Attached are two price quotes for repairs and trade in value for the 2015 Dodge ¾ ton. Also included are purchase pricing for a new 2026 ¾ ton pick-up truck.

The GMC came in \$979.00 cheaper and that also included mud flaps installed which the Dodge does not have that included in their price; we would need to add that in as well for an added cost to the Dodge.

I was unable to get a call back from ford, so I'm guessing they did not have one available to fit our specs on the lot.

We will also have equipment to sell off to help cover funding for this purchase from 2005 Sterling dump truck, blacktop roller, tiger ditch mower and small ford tractor. Truck Country will be coming out later next week to do an appraisal of the dump truck.

I am recommending that we go with the GMC for purchase.

Thanks,

Brad
