SOTOXA™ ORAL FLUID MOBILE TEST SYSTEM

BETTER PROTECTION AGAINST DRUGGED DRIVING

Driving under the influence of drugs (DUID) is a major concern of police forces in the United States and around the globe. Previously, the only accurate drug testing required sending urine or blood samples to a laboratory — which could delay results for days.

INCREASE ROAD SAFETY

Keeping our roadways and families safe is our top priority. The SoToxa™ handheld technology provides immediate, actionable results that can help improve public safety and help individuals and families live their best lives.

PORTABLE, HANDHELD AND CONVENIENT

The handheld SoToxa™ Oral Fluid Mobile Analyzer provides the optimal combination of speed, ease of use, reliability and accuracy. The analyzer has been designed and developed to meet the high performance demands of law enforcement, empowering officers to take action with immediate test results.

TESTING WHERE YOU NEED IT

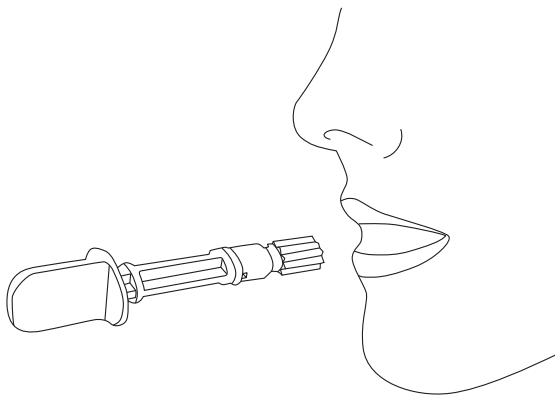

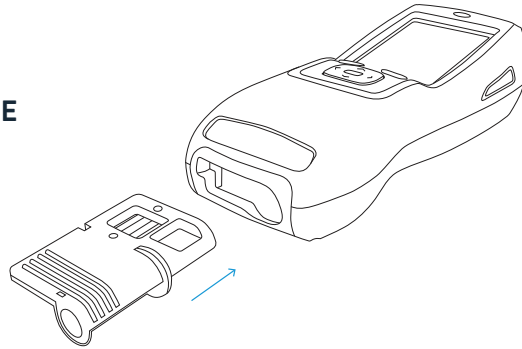

The SoToxa™ Oral Fluid Mobile Test System is the ideal instrument for drug testing at the roadside. It can detect up to 6 drug classes within 5 minutes from a single oral fluid collection sample. Weighing in at under 2 lb and fitting comfortably in your hand, it is a truly portable analyzer.

Designed to operate in a wide range of environments, the 3.2-inch, backlit, full-color screen provides excellent visibility in daylight and at night.
