Recommendation:
Approve the Resolution.

Executive Summary:
Request for Proposals were received on December 21, 2023 for rental of equipment that will be used to assist City crews as they pave select roadways during calendar year 2024. The equipment consist of a large milling machine that removes the existing asphalt wearing surface before placing the new surface, and a closed cab sweeper to assist with cleaning up milling debris.

Rental of this equipment is necessary as the city doesn't currently own either machine. Additionally, based on the city's paving schedule coordinating with a contractor for the use of this equipment would be inefficient and the condition of streets to be paved in Spring of 2024 isn't conducive to simply overlaying the existing roadways. These machines are essential in keeping the normal day-to-day operations going while City crews pave.

It is more cost effective and efficient for city personnel to perform certain paving tasks with leased equipment, therefore it is recommended to award the equipment rental to Stowers Machinery for seven months in the amount of \$153,400 for in-house City paving efforts.

Funding is available and identified in GP2400.
