of the subdivision, and provided, that no such street shall have a maximum length greater than four hundred feet (400') from entrance to center of turnaround, and all cul-de-sacs shall have a minimum turnaround radius of sixty feet (60') at the property line and not less than forty five feet (45') at the curb line;

				<p>9. Streets shall be planned to intersect as nearly as possible at right angles, but in no event at less than seventy degrees (70°);</p> <p>10. Where any street deflects an angle of ten degrees (10°) or more, a connecting curve shall be required having a minimum centerline radius of three hundred feet (300') for arterial and collector streets, and one hundred twenty five feet (125') for minor streets;</p> <p>11. Streets with centerline offsets of less than one hundred twenty five feet (125') shall be prohibited;</p> <p>12. A tangent of at least one hundred feet (100') long shall be introduced between reverse curves on arterial and collector streets;</p> <p>13. Proposed streets which are a continuation of an existing street shall be given the same names as the existing street. All new street names shall not duplicate or be confused with the names of existing streets within Blaine County, Idaho. The subdivider shall obtain approval of all street names within the proposed subdivision from the County Assessor's office before submitting same to council for preliminary plat approval;</p> <p>14. Street alignment design shall follow natural terrain contours to result in safe streets, usable lots, and minimum cuts and fills;</p> <p>15. Street patterns of residential areas shall be designed to create areas free of through traffic, but readily accessible to adjacent collector and arterial streets;</p> <p>16. Reserve planting strips controlling access to public streets shall be permitted under conditions specified and shown on the final plat, and all landscaping and irrigation systems shall be installed as required improvements by the subdivider;</p> <p>17. In general, the centerline of a street shall coincide with the centerline of the street right of way, and all crosswalk markings shall be installed by the subdivider as a required improvement;</p> <p>18. Street lighting shall be required consistent with adopted city standards and where designated shall be installed by the subdivider as a requirement improvement;</p> <p>19. Private streets may be allowed upon recommendation by the commission and approval by the Council. Private streets shall be constructed to meet the design standards specified in subsection H2 of this section and chapter 12.04 of this code;</p> <p>20. Street signs shall be installed by the subdivider as a required improvement of a type and design approved by the Administrator and shall be consistent with the type and design of existing street signs elsewhere in the City;</p> <p>21. Whenever a proposed subdivision requires construction of a new bridge, or will create substantial additional traffic which will require construction of a new bridge or improvement of an existing bridge, such construction or improvement shall be a required improvement by the subdivider. Such construction or improvement shall be in accordance with adopted standard specifications;</p> <p>22. Sidewalks, curbs and gutters shall be required consistent with adopted city standards and where designated shall be a required improvement installed by the subdivider;</p> <p>23. Gates are prohibited on private roads and parking access/entranceways, private driveways accessing more than one single-family dwelling unit and one accessory dwelling unit, and public rights-of-way unless approved by the City Council; and</p> <p>24. No new public or private streets or flag lots associated with a proposed subdivision (land, planned unit development, townhouse, condominium) are permitted to be developed on parcels within the Avalanche Zone.</p>
				<i>This proposal does not create new street, private road, or bridge. Sidewalks, curb, and gutter were required to be installed through the building permit approval and completion (Certificate of Occupancy) process.</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	16.04.040.I	<p>Alley Improvement Requirements: Alleys shall be provided in, commercial and light industrial zoning districts. The width of an alley shall be not less than twenty feet (20'). Alley intersections and sharp changes in alignment shall be avoided, but where necessary, corners shall be provided to permit safe vehicular movement. Dead end alleys shall be permitted only within the original Ketchum Townsite and only after due consideration of the interests of the owners of property adjacent to the dead-end alley including, but not limited to, the provision of fire protection, snow removal and trash collection services to such properties. Improvement of alleys shall be done by the subdivider as required improvement and in conformance with design standards specified in subsection H2 of this section.</p>
				<i>This proposal does not create a new alley.</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	16.04.040.J	<p>Required Easements: Easements, as set forth in this subsection, shall be required for location of utilities and other public services, to provide adequate pedestrian circulation and access to public waterways and lands.</p>

				<p>1. A public utility easement at least ten feet (10') in width shall be required within the street right-of-way boundaries of all private streets. A public utility easement at least five feet (5') in width shall be required within property boundaries adjacent to Warm Springs Road and within any other property boundary as determined by the City Engineer to be necessary for the provision of adequate public utilities.</p> <p>2. Where a subdivision contains or borders on a watercourse, drainageway, channel or stream, an easement shall be required of sufficient width to contain such watercourse and provide access for private maintenance and/or reconstruction of such watercourse.</p> <p>3. All subdivisions which border the Big Wood River, Trail Creek and Warm Springs Creek shall dedicate a ten foot (10') fish and nature study easement along the riverbank. Furthermore, the Council shall require, in appropriate areas, an easement providing access through the subdivision to the bank as a sportsman's access. These easement requirements are minimum standards, and in appropriate cases where a subdivision abuts a portion of the river adjacent to an existing pedestrian easement, the Council may require an extension of that easement along the portion of the riverbank which runs through the proposed subdivision.</p> <p>4. All subdivisions which border on the Big Wood River, Trail Creek and Warm Springs Creek shall dedicate a twenty five foot (25') scenic easement upon which no permanent structure shall be built in order to protect the natural vegetation and wildlife along the riverbank and to protect structures from damage or loss due to riverbank erosion.</p> <p>5. No ditch, pipe or structure for irrigation water or irrigation wastewater shall be constructed, rerouted or changed in the course of planning for or constructing required improvements within a proposed subdivision unless same has first been approved in writing by the ditch company or property owner holding the water rights. A written copy of such approval shall be filed as part of required improvement construction plans.</p> <p>6. Nonvehicular transportation system easements including pedestrian walkways, bike paths, equestrian paths, and similar easements shall be dedicated by the subdivider to provide an adequate nonvehicular transportation system throughout the City.</p>
				<i>None of the easements described in this section apply to this project.</i>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	16.04.040.K	<p>Sanitary Sewage Disposal Improvements: Central sanitary sewer systems shall be installed in all subdivisions and connected to the Ketchum sewage treatment system as a required improvement by the subdivider. Construction plans and specifications for central sanitary sewer extension shall be prepared by the subdivider and approved by the City Engineer, Council and Idaho Health Department prior to final plat approval. In the event that the sanitary sewage system of a subdivision cannot connect to the existing public sewage system, alternative provisions for sewage disposal in accordance with the requirements of the Idaho Department of Health and the Council may be constructed on a temporary basis until such time as connection to the public sewage system is possible. In considering such alternative provisions, the Council may require an increase in the minimum lot size and may impose any other reasonable requirements which it deems necessary to protect public health, safety and welfare.</p>
				<i>The building is connected to the municipal sewer system.</i>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	16.04.040.L	<p>Water System Improvements: A central domestic water distribution system shall be installed in all subdivisions by the subdivider as a required improvement. The subdivider shall also be required to locate and install an adequate number of fire hydrants within the proposed subdivision according to specifications and requirements of the City under the supervision of the Ketchum Fire Department and other regulatory agencies having jurisdiction. Furthermore, the central water system shall have sufficient flow for domestic use and adequate fire flow. All such water systems installed shall be looped extensions, and no dead end systems shall be permitted. All water systems shall be connected to the Municipal water system and shall meet the standards of the following agencies: Idaho Department of Public Health, Idaho Survey and Rating Bureau, District Sanitarian, Idaho State Public Utilities Commission, Idaho Department of Reclamation, and all requirements of the City.</p>
				<i>The building is connected to the municipal water system.</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	16.04.040.M	<p>Planting Strip Improvements: Planting strips shall be required improvements. When a predominantly residential subdivision is proposed for land adjoining incompatible uses or features such as highways, railroads, commercial or light industrial districts or off street parking areas, the subdivider shall provide planting strips to screen the view of such incompatible</p>

				features. The subdivider shall submit a landscaping plan for such planting strip with the preliminary plat application, and the landscaping shall be a required improvement.
				<i>This standard is not applicable.</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	16.04.040.N	<p>Cuts, Fills, And Grading Improvements: Proposed subdivisions shall be carefully planned to be compatible with natural topography, soil conditions, geology and hydrology of the site, as well as to minimize cuts, fills, alterations of topography, streams, drainage channels, and disruption of soils and vegetation. The design criteria shall include the following:</p> <ol style="list-style-type: none"> 1. A preliminary soil report prepared by a qualified engineer may be required by the commission and/or Council as part of the preliminary plat application. 2. Preliminary grading plan prepared by a civil engineer shall be submitted as part of all preliminary plat applications. Such plan shall contain the following information: <ol style="list-style-type: none"> a. Proposed contours at a maximum of five foot (5') contour intervals. b. Cut and fill banks in pad elevations. c. Drainage patterns. d. Areas where trees and/or natural vegetation will be preserved. e. Location of all street and utility improvements including driveways to building envelopes. f. Any other information which may reasonably be required by the Administrator, commission or Council to adequately review the affect of the proposed improvements. 3. Grading shall be designed to blend with natural landforms and to minimize the necessity of padding or terracing of building sites, excavation for foundations, and minimize the necessity of cuts and fills for streets and driveways. 4. Areas within a subdivision which are not well suited for development because of existing soil conditions, steepness of slope, geology or hydrology shall be allocated for open space for the benefit of future property owners within the subdivision. 5. Where existing soils and vegetation are disrupted by subdivision development, provision shall be made by the subdivider for revegetation of disturbed areas with perennial vegetation sufficient to stabilize the soil upon completion of the construction. Until such times as such revegetation has been installed and established, the subdivider shall maintain and protect all disturbed surfaces from erosion. 6. Where cuts, fills, or other excavations are necessary, the following development standards shall apply: <ol style="list-style-type: none"> a. Fill areas shall be prepared by removing all organic material detrimental to proper compaction for soil stability. b. Fills shall be compacted to at least ninety five percent (95%) of maximum density as determined by AASHO T99 (American Association of State Highway Officials) and ASTM D698 (American Standard Testing Methods). c. Cut slopes shall be no steeper than two horizontal to one vertical (2:1). Subsurface drainage shall be provided as necessary for stability. d. Fill slopes shall be no steeper than three horizontal to one vertical (3:1). Neither cut nor fill slopes shall be located on natural slopes of three to one (3:1) or steeper, or where fill slope toes out within twelve feet (12') horizontally of the top and existing or planned cut slope. e. Toes of cut and fill slopes shall be set back from property boundaries a distance of three feet (3'), plus one-fifth (1/5) of the height of the cut or the fill, but may not exceed a horizontal distance of ten feet (10'); tops and toes of cut and fill slopes shall be set back from structures at a distance of at least six feet (6'), plus one-fifth (1/5) of the height of the cut or the fill. Additional setback distances shall be provided as necessary to accommodate drainage features and drainage structures.
				<i>These standards are not applicable.</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	16.04.040.O	<p>Drainage Improvements: The subdivider shall submit with the preliminary plat application such maps, profiles, and other data prepared by an engineer to indicate the proper drainage of the surface water to natural drainage courses or storm drains, existing or proposed. The location and width of the natural drainage courses shall be shown as an easement common to all owners within the subdivision and the City on the preliminary and final plat. All natural drainage courses shall be left undisturbed or be improved in a manner that will increase the operating efficiency of the channel without overloading its capacity. An adequate storm and surface drainage system shall be a required improvement in all subdivisions and shall be installed by the subdivider. Culverts shall be required where all water or drainage courses</p>

				intersect with streets, driveways or improved public easements and shall extend across and under the entire improved width including shoulders.
				<i>Drainage improvements were reviewed and approved concurrent with the building permit. All improvements were inspection for compliance prior to issuance of Certificate of Occupancy.</i>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	16.04.040.P	Utilities: In addition to the terms mentioned in this section, all utilities including, but not limited to, electricity, natural gas, telephone and cable services shall be installed underground as a required improvement by the subdivider. Adequate provision for expansion of such services within the subdivision or to adjacent lands including installation of conduit pipe across and underneath streets shall be installed by the subdivider prior to construction of street improvements.
				<i>Natural gas, telephone, cable, and electricity were installed prior to Certificate of Occupancy for the building.</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	16.04.040.Q	Off Site Improvements: Where the off site impact of a proposed subdivision is found by the commission or Council to create substantial additional traffic, improvements to alleviate that impact may be required of the subdivider prior to final plat approval, including, but not limited to, bridges, intersections, roads, traffic control devices, water mains and facilities, and sewer mains and facilities.
				<i>No off-site improvements are required.</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	16.04.040.R	Avalanche And Mountain Overlay: All improvements and plats (land, planned unit development, townhouse, condominium) created pursuant to this chapter shall comply with City of Ketchum Avalanche Zone District and Mountain Overlay Zoning District requirements as set forth in Title 17 of this Code.
				<i>N/A</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	16.04.040.S	Existing natural features which enhance the attractiveness of the subdivision and community, such as mature trees, watercourses, rock outcroppings, established shrub masses and historic areas, shall be preserved through design of the subdivision.
				<i>N/A</i>

CONCLUSIONS OF LAW

1. The City of Ketchum is a municipal corporation established in accordance with Article XII of the Constitution of the State of Idaho and Title 50 Idaho Code and is required and has exercised its authority pursuant to the Local Land Use Planning Act codified at Chapter 65 of Title 67 Idaho Code and pursuant to Chapters 3, 9 and 13 of Title 50 Idaho Code to enact the Ordinances and regulations, which Ordinances are codified in the Ketchum City Code ("KMC") and are identified in the Findings of Fact and which are herein restated as Conclusions of Law by this reference and which City Ordinances govern the Applicant's Condominium Subdivision Final Plat application for the development and use of the project site.
2. The Council has authority to hear the applicant's Condominium Subdivision application pursuant to Chapter 16.04 of Ketchum Code Title 16.
3. The City of Ketchum Planning Department provided adequate notice for the review of this application.
4. The Condominium Subdivision Final Plat application is governed under Sections 16.04.010, 16.04.020, 16.04.030, and 16.04.070 of Ketchum Municipal Code Chapter 16.04.
5. The proposed Condominium Subdivision for the Lofts at 660 1st Avenue development meets the standards for Preliminary Plats under Title 16 of Ketchum Municipal Code subject to conditions of approval.

DECISION

THEREFORE, the Ketchum City Council **approves** this Condominium Subdivision Final Plat application this Monday, March 1st, 2021 subject to the following conditions:

CONDITIONS OF APPROVAL

1. The recorded plat shall show a minimum of two Blaine County Survey Control Monuments with ties to the property and an inverse between the two monuments. The Survey Control Monuments shall be clearly identified on the face of the map.
2. An electronic CAD file shall be submitted to the City of Ketchum prior to final plat signature by the City Clerk. The electronic CAD file shall be submitted to the Blaine County Recorder's office concurrent with the recording of the Plat containing the following minimum data:
 - a. Line work delineating all parcels and roadways on a CAD layer/level designated as "parcel";
 - b. Line work delineating all roadway centerlines on a CAD layer/level designated as "road"; and,
 - c. Line work that reflects the ties and inverses for the Survey Control Monuments shown on the face of the Plat shall be shown on a CAD layer/level designated as "control"; and,
 - d. All information within the electronic file shall be oriented and scaled to Grid per the Idaho State Plane Coordinate System, Central Zone, NAD1983 (1992), U.S. Survey Feet, using the Blaine County Survey Control Network. Electronic CAD files shall be submitted in a ".dwg", ".dgn" or ".shp" format and shall be submitted digitally to the City on a compact disc. When the endpoints of the lines submitted are indicated as coincidental with another line, the CAD line endpoints shall be separated by no greater than 0.0001 drawing units.
3. The applicant shall provide a copy of the recorded Final Plat and the associated condominium owners' documents to the Planning and Building Department for the official file on the application.
4. The Final Plat mylar shall contain all items required under Title 50, Chapter 13, Idaho Code as well as all items required pursuant to KMC §16.04.030J including certificates and signatures.
5. All governing ordinances and department conditions pertinent to the Fire Department, Building Department, Utilities Department, Street Department and Ketchum City Engineer shall be met.

Findings of Fact **adopted** this 1st day of March, 2020

Neil Bradshaw, Mayor

Katrin Sharp, Deputy City Clerk
