

Hi Kelli,

I would like to have a discussion on to 2 parking spaces on Leadville Avenue behind Village Market.

Currently the 2 spaces are in the loading zone. I've noticed when a vehicle is parked in one of those spots, it forces the delivery trucks to park in the lane of travel, blocking the stop sign and the line of sight.

My suggestion is to eliminate the 2 parking spaces which will make the loading zone longer and the intersection safer.

Thank you,
