9	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	"Best Product, Best Local Support" is a promise to our customers and is also a tagline that acts as a guiding principle to us each day. We have long been known for robust and innovative products that focus on simplicity, an increasingly rare characteristic in our marketplace. Sewer Equipment is also unique among manufacturers for our breadth of product, which ultimately allows our salespeople and distributors to sell in a consultative fashion. No other manufacture provides full size combination (jet/vacuum) trucks, mini combo trucks, water recycling combo trucks, truck and trailer jets both large and small, rodders, easement machines, and accessories for sewer cleaning applications as well as purpose built hydro excavation and air excavation trucks of all sizes. Our 76-year history has been one of growth and meaningful innovation. In 1941, our founder, H.T. O'Brien, developed the idea of using a rotating, spring tipped rod for cleaning drains in buildings, and a company was born. Throughout the 1940's and into the 1960's, O'Brien Manufacturing refined and expanded this principle to include trailer mounted rodders for cleaning mainline sewer pipes – these rodders were the predecessors of today's sewer jetters. The late 1960's saw the advent of modern-day sewer jet trucks and water powered rotating root cutters by O'Brien. O'Brien Manufacturing was sold in the early 70's and Sewer Equipment Company of America was opened by Jim O'Brien, son of the founder. The company grew from accessory sales to the manufacture of rodders, bucket machines, vacuum trailers, and truck and trailer jetters. In the mid 2000's we began manufacturing an extensive line of hydro excavating trucks and trailers. In 2012, the company was moved from a 37,000 sq/ft manufacturing facility in Chadwick IL to a 122,000 sq/ft plant in Dixon IL to accommodate our growth. This move allowed us to begin producing the 900-ECO combination sewer cleaner 2015. In the 6 years since its release, the 900-ECO has achieved approximately a 13% share of this hotly contested segment, measured in annual new truck sales in the US. In the last 4 years, we have also released the 400-ECO mini combo truck, the Genesis water recycling combo, and the AX-4000 air excavator truck. May of 2021 marked the completion of our 9000th piece of "big equipment" in company history.																
10	What are your company's expectations in the event of an award?	We would immediately schedule a video conference meeting with all distributor sales personnel, reiterating the terms of the contract and calling attention to any changes. This would be followed up with in person reviews as well as e-mail / social media blasts to dealers and end users. We would remain the sole source of responsibility for this contract and would handle all order entry and reporting tasks required by the contract as we currently do.	*															
11	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	Sewer Equipment has a consistent track record of growth and profitability. The company's past performance assures ample resources to enhance our product offerings for the markets we serve. Sewer Equipment maintains insurance coverage that is customary for the business being conducted. 14	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	Since its formation, Sewer Equipment has never petitioned for bankruptcy protection.	*															
15	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	As a manufacturer, our primary means of going to market is via exclusive distributors that are typically responsible for covering the municipal entities in an entire state/states, multiple provinces, or multiple countries. We have distributors in 46 States and 2 Providences in Canada, as well as 5 overseas countries. The only exception is in some states/provinces that are in a transitional phase. Distributors act on our behalf as local sales, service, training, and warranty providers. These distributor sales and service people are 3rd party employees and are looked after by regional sales managers from Sewer Equipment. Distributor service personnel work closely with, and have direct access to Sewer Equipment's warranty department, technical service department and engineering group.	*															
16	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	As a United States based company, we are an Illinois corporation registered with the Illinois Secretary of State (File No. 50370119). Our Federal Employer Identification Number is 36-2786536. Our Illinois Certificate of Resale Number is 0252-2705. As a manufacturing making mobile products operating on US highways, we have two dealer licenses. DL1582 for trucks and DLT1419 for trailers. Each of our Dealers also hold Dealer Licenses in their respective territories. Where required, Sewer Equipment is licensed as a Manufacturer or Motor Vehicle Converter including Iowa Manufacturer License No. M241, Texas Motor Vehicle Converter License No. 105517, Louisiana Motor Vehicle Converter License No. CV-2021-00122, Washington Vehicle Manufacturer License No. 08152 and Montana New Motor Vehicle Manufacturer License No. 139. Sewer Equipment is also a member of the National Association of Trailer Manufacturers. This assures our trailers are manufactured in accordance with all DOT and NATM guidelines.	*															
17	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	Sewer Equipment has not within the ten-year period preceding this bid been debarred or suspended from any public transactions (Federal, State, or local).	*

18	Describe any relevant industry awards or recognition that your company has received in the past five years	Sewer Equipment was awarded patent number "US 9,863,135 B2" for our Hydro-Drive system on January 9th, 2018. This Hydro-Drive System is the heart of our 900-ECO Combination Sewer Cleaner and has been a major contributor to the continued growth and success of our company. In the July 2021 issue of THE MUNICIPAL, Sewer Equipment was featured in an article "Moving Beyond Transactional Relationships Toward Partnerships." referencing a sale to King County, WA, where they utilized the Sourcwell Contract for the purchase and National Cooperative Lease for the financing. Sewer Equipment's products are in focus on almost a monthly basis in Industry Trade Publications such as CLEANER, DIG DIFFERENT, and MUNICIPAL WATER & SEWER.	*

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcwell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
25	Sales force.	We directly employ a national sales manager as well as an eastern, central, and western regional sales manager that are responsible for our distributor network. We employ 3 inside salespeople as well as 7 direct salespeople that serve markets that are not fully covered by distribution (primarily contractors, but also some federal agencies and education to a very small degree). Three full time demonstration specialists work with our regional sales managers and distributor salespeople to allow our customers to "try it before they buy it", which is a very important aspect of our sales program.	*

26	Dealer network or other distribution methods.	In total, our distributor network employs approximately 140 salespeople. As a premium specialty product, our distributors are quite focused on the Sewer Equipment line, typically spending 50% or more of their efforts on our offerings. A new focus moving forward will be an intensive product and presentation technique training (SEAL - Sewer Equipment Advanced Learning) program for our distributors, with the goal being the most educated and knowledgeable sales staff in the industry. This has already begun with a dealer "walkaround" event (live product presentation), in which dealer salespeople presented several products to their peers and factory personnel and were graded for certification purposes. This program will be expanded with more events and more content in the coming years.	*
27	Service force.	(See attachment: 27 Service Distributor Map – US) As the Sewer Equipment distributor network evolves, our service presence has improved in recent years. With more professional organizations in our ranks, our number of service techs at the dealer in the US and Canada is approximately 170. Each of our distributors is required to have at least two technicians certified at Sewer University, a multi-day class that is regularly held at our Dixon IL headquarters. 99% of our customer's service needs are accommodated at the distributor level. Sewer Equipment also employs 3 mobile service technicians equipped with service trucks that fill in any gaps in service coverage and cover special projects. A relatively unique offering for customers in remote regions is our willingness to provide warranty coverage via a 3rd party repair shop of their choice or to reimburse the customer to perform simple warranty repairs themselves. This is very popular among customers in the rural western US, and is largely made possible by our simple products and factory tech support.	*
28	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	As in the past, Sewer Equipment distributors will provide Sourcewell quotations to customers and will accept purchase orders from customers following Sourcewell guidelines as called out in our Quick start guide for distributors which will be updated (Attachment - 28 Quick Start Guide for dealers- Sourcewell INTERNAL - rev6 4-6-2020). Upon securing the order from the end user, the distributor will in turn place their order with Sewer Equipment and must include a copy of their customer's purchase order complete with Sourcewell discount information, customer Sourcewell number, and our Sourcewell contract number. Said in a simpler way, customers will order from their authorized distributor, and the distributor will order from Sewer Equipment as they normally would, with the exception that Sourcewell quote and order protocols will be followed.	*
29	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	The first and likely most important aspect of our service program is building equipment that can be worked on by the customer or a local shop. Because Sewer Equipment has consciously avoided the use of computers, circuit boards, and CANbus communication protocols in our products, a mechanic with traditional skills and a knowledge of 12-volt wiring systems can often help themselves. If the customer does not possess the skills or cannot resolve the issue on their own, they should make a call to their local distributor to schedule a service visit, or to our corporate service technicians for assistance via the phone. Our corporate, in-house customer service department is comprised of both parts sales specialists and technical support specialists that provide toll-free service and tech support 24-7 & 365 days a year to end users and distributor service groups. Depending upon the issue, many can be handled over the phone with minor adjustments to either the operator's use of the equipment or to the machine itself. Our support specialists have extensive experience in troubleshooting issues and offering solutions. If repair service and parts are required, our specialists will work with the customer and/or dealer to most quickly and easily remedy the situation. To assist in this process, each unit we build is assigned a 4 digit serial number that allows us to retrieve electronic copies of every document related to the system from the sales order to product manuals that contain as built wiring diagrams and hydraulic schematics. We stock an extensive inventory of repair parts and accessories to give expedited service to our customers. Due to our stock levels and standardization on most buy out components, we have a track record of consistently shipping 95+% parts the same day ordered. For those remaining parts, we go to our vendor suppliers for support to meet our customer and dealer network needs. In regard to response time, most customers can expect a personal visit from a dealer technician within 24 hours with some exceptions due to geographic challenges. As detailed above, technical phone support is available all day, every day.	*
30	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	All personnel, physical assets, and procedures are already in place to provide our products and product support nationwide.	*
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	We are prepared and have already utilized the Sourcewell contract in Canada for a substantial transaction with Hamilton, Ontario (2 Hydro-Excavator trucks)	*
32	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	Hawaii is the only geography not covered by an exclusive distributor, but we do utilize a non-exclusive reseller to facilitate service issues and the few sales that we see there.	*
33	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	Although we are willing and able to serve all sectors, 98-99% of our customers fall in the government segment with some tribal entities and an occasional school district or university mixed in.	*
34	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	We do not have any restrictions in regards to the contract for the States of Alaska and Hawaii.	*

36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Our marketing platforms include: our websites (Sewer Equipment and Rock Rental), ad campaigns through Google AdWords, LinkedIn ads, and Facebook ads, social media platforms such as LinkedIn, Facebook, and Twitter, advertising and editorial content with trade magazines, and email campaigns to established dealer networks and customers.
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	We feel that Sourcewell provides the medium and Sewer Equipment supplies the product, both supplying prospects. Sourcewell's marketing efforts are important to expose municipalities to the contract and the accepted option as an alternative to the traditional bid process. Sewer Equipment's responsibility is to market our product to prospects and our distribution network. Integrate Into Sales Process: - We will continue with our existing plan which is mentioned in number 35 above. In addition to what is mentioned we have additional plans already in place that we will continue with that include: - WWETT show, Indianapolis, February 2022: announce renewal of contract at annual dealer meeting. - Each year we present the top 3 Sourcewell dealer salespersons with monetary awards covered by Sewer Equipment. - Our secured dealer portal website includes: all Sourcewell pricing, Sourcewell quick start guide which outlines all pertinent details of our contract. - Internal quarterly sales meeting includes update on sales success regarding the contract. - When a new dealer is brought on, we allocate for 1 hour of Sourcewell training.
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	We do not have an e-procurement system in place at this time.

Line Item	Question	Response *
39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Operational training is standard and provided free of charge by our distributors at time of delivery of new machines. Because a large percentage of our customers are repeat buyers, we choose to offer additional on-site operator training by a factory representative on an optional basis for those that feel they need it. Price is \$1,839.00 for the first day and \$1,370.00 for each subsequent day, including all expenses such as transportation. Model specific maintenance training is optional, customizable, and available on demand. This covers daily, weekly, monthly, and annual maintenance requirements as well as basic and model specific troubleshooting. This is typically 2 days at our plant and is \$943 per person. Meals and lodging are included in the price and customer is responsible for transportation.
40	Describe any technological advances that your proposed products or services offer.	Our primary "advancement" revolves around the principle of keeping our systems simple. Particularly in the combination truck, hydro excavator, and full-size truck jet market, nearly every manufacturer has moved to microprocessor-controlled modules that incorporate touch screens and complex digital user interfaces. We have retained the use of traditional 12-volt control systems. This makes our trucks easier and safer to run, easier to maintain without special training and tools (increasing up-time) and eliminates the obsolescence and fragility of high-tech components. We are in the process of manufacturing the world's only battery powered rodder for the City of Seattle sewer collections department. The Genesis Recycling Combination truck is an exclusive partnership with Cappellotto of Italy that allows us to offer their world leading technology of this product in North America with the sales efforts and support of our nationwide dealer network. Our patented Hydro Drive system utilized on our 900-ECO drives our blower and water pump in a very unique but surprisingly simple manner that offers a host of benefits. Eliminating the transfer case present in most other designs removes a potential maintenance headache, allows our truck to work in neutral offering unmatched operator safety and ease of setup, and consumes less horsepower, thus cutting fuel consumption and emissions. The 800-HPRTV Series IV was recently refined and is the most user friendly and productive TV/Jet combination systems in the truck and trailer market, allowing customers to TV and clean sewer lines simultaneously.

41	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Company 2020 solar panel project. Through the Illinois Adjustable Block Program Sewer Equipment's 706.86 kW solar system is generating 11,871 REC's (Renewable Energy Credits). (attachment – 41 Sewer Equipment Solar Renewable... and attachment - 41 Illinois Adjustable....), Sewer Equipment participated in ComEd's Smart Inverter rebate program which incentivizes non-residential customers to make renewable energy investments. (attachment – 41 Smart Inverter....) To date, Sewer Equipment's solar charging system has saved CO2 emissions of 895,396 lbs. (attachment 41 Solar Edge summary.) Battery powered forklifts and material handling devices utilize solar charging Adoption of low VOC paints has decreased overall VOC generation despite a 10-fold increase in production in the last 10 years. Installation of a water recirculation system for jetter testing, saving hundreds of thousands of gallons per year. Recycling Program Utilization of reusable, steel transport skids for our locally sourced large components eliminates the need for one-use wood and plastic skids. Recycling of wood and cardboard shipping components Plant-wide paper and plastic recycling program Products The Genesis recycler combo truck can clean sewers all day without using a drop of fresh water. It processes the debris and water that is vacuumed during the operating process, using the reclaimed water for jetting. Our 900-ECO truck, 800HPR-ECO truck and 747-ECO trailer operating system allows the engine to operate at 30-50% lower speed while in the work mode, offering reductions in fuel use, emissions, and ambient noise. Our rodders are the only commonly accepted waterless sewer cleaning tools, making them popular in arid regions where water conservation is of importance. Thousands of gallons of water are saved daily versus traditional sewer jet-vac technology. Although traditionally gas powered, we have now developed a battery powered rodder. Biodegradable hydraulic fluid is offered as an option in all our systems. We have manufactured several CNG powered jet trucks for the Southern California Market
42	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Sewer Equipment has not received any third-party ECO ratings specifically. However, a patent has been granted by the US Patent office for our HydroDrive system described above, as used on our 900-ECO. This system does provide fuel saving vs traditional drive systems. (Attachment 42 HydroDrive...)
43	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	We continue to receive the EDGE credit from the State of Illinois. This credit is based on the number of jobs created and retained. (Attachment 43 Edge Credit.....)
44	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	One of the most unique attributes of our offering is our unprecedented breadth of product. No other manufacturer in our marketplace offers everything from small jetters used in the plumbing segment to full size combo trucks, and everything in between. This means that our distributors can be consultants starting with assessing a customer's needs and then supplying the proper product. This also makes us one of the only suppliers of smaller products in the sewer industry that has a strong nationwide sales and service network.

Table 9A: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
45	Do your warranties cover all products, parts, and labor?	Sewer Equipment's standard warranty policy covers all items manufactured by Sewer Equipment except for wear items. Many major components are covered by their respective manufacturers warranty policy. (Attachment 45 Warranty Policy.....)	*
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Sewer Equipment's standard warranty policy covers 12 months or use or 2000 hours. The 2000 hours limit covers typical usage by all Municipalities.	*
47	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Sewer Equipment provides up to 3 hours of travel time for warranty reimbursement. Our Dealers pick up travel time in addition to the 3 hours as needed. Our Municipal customers do not have to pay for travel time regardless of where they are located.	*
48	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	Sewer Equipment has dealers that cover 46 of States in the U.S. In Canada we have dealers currently covering 4 Provinces. Our dealers cover service in these areas. For customer in other states or provinces in Canada we have two options for service. First Sewer Equipment employs direct field service personnel that we can send directly to the customers locations. We also work with third party service centers across North America that will do warranty work on Sewer Equipment products. Regardless of the customers location, we have service handled.	*
49	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Sewer Equipment assist in processing warranty claims for all purchased items covered by their respective manufacturer's warranties. For most items we handle these claims directly with the manufacturer for a seamless claim by the end user. This would be similar to claims on Sewer manufactured items. The only exception is auxiliary engines. Engine warranty claims and repairs are handled by the respective manufacturers service centers around the country. Sewer Equipment does assist with communication between the end user and the service center.	*
50	What are your proposed exchange and return programs and policies?	If the customer decides to return a purchased item such as a spare part, Sewer Equipment charges a 25% re-stocking fee. The customer will also be responsible for shipping charges. This policy does not apply to new custom-built equipment sold through our dealer network. Any potential return for new equipment would be negotiated with the selling dealer.	*
51	Describe any service contract options for the items included in your proposal.	Sewer Equipment's dealer network offers service packages for customers. These packages are priced by our dealers. For regions not supported by our dealer network, Sewer Equipment offers quarterly maintenance packages with work performed by our own Field Service Personnel. Pricing is on a case-by-case basis based on expectations of the customer.	*

Table 9B: Performance Standards or Guarantees

Describe in detail your performance standards or guarantees, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your performance materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
52	Describe any performance standards or guarantees that apply to your services	Sewer Equipment does not have any performance guarantees that apply to service. We do offer a 27/7 phone support for all service-related issues. For urgent parts needs, we typically ship 90% of orders within 24 hours.	*
53	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	We do not have service performance standards currently but are looking to implement a program in 2022.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
54	Describe your payment terms and accepted payment methods?	Sewer Equipment's payment terms for all municipal and educational Customers is Net 30. Our dealers would also utilize Net 30-day terms to their customers.	*
55	Describe any leasing or financing options available for use by educational or governmental entities.	Sewer Equipment utilizes and recommends NCL Government Capital for leasing options to our Municipal Customers. This has proved very useful for long term leasing arrangements. For short term rental needs, we offer rentals through our subsidiary Rock Rentals. Many of our dealers also partner with us in offering short term equipment rentals.	*
56	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Sewer Equipment and our dealers utilize our standard Sourcewell Price sheets for quoting to our customers. When a customer submits a purchase order to one of our dealers, the dealer submits a copy of the customer purchase order along with the worksheet used for quotation to us. We utilize this information to establish the Sourcewell Contract fee. All other related transaction documents are handled between our dealers and customers. See copies of our worksheets uploaded in the pricing section.	*
57	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Sewer Equipment does not accept P-Card for payments currently.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
58	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Sewer Equipment utilizes a straightforward discount off list pricing model for all our new equipment sales. This also applies to all spare parts and accessories. Pricing for all our new equipment models has been uploaded and is included with this submittal. We do not utilize SKUs for our equipment. All worksheets are identified by their model name. Pricing for all parts and accessories is not included with this submittal as the number of items is quite large. MSRP pricing for most items can be found at www.sewershop.com .	*
59	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	The Sourcewell Contract discount for all new equipment is 3% off MSRP. The discount for parts and accessories is 5% off MSRP. The discount for rentals is 3% off published rates. The buyout price for rentals if applicable is priced at 3% off MSRP. These discounts are minimums, and our dealers may provide additional discounts.	*
60	Describe any quantity or volume discounts or rebate programs that you offer.	Sewer Equipment does not have a standard volume discount pricing structure. However, us and our dealers will offer volume discounts as necessary on a case by case basis. When offered, these discounts are noted on the quote to be above and beyond the standard Sourcewell discount.	*
61	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Sewer Equipment and/or our dealers will provide non-standard items to be mounted on our equipment at request of our customers. These items are quoted on a case-by-case basis and are considered part of our product. These non-standard items are subject to the Sourcewell discount. Sewer Equipment and/or our dealers will also supply chassis for our truck mounted models. These chassis are currently being quoted at cost on a case by case basis due to pricing influx in the market. We consider these items to be "pass-thru" items and are not subject to Sourcewell discounts or fee reporting.	*
62	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Items that can be included on a quotation to a customer but are not on our pricing worksheet or discussed in the above sections include the following. Dealer supplied freight, training, and pre-delivery inspections. These items are not subject to Sourcewell Discount or fee reporting.	*
63	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Sewer Equipment charges freight from our Dixon, IL location to our Dealers location. We charge freight on a per mile bases. Our dealers may impose an additional charge for freight from their location to the customers location depending on location. That is a separate charge as listed in question 62.	*
64	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	For freight charges to customers located outside of the continental United States or Canada, we will with our freight broker to establish the lowest price options for our customers. Our customers are also welcomed to take on the freight responsibility themselves.	*
65	Describe any unique distribution and/or delivery methods or options offered in your proposal.	We do not currently offer any unique freight programs other than what is listed above.	*

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
67	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Our Sourcewell pricing worksheets are accessible for download on our dealer website. This assures that our dealer sales staff have access to the correct price pages. These contract specific price sheets have the 3% minimum discount already listed to prevent error. Sewer Equipment audits every incoming order to determine if our Dealers have sold it via the Sourcewell Contract. If it was determined it was a Sourcewell sale, we verify all contract pricing via our worksheet and the customer purchase order. Every customer purchase order utilizing the Sourcewell contract must list their Sourcewell membership number and Sewer Equipment's contract number. Upon confirming the order is purchased via the contract, we document every order on an Excel spreadsheet. This spreadsheet tracks contract sell price, contract fee, and so on. Our Accounting Department audits this spreadsheet on every order that is completed before shipping. We also identify the use of the contract on our order tracking database for an easy to access record of all Sourcewell orders. For fee reporting and remittance we have a dedicated person in our Accounting Department that audits the Sourcewell Orders spreadsheet and reports sales on a quarterly basis. Fees are paid based on this quarterly reporting.
68	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	We continually monitor contract usage against overall sales volumes through our Dealerships. We track and award the highest grossing dealer salesperson that utilizes the Sourcewell Contract on a yearly basis during our dealer awards ceremony. It should be noted that the Sourcewell Contract is the only contract where we offer this award. We also compare the Sourcewell contract against competing national contracts and dealer held state contracts. These comparisons help us to put emphasis on training dealer sales staff.
69	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Sewer Equipment will pay an administrative fee to Sourcewell based on 1% of the Sourcewell sell price to the customer. This 1% fee is paid on our equipment, spare parts, and accessories. We do not pay the administrative fee on chassis which are considered a pass thru with our units. We will also pay the 1% administrative fee on all rental billings limited to 18 months and to buyouts of rentals based on the negotiated buyout price. The fees are calculated and paid on a quarterly basis.

78	Describe any product or equipment features that improve operator safety.	Our 900-ECO with patented HydroDrive system operates with the transmission in neutral and no transfer case required which has the potential to pop into gear and drive away. All of our ECO Series equipment operators at a reduced RPM for lowered noise for the operator. Our standard wireless remote has an e-stop safety check built in.	*
79	Describe any product or equipment innovations that increase uptime and operator productivity.	Our 900-ECO with patented HydroDrive system operates with the transmission in neutral and no transfer case required. The operator simply puts the truck in neutral, sets the parking brake, gets out of the truck, and turns on one switch to activate the unit. Then they can vacuum and/or jet within seconds. We do not utilize any completed computers or touch screens that prevent the operator from using while wearing gloves. Our dig-deep boom available on the 900-ECO and our HX12 series allows for increase vacuum depth without the need for as many vacuum tube additions.
