Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable

time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcwell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcwell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcwell Price and Product Change Request Form to the assigned Sourcwell Supplier Development Administrator. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity

payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcwell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should

note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. 10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>Now in our 55th year, Daktronics has grown from a small South Dakota electronics startup company to a world leader in informing and entertaining audiences through dynamic audio & visual communications systems. Daktronics was founded in 1968 by Drs. Aelred Kurtenbach and Duane Sander, professors of electrical engineering at South Dakota State University in Brookings, SD. Their mission was to start a company that could provide good paying jobs to graduating SDSU students and provide opportunities to stay in the Brookings area. The company began with the design and manufacture of electronic voting systems for state legislatures. In 1971, with the help of their friend who was the long time SDSU wrestling coach, Kurtenbach and Sanders developed the patented Matside® wrestling scoreboard, which was the first product in the company's growing and evolving line of 'catalog' scoreboards. Daktronics secured a contract for the 1980 Winter Olympic games in Lake Placid, NY that included scoring and timing displays at over a dozen venues including the Olympic Ice Center, now Herb Brooks Arena and site of the USA/USSR "Miracle on Ice" hockey game. As the need for electronic displays grew, Daktronics seized the opportunity with the first transportation roadway display for the Connecticut DOT in 1988. Daktronics' sports business grew rapidly in the 1990s with the installation of LED Video displays in many major college venues, the NLF, MLB, NBA and NHL. Daktronics enjoys a large market share with these leagues still today including 18 of the last 19 Super Bowls being played at stadiums with Daktronics technology. In 2001, the first digital billboard was sold to Lamar Advertising and in 2004, the iconic Coca Cola display was installed at Two Times Square in New York City. Throughout this time, Daktronics sports, transportation and commercial business grew in North America and expanded internationally. This work continues today with a local sales presence in all 50 states and Canada with long standing relationships in public and private education markets of K-12, 2-year and 4-year College and Universities. Our products and services also span the needs of City, County, State and Federal government agencies including Departments of Transportation, Mass Transit, Aviation and the Military. Since our beginnings in 1968, Daktronics has grown from a small company operating out of a garage to a world leader in the display industry. The company employs more than 2,700 people working under more than 1 million square feet of its manufacturing and office facilities. In 1994, Daktronics, Inc. became a publicly traded company, offering shares under the symbol DAKT on the NASDAQ National Market system. The common threads through our growth and consistency these 55 years years is our core values; Helpful, Humble, Honest. Our mantra is Customers for Life and this guides us in our work each day. Daktronics has enjoyed our relationship with Sourcewell during these first few years of our partnership. We are excited about the growth that we have experienced with this contract. We are confident that it is just the beginning as we build on what we have started in education and sports and expand rapidly into the ever-growing opportunities in Transportation, Government, Military and other areas.</p>
11	What are your company's expectations in the event of an award?	<p>Winning this award is something that we would be very proud of. We would be excited to continue to share with current Sourcewell members and potential members the ability to utilize the contract to easily purchase the goods that they desire.</p> <p>In addition to our core products and core customer base, we will continue to add to our product offerings and expand our reach in areas that can utilize this award. Traditionally, scoring and sports LED displays have been the primary products sold through the Sourcewell contract. Winning this award will allow us to continue to grow the knowledge of the Sourcewell contract with our customers in other markets like airports, train stations, roadways, and military control rooms. These are all spaces that are growing for Daktronics and the value of this award will help Sourcewell members be successful in purchasing high quality LED products.</p> <p>Daktronics has experience great success in our partnership with Sourcewell, but it is also recognized that our ability to grow with this award is much larger than where we are today. If we do receive this award, our expectations are to grow our business through Sourcewell by promoting the award in all of our new and existing public sector markets, with all of our new and existing products.</p>

Once the Sourcewell member is ready to order, Daktronics will create order documents that include the finalized equipment list being ordered, signature page, and order information form to confirm bill to, ship to, installation addresses and contacts.</p> <p>Sourcewell members can sign the order documents form or provide a purchase order and send to their Daktronics sales team. Daktronics will enter their order is our ERP system by a project coordinator, who will then provide an order acknowledgement document to notify the Sourcewell member that their order has been entered and pertinent details about their order.</p> <p>All Sourcewell member orders placed through an authorized Daktronics dealer or reseller will follow the same process, Daktronics will confirm equipment with the dealer or reseller and create order documents that list the Sourcewell contract number. The dealer or reseller will place the order with Daktronics with Daktronics continuing to be responsible for paying the administrative fee and quarterly reporting. Daktronics strong partnerships with our dealers and resellers helps us have a larger footprint in our industry. The ability for our dealers and resellers to utilize the Sourcewell contract helps them secure more orders and offer a benefit others may not be able to offer.</p>

30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	<p>Daktronics' Service coordination and technical support teams are using the latest technology to address Sourcewell members requests and inquiries. We provide Sourcewell members access to MySupport our customer facing portal, providing individuals ability to create a new service case, add information to an open case, case history, receive real time notifications and status updates, attach photos, purchase orders and other reference files to name a few of the current features.</p> <p>Additionally, Daktronics uses phone routing logic that can identify member callers based on phone #, selection of technical and non-technical request type and will route to the first available agent that is trained on that product or request type inquiry to the appropriate expertise to provide first contact resolution.</p> <p>Daktronics, and specifically our Customer Services team, is dedicated to Continuous Improvement and has a team of individuals within the services organization who are focused on managing improvement projects. In addition, we strive to deliver an effortless experience for both customer and employees. All while looking for opportunities to automate through processes, systems and data.</p> <p>Daktronics utilizes measured weekly metrics to support various channel response times with set targets across each channel type. Service materials levels and repair line cycles are measured weekly and historically over time. Daktronics invests in a 3rd party phone survey to obtain feedback on satisfaction and effort. Sourcewell members are asked questions that are rated on a scale of 1-5 and provide verbatim comments on performance, experience and resolution. This valuable feedback has identified multiple trends and areas of opportunity that have been investigated and solutions implemented across teams.</p>	*

Many members of our sales team are active on social media and actively share this type of news to gain added reach with members in their territories.</p> <p>Daktronics marketing will add a landing page to Daktronics.com, featuring the Sourcewell contract partnership, explaining the benefits of buying through Sourcewell, as well as a link to the Daktronics vendor page on Sourcewell.com.</p> <p>Sourcewell promotion through our Daktronics marketing assets will include:</p> <ul style="list-style-type: none"> • Placing Sourcewell logo on all regional sales flyers • Purchasing options in Daktronics print/digital catalogs • Mention of Sourcewell contract on Daktronics.com. <p>Early in 2023, Daktronics deployed an e-commerce site, enabling customers to log-in and buy selected scoring products. Customers can choose to receive pricing and complete their purchase using the Sourcewell contract. We intend to grow our e-commerce site to include more standard scoring products, to simplify the buying process. Allowing Sourcewell Members the ability to use this contract through e-commerce is of high priority for Daktronics.</p> <p>Daktronics attends 100+ conventions for K-12 Education and Parks and Recreation markets each year. These events are targeted to athletic directors, coaches, administration, school boards and city employees.</p> <p>In addition to our education market, Daktronics attends 50+ similar events for the collegiate and transportation businesses. Our sales leaders use these recordings to quickly build knowledge with new hires.</p> <p>See Sourcewell Flyer attachment in the Marketing Plan document section for a sample of the marketing flyer.</p>
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>We have a large digital footprint with top search engine performance for target key words. Our site reaches over 1 million viewers every year with an average growth rate of 20%. Campaigns are optimized to target a mix of organic, social, and paid advertising audiences. Decades of industry leadership has allowed us to establish a vast directory of contacts which we segment into target audiences for direct advertising campaigns. We adhere to all major privacy regulations to keep our contact data safe and secure.</p>

38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>Daktronics would anticipate a working relationship with Sourcewell to promote the contract in ways that are attractive to the market and highlight the strength of the contract.</p> <p>For example, many states have mandated shot clocks in the past year and schools need an easy, cost-effective way to purchase shot clocks that will work with their current scoreboards. In early 2023, Daktronics released our first E-commerce platform for high schools to purchase shot clocks. Daktronics e-commerce site allows Sourcewell members to quickly notify Daktronics of their membership status and make e-purchases on the contract. Daktronics expects more states to mandate shot clocks and this purchasing channel will grow.</p> <p>Through collaboration, Daktronics would anticipate a marketing campaign through mutual efforts to drive interest and adoption of e-purchases through the contract.</p> <p>In addition to e-purchasing, Daktronics inside sales and field sales staff is well versed in the value of the Sourcewell contract and promotes the use of the contract regularly in its core business.</p> <p>As Daktronics brings new products and solutions to the public sector, we anticipate additional sales staff will need to be trained and equipped with knowledge on the Sourcewell contract. Our sales leadership has employee standard discovery processes to help ensure any new staff is promoting the contract to provide maximum benefit to Sourcewell Members.</p>
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	<p>Daktronics has recently released a limited product offering on an e-procurement system.</p> <p>After the National Federation of High Schools announced their plan to support state adoption of shot clocks in basketball, Daktronics saw an opportunity to simplify the purchase process and reduce the effort on some products for Sourcewell Members. On the site, Sourcewell members can identify their member status and make a product purchase without the need to wait for quote and order documents. This is still in its early stages but proving to be a valuable sales channel that the market is excited to utilize.</p> <p>Today, shot clocks are the only product line on this system. We anticipate in the next few years to have a high volume of e-purchases due to the high number of states adopting shot clocks.</p> <p>Daktronics plans to expand the offering on the system to provide a much simpler way of purchasing more products for Sourcewell Members.</p>

This pertains mostly to our control systems and accompanying proprietary software. This training often takes place after purchase and prior to installation so that customers have a good working knowledge from the start. We offer training in various forms including on-site 1:1 training, webinars, on demand videos, website hosted knowledge base articles and of course product manuals. We also offer annual summits where customers gather in person to learn and collaborate. They often participate in user groups that we have established on social media as well. 41	Describe any technological advances that your proposed products or services offer.	<p>Daktronics manufactures all of our audio, scoring, video and transportation communication products in the United States in Brookings and Sioux Falls SD and Redwood Falls, MN. We invest 4% of revenue annually into R&D to ensure that our products are on the cutting edge of technology, while maintaining a level of quality that our customers have come to expect. This includes a sophisticated, state of the art reliability lab that is located on our Brookings, SD campus. In this lab we utilize the latest advancements in environmental technology to test our products and components to failure. This gives us unique insight into what components to uses, how to design them and how to manufacture them into continuously improved finished products. We use these tests to develop proprietary and beneficial features for Sourcewell members like gel coated digits to resist water and corrosion, remote troubleshooting of our displays to keep service costs down, tablet control of scoreboards and video displays for easy, simple control. Positive pressure ventilation and air circulation systems to reduce heat, humidity, and cold temperatures for outdoor products.</p>
42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>Daktronics understands that sustainability involves commitment that must reach all levels of a company. It is the intention of Daktronics, Inc. to contribute to the protection and improvement of the environment. We are fully committed to comply with all local, state, and federal regulations. Daktronics, Inc. attempts to take a proactive status in establishing and maintaining environmental procedures that protect the environment, our employees' health, our customers, suppliers and surrounding neighbors. Whenever possible, Daktronics, Inc. will seek to reduce our *VOC and *HAP emissions by finding lower or no VOC replacement</p>

products.

We strive to utilize our products most efficiently in order to reduce waste. We search to find the most effective means to reuse or recycle our waste products. When disposal of waste is necessary, Daktronics, Inc. will take steps to ensure that it is done in accordance with all local, state, and federal regulations. Daktronics, Inc. will also seek to conduct business with suppliers and subcontractors that share our concern for the environment. We will not tolerate known violations of environmental laws either by inaction or by actions of our employees, contractors, or suppliers.

Daktronics understands that environmental sustainability must be demonstrated by on-going commitment. While Daktronics utilizes some of the fundamentals found in the ISO 14000, we currently do not maintain ISO 14000 certification within our Manufacturing facilities. Daktronics strives to eliminate waste through automation and Lean manufacturing principles such as Five S (Sort, Straighten, Shine, Standardize and Sustain). Elements of 14000 we have implemented include:

- o Use of LEAN principles including Plan, Do, Check and Act, to identify areas where improvement and continually review is needed our Environmental Program.
- o Maintenance of a Chemical Review Program which restricts the use of chemicals that have environmental concerns.
- o Implementation of a general awareness program for factory employees. This general awareness is a component of new hire training.

To improve energy conservation in our facilities we have taken step to minimize our energy usage. Our production facilities including the factory floor, offices, conference rooms, restrooms are equipped with sensors that will shut off the lights after 15 minutes of inactivity. Daktronics utilizes office equipment that maintain an Energy Star Certifications in our United States facilities.

Daktronics have created RoHS-ready products completely devoid of mercury, cadmium hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenyl ether (PBDE) and other hazardous materials. Several of the products produced by Daktronics are Lead free including the 1.9 and 2.5 mm Narrow Pixel Pitch (NPP) used in Indoor Applications.

Daktronics will aggressively recycle all eligible office and industrial materials. Materials which are recycled as part of our manufacturing processes include:

- o Aluminum
- o Steel
- o Cardboard
- o Plastic
- o Glass
- o Paint product cans
- o Wood
- o Paper
- o Printed Circuit Boards
- o Industrial solvents, such as those used in the manufacturing process.

Daktronics has established a corporate training which covers environmental responsibility for the handling of hazardous materials during spill response procedures. Currently, all employees responsible for the response and clean-up of chemical spills receive annual training. Additionally, Daktronics is working on the development of an Environmental education training program for all of our factory employees. This training will cover the handling and proper disposal procedures (note, this training is currently in place in a Redwood Falls facility).

Additional initiatives Daktronics uses to reduce environmental impact include:

- o A minimum of 10% post-consumer waste content in all resource and marketing materials.
- o Corrugated materials used as part of the shipping process will utilize materials containing 40to 80 % post-consumer fiber.
- o Compliance with Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.
- o All outer packing materials used for the shipping of these products are free of PVC and are recyclable.
- o Daktronics does not utilize materials which have been bleached during the manufacturing and or shipping process.
- o Daktronics understands that sustainability involves commitment that must reach all levels of a company. Daktronics will work through licensed recycling organizations to recycle older customer systems both Daktronics and non-Daktronics display.

Daktronics has implemented several practices to reduce waste and help Daktronics reach short- and long-term environmental goals.

See Green Initiatives Documents in the Additional Documents attachment.

43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Although Daktronics does not have any eco-labels or certifications, we do utilize high quality LEDs to build our products. The choices we make allow our products to operate as efficiently as possible and minimize the power draw. These strategic choices not only reduce the needed energy for our displays, but it also extends the life of the product and reduces waste.	*
44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	Since Daktronics is a manufacturing company, on-site labor is primarily composed of subcontracting workforces hired to complete the installation of our products. Local, minority, and female labor participation would come from these subcontractor workforces. Daktronics works with its subcontractors to maximize participation on each project with labor participation goals.	*
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	<p>Manufacturer - Daktronics has three manufacturing facilities in the United States that builds products from the component level. For Sourcewell Members, this is a large differentiator when valuing long term reliability and serviceability of products. Most LED display providers in the US purchase finished displays or finished panels from China and ships them to or assemble them in the US. This jeopardizes the companies' ability to service the product after 5 years and brings reliability into question. Daktronics controls all sourcing of components and requires long term contracts that ensure our products have available parts for the life of the display.</p> <p>Industry Specific - Daktronics is uniquely marketized to match Sourcewell Members in the industries they serve. Education, Government, Transportation, Military, Industry, Advertising, Hospitality and Entertainment. We not only have sales and marketing teams that work in these specific markets, but we have full engineering and support teams that focus on the needs of each industry. Because of this, we offer the widest range of solutions to Sourcewell Members.</p> <p>Education Market - Daktronics is one of few vendors that designs, manufactures, sells, and supports all of our scoring, video, messaging and audio products. This provides Sourcewell Members with one source of integration, procurement, and support. Daktronics is committed to helping Sourcewell Member schools achieve their goals beyond scoring an event. Daktronics Professional Service teams is organized to help member schools achieve their goals in three categories: Increase Entertainment, Generate Revenue and Student Development.</p> <p>Increase Entertainment - Daktronics content creation team provides members with options to purchase professional level video display content at their events. Our Event Production team provides 1 on 1 coaching for teachers and students to make their game-day production better. Daktronics experience in high level sports provides the unique ability to help schools elevate the level of entertainment they utilize to connect with their community.</p> <p>Generate Revenue - Daktronics employees a team of 10 staff members committed to helping schools utilize their LED video display to generate revenue. Often times, more revenue is generated than the cost of a display and schools are able to fund additional projects through other Sourcewell contracts. On average, Daktronics Sports Marketing is able to help generate more than \$50,000 a year per school.</p> <p>Student Development - Daktronics enjoys a large market share at the college and professional level of sports. Daktronics control systems are the preferred control system of these venues. High Schools that select Daktronics have the unique ability to teach their students on the same control system that colleges/universities and professionals use. For that reason, we have developed a program called DakClassroom. DakClassroom is built with three components: Daktronics Event Production Curriculum, Hands-on Multi-seat Education software and a career counseling program to help kids connect with college level positions in the industry.</p> <p>Design Build Services - Daktronics often helps our customers execute projects that require turn-key design-build services from the initial schematic design (SD) to design development (DD) to construction documentation (CD) phases to executing the fabrication/installation.</p> <p>Transportation Market - Since entering the Intelligent Transportation System (ITS) market over 30 years ago, Daktronics continues to deliver innovative technology with dynamic displays and message signs. We deliver American made products to help agencies connect with travelers in the Airport, ITS and Public Transportation Markets. These related markets are also diverse with different applications. The unique attribute for Daktronics is the breadth of product offerings to cover all of these markets for agencies.</p>	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Our pricing model is the product-category discounts method for product/services. Installation pricing is either flat rate or we utilize the standard RS Means method. We have included our pricelist which delineates our list price, our discounted to Sourcewell members and the Sourcewell member discounted price. See the Pricelist in the documents tab.
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Daktronics is offering 10% minimum discount and this is reflected in the pricelist we have included in our response.
59	Describe any quantity or volume discounts or rebate programs that you offer.	Periodically, for a short period of time, we may offer incentive programs for certain product lines. However, the majority of our projects are made to order, individually unique to each customer. We typically do not sell at high volumes; therefore, our pricing is extended to individual members regardless of volume.
60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	When a Sourcewell member is requesting a product or group of products that do not fall into a "standard" offering, Daktronics will utilize a custom quote for each such request, to provide a price based on cost plus a percentage equivalent to no less than what the price would be if it were a standard product in this contract.

61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Daktronics takes great care to assure that projects are accurately priced and provide the best value to their customers. Through our quotes we remain transparent and clear what associated costs are to the project. Pricing is based on the customer's required project conditions and requirements. Our quotes delineate project specific items such as installation responsibilities, training, and estimated taxes when applicable.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Daktronics has shipping departments at each of our manufacturing facilities who work daily with our shipping companies. Our volume of shipments helps us secure competitive pricing on freight and shipping costs. We pass these savings on to our customers. It also provides us access to various modes of shipping with various companies that are best suited for the project and location. Freight is quoted based on the project (product dimensions and weight), customer preferences, location, and project conditions. In addition to freight or shipping cost, if there is additional delivery service or labor on-site needed along with associated travel expenses for these services, it will be delineated on the quote.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Being a global company, Daktronics is familiar with travel, freight, shipping and delivery methods and terms for geographies such as Alaska, Hawaii, Canada, and other offshore locations. We work with the customer to learn expectations for delivery schedule, method, and solution. Our quotes list the amount based on the outlined project conditions. We strive to meet customer's expectations, offer 3rd Party Bill freight method, and can coordinate with the customer to have their carrier pick up the freight at our loading docks.	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Daktronics' longevity in the markets we serve provides us metrics and information to help us effectively forecast product demand and necessary inventory levels. We have developed stocking programs of our more popular products and review these programs regularly to provide short lead times of specific identified products. Especially relevant in the school market, we strive to have seasonal products, such as sport specific scoreboards, available to accommodate quick delivery requests during these peak times. With the broader adoption of shot clocks at the high school level we have shot clocks stocked for a more rapid delivery for these states that are adopting this program. We also have an e-commerce option to purchase shot clocks and are expanding the options available via this method. We offer a rapid delivery program that offers a two-week lead time for certain digital display products.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	<p>Daktronics has a dedicated Contract Coordinator specifically for Sourcewell to manage all aspects of our cooperative contract. The Contract Coordinator has been a part of Sourcewell since we began this contract in 2019 and manages everything from ensuring we abide by contract requirements, pricelist management, reporting, and paying administrative fees.</p> <p>Along with the Contract Coordinator, we have a dedicated team of quote specialists to complete all quoting and ordering of the products. There are procedures in place to ensure we are following contract requirements.</p> <p>Throughout the process of quoting, ordering, reporting and payment, we have multiple checkpoints. All Sourcewell orders are tracked through our quote to order process. We have carefully defined the processes and can support contractual agreements. Our ERP, CRM, Quoting and Reporting IT tools/systems provide us with accurate reporting and accurate pricing for customers.</p>
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	<p>Our IT systems include Power Business Intelligence (PBI) which allows us to track most every part of our business in real time. We have a specially developed platform to track our Sourcewell Contract results which is booked orders by geographic region and business unit. We also invest in Salesforce CRM. Every salesperson and sales manager has an individual license. Salesforce is the tool that we use to track Sourcewell Contract pipeline on an individual and category basis. All Regional Sales Leaders are responsible for annual growth plans for their region and their teams. This includes growth of the Sourcewell Contract on a regional and individual basis. We have used these methods for the lifetime of our current contract, and they work quite well. We plan on continuing these methods should be fortunate enough to be rewarded a new contract.</p>
