AUTHORIZATION FOR ADDITIONAL SERVICES

This document is a supplement to the original Agreement between Becher-Hoppe Associates, Inc. and the Client listed below.

Client Name: Village of Kronenwetter

Client Address: 1582 Kronenwetter Drive, Kronenwetter, WI 54455

Project Name: Well #2 Water Treatment Facility

Project Number: 2021.022

Original Agreement Date: May 4, 2021

Description of Additional Services/Deductions:

In preparing the contract for Resident Project Representative and Field Grade staking services, we used the standard of professional practice ordinarily exercised under similar circumstances at the same time and in the locality where the Services are performed. Professional Services are not subject to, and we do not provide any warranty or guarantee, expressed or implied. We do not direct or supervise the means, methods, techniques, sequences, or procedures of construction selected or used by Owner's contractors. Every contractor or subcontractor has different assets in men and equipment to complete a construction task. Consequently, the amount of time to complete the task will differ for each contractor and subcontractor. Additionally, availability of materials at the time needed will impact the completion time for contractors and subcontractors. At times, weather may impact the rate of completion of a task. We prepared our estimate of Resident Project Representative and Field Grade staking services based on construction of similar projects which featured some of the same work activities as this project. Our opinion of the probable cost was \$20,000 to \$22,000. If we continue to provide Resident Project Representative and Field Grade staking services, we believe an amendment for \$8,000, totaling \$30,000 in Resident Project Representative and Field Grade staking services fees is warranted. These fees are subject to the contractor's latest schedule provided.
