INTRODUCTION: Rezone Request from AR (Agricultural and Residential) to RR5 (Rural Residential 5). The proposed rezone is consistent with the comprehensive plan and is consistent with the current use of other properties in the area. The rezone does comply with the intent of this chapter. The current 27.37-acre parcel will be divided into two (2) lots. The proposed rezone from AR to RR5 is consistent with neighboring parcels in the area. The creation of two (2) lots meets the minimum frontage (100ft) and area (5.0 acres) requirements for RR5 (Rural Residential Zoning 5).

RECOMMENDED MOTION:

The Planning Commission has two options:

1. Denial of the proposed Zoning Change Request and CSM.
2. Approve the rezone and CSM with conditions.

§ 520-118. - Amendments to official zoning map (rezonings).

F. Public hearing and recommendation. The plan commission shall hold a public hearing on all proposed amendments to the official zoning map. Following the public hearing, and after consideration of comments provided therein, the plan commission shall review the proposed amendment to the official zoning map and shall within 45 days of the public hearing make a recommendation to the village board that the application be granted as requested, modified, or denied. If the commission fails to make a recommendation within this time frame, the proposed amendment shall be forwarded to the village board without recommendation. Such deadline may be extended by written or electronic agreement from the applicant.

FINDINGS OF FACT AND RECOMMENDATION OF THE VILLAGE PLAN COMMISSION:

Within forty-five (45) days after the close of the hearing on a proposed amendment, the Village Plan Commission shall make written findings of fact and shall submit the same together with its recommendations to the Village Board. Where the purpose and effect of the proposed amendment are to change the zoning classification of a particular property, the Village Plan Commission shall make findings based upon the evidence presented to it in each specific case with respect to the following matters:

1. *Is the proposed rezoning consistent with the Comprehensive Plan, as is required by Wisconsin Statutes?*
 - Yes. While the property(s) are designated on the Future Land Use Map as Future Residential there are existing AR (Agricultural Residential), RR5 (Rural Residential 5), and SF (Single Family Residential) parcels in this area. The rezone of these parcels to RR5 will allow for consistent land uses with adjoining parcels and eliminate an AR zoned parcel in this area. This is consistent with the Comprehensive Plan Goal to strive to avoid allowing conflicting land uses to be located adjacent to one another.
 - 2009 Wisconsin Act 372 clarifies that new or amended zoning, land division and official mapping ordinances must be consistent with an adopted comprehensive plan. Consistent means “furthers or does not contradict the objectives, goals and policies contained in the comprehensive plan.” This same Act clarifies that the Comprehensive Plan in itself is not a regulation, it is “a guide to the physical, social, and economic development of a local governmental unit” and that “[t]he

enactment of a comprehensive plan by ordinance does not make the comprehensive plan by itself a regulation.” The Future Land Use Map is just one indicator of consistency, which discredits the other 200 pages of the Comp Plan and the Goals and Objectives.

- Page 121 of the 2019 Comprehensive Plan states the following:

Future Land Use Plan

The Future Land Use Plan Map represents the long-term land use **recommendations** for all lands in the Village. Although the map is advisory and does not have the authority of zoning, it is intended to reflect community desires and **serve as a guide** for local officials to coordinate and manage future development of the Village

- Page 126-127 of the 2019 Comprehensive Plan also states:

Goals, Objectives, & Policies

As in previous chapters of this plan, a goal and a series of objectives are identified.

Goal: The Village will make sound land use decisions which strive to coordinate future growth and land uses with infrastructure capabilities and availability.

- a. Strategically locate new developments in areas to create mutually beneficial relationships among businesses
 - b. Encourage growth to occur within the Sewer Service Planning Area
 - c. Utilize the Future Land Use Map in directing potential commercial and industrial opportunities to appropriate locations
 - d. Work with landowners to protect productive agricultural and forest lands to accommodate property owner desires to the extent possible
 - e. Strive to avoid allowing conflicting land uses to be located adjacent to one another**
 - f. Preserve the most advantageous properties for commercial and industrial uses and direct residential use to other property
 - g. Encourage industrial uses in areas with convenient access to arterial roadways
 - h. Discourage large and undeveloped residential lots in areas serviced by the public water and sewer infrastructure
 - i. Recognize the different expectations residents have living in different areas of the Village and develop ordinances and policies reflective of those property owner expectations**
 - j. Encourage development that preserves to the extent possible the quality of life that residents enjoy**
 - k. Strive to maintain a density of no greater than one residential unit per twenty acres of land in the rural areas of the Village**
 - l. Strive to maintain a density of no greater than one residential unit per one-half acre in the more urban areas of the Village
 - m. Seek to be involved with Wisconsin Public Service land use decision making process, particularly those regarding property adjacent to the existing power generation facilities and develop compatible neighboring uses
 - n. Encourage projects that cater to the Village’s aging population
 - o. Avoid excess regulations that drive up cost for housing, land development, and site development
- Wisconsin Court of Appeals, Lakeland Area Property Owners Association, U.A. v. Oneida County, 2020SAP858

When reviewing an ordinance for consistency with a comprehensive plan, the future land use map and narrative portions of the plan **should not be reviewed in isolation**, but instead should be understood in relation to each other and in the context of the remainder of the plan.

2. *Does the rezoning further the purpose and intent of this Chapter?*

- Yes. The portion of the Village where these property(s) are located are classified as Residential on the Village's Future Land Use Map. By rezoning this property from AR to RR5, residential uses will be permitted, similar to those permitted in SF (Single Family Residential) furthering the purpose of this Chapter and the Future Land Use Map. This satisfies the Zoning Ordinance's purpose of preserving and enhancing community appearance and quality of life.

3. *Does rezoning address any of the following that is not properly addressed on the current Official Zoning Map?*

- No Keeps it the same.

4. *Does the proposed zoning district maintain the desired consistency of land uses, land use intensities, and land use impacts as related to the environs of the subject property?*

- Yes. There are AR (Agricultural Residential), RR-5 (Rural Residential 5), RR-2 (Rural Residential 2) and SF (Single Family Residential) zoned parcels located near these parcels. The property owners will continue to utilize the parcel for purposes within these districts.

5. *Does the rezoning meet the minimum requirements for frontage or parcel size?*

- Yes. The proposed parcels will meet all minimum requirements.

6. *For applications to rezone land to a multi-family, commercial, or industrial zoning district, is, or will there be, adequate public infrastructure available to accommodate the range of uses allowed in that zoning district?*

- This land is not being rezoned to a multi-family, commercial, or industrial zoning district.
