

Ketchum Traffic Authority

From our last meeting 6/17:

Discussion on the removal or retention of the temporary 15-minute parking spots, item brought by Suzanne Frick, Director of Planning & Building and KURA. During Covid the City put in many temporary 15-minute parking spots to allow for pick up and drop off since businesses were closed and in take-out mode. Since many are reopened, the spaces are not being used for pick-up and drop-off.

The Group decided to have the Community Service Officers do community outreach with the adjacent businesses and get feedback on this issue and bring the feedback to the next meeting.
