

KRONENWETTER POLICE DEPARTMENT

Office of the Chief of Police

Executive Summary for September 2026 Village Board

TO: VILLAGE BOARD MEMBERS

DEPARTMENT ACTIVITY SUMMARY – In August, we handled 777 total calls for service. Some highlights included the following:

- Three domestic violence calls resulting in arrests or referrals for the following:
 - A referral for charges against both parties involved. Each was referred for battery and disorderly conduct charges.
 - A referral for criminal damage to property and disorderly conduct.
 - An arrest for DC and battery.
- Two subjects arrested for OWI:
 - A traffic stop resulted in third offense OWI, possession of THC, speeding, and a driver's license restriction violation.
 - A traffic stop resulted in OWI third offense and a probation and parole hold.
- Two fraud/ID theft cases. In one case, the victim reported an unauthorized transaction from his business account of over 10k. The other one is a sensitive case that remains under investigation.
- A couple of agency assists, one for the Sheriff's Office and another for Mosinee PD. Our officer assisted a Deputy who was attempting to stop a stolen car on I-39 S/B at Maple Ridge Rd. The offender crashed near the off ramp and his car slowed to a stop a short distance later. The Deputy and our KPD officer took two subjects into custody. We also assisted Mosinee PD with a physically resistive subject who was ultimately taken into custody.
- A pair of theft cases, one of which we were able to recover most of the victim's property. The victim ultimately decided he did not want to pursue a complaint, but the offender was still arrested on an outstanding warrant.
- An open investigation into a sexual assault of a child. These are time intensive investigations where we generally use the services of the Child Advocacy Center so a specially trained child forensic interviewer can speak to the victim.
- Two drug cases, one for a simple THC citation and the other for a custodial arrest of a subject for a felony warrant, possession of meth, possession of schedule 1 and 2 narcotics, possession of drug paraphernalia, and felony bail jumping.

DEPARTMENT PERSONNEL ISSUES & STATUS – From a training perspective, we have a lot going on this month. Officers recently completed the annual handgun qualification course, which is mandated by the DOJ Training and Standards Bureau. We have another block of firearms training this month as well. Officer Guyer is attending the CIB (Crime Information Bureau) conference from 9/9 -- 9/11. She has become our new TIME Agency Coordinator, a role every agency needs to have filled. She serves as our liaison with the WI DOJ Crime Information Bureau and keeps track of officers' training in the TIME system.

The easiest way to think of the TIME system is that it's law enforcement's communication system across the state. Examples of the TIME system include DMV records, wanted persons, criminal histories, etc. Officers must recertify in the TIME system periodically and the TAC officer ensures those are done in a timely manner. We also have Officer Yeeleng Xiong and Officer Wadzinski attending a free DOJ virtual class on Sexual Assault Investigation Best Practices. We've taken advantage of this free training before and it's an excellent class for our officers to attend. In November, we have at least one more officer attending this course.

Lastly, we are making plans for the second annual Northland Lutheran High School homecoming parade, which takes place on September 25. We placed an early staffing hold on that date when the 2026 patrol calendar was released, so we will have plenty of help.

KRONENWETTER POLICE DEPARTMENT

Office of the Chief of Police

Executive Summary for September 2026 Village Board

CURRENT GRANTS AND EQUIPMENT STATUS – We recently purchased a used patrol rifle from the Mountain Bay Metro PD for \$800. We are short one rifle and this one came with all the accessories we normally purchase, so we saved at least \$400 versus buying a new one. I had planned to put a new rifle request into the 2027 budget, but I won't need to do that now. These were well taken care of former SWAT rifles, so the timing was good.
