Rewrite Estimates

Estimated Amounts and Contract Terminations. Any amounts stated as due under existing or terminated contracts — including contract transfer balances carried forward to new or pending contracts — are estimates based on payments received as of the calculation date. These estimates may be adjusted if new contracts are not executed on the anticipated dates or if expected payments are not made.

Refresh Shipment Timing

Technology Assurance Plan (TAP) Refresh Prior to Renewal. For Customers with expiring agreements that include TAP refresh rights, Axon may, in its discretion, ship refresh hardware under the existing contract while renewal or replacement agreements are in progress. Any such shipments will be deemed made under the terms of the existing contract until the new contract is fully executed, after which any applicable updates, fees, or adjustments will apply.

Shipment Timing

Shipment Variance. Estimated shipment dates are provided for planning purposes only and are not guarantees. Axon may ship hardware before or after the estimated shipment date, and failure to meet an estimated shipment date will not, by itself, constitute a breach, provided Axon uses commercially reasonable efforts to meet estimated shipment dates.

IN RED is what the department would expect to pay if they did two different Five year TASER contracts as opposed to a 10 year TASER contract. This forecast assumes a 6% price increase. (Historically price increases have been anywhere from 5-8% year over year.) By going with the 10 year option the department will **save** roughly **\$47,284**

Locks in 2026 pricing — avoiding cost increases and inflation over the next decade.

No new procurement for 5 years — eliminates the hassle of rebidding, budgeting, and re-approval.

Easy for budgeting — a true “set it and forget it” program with predictable annual costs.

Guaranteed continuity — consistent equipment and training for the entire decade.

Lowest total cost per year — when averaged out, the 10-year plan actually costs *less per year* than the 5-year option.

Saves \$47,284 by going with the 10 year option
