BUSINESS TECHNOLOGIES

THE BBT ADVANTAGE

While most companies in our industry offer similar products and services, we do some things differently.

FAIR SERVICE CONTRACTS

Most companies in our industry bill customers monthly or quarterly. If the customer goes over their allotted number of copies, they PAY AN OVERAGE; if they go under their allotted number of copies, they AREN'T REFUNDED.

Our contracts are flexible and protect you from overpaying during the slower times.

LOCKED LEASE PAYMENTS

Some companies in our industry use a "Step Lease". These leases allow for payments to increase over the life of the agreement. The payment might look great at the beginning of the term, but you might end up paying more in the long run.

When we quote a lease payment, we guarantee that payment will be locked for the term of the agreement.

GREEN PRODUCTS

We work with manufacturers that care about the environment. Whether you are just concerned about the future of our planet or need to meet regulatory compliance initiatives, the products we sell and service are among the most sustainable in the industry.

Konica Minolta consistently wins awards for their innovative approach to sustainability. The body of their MFPs as well as their toner bottles are constructed using recycled plastics. *Simitri V* toner uses plant-based waxes and requires less heat (energy) during the printing process.

Kyocera is focused on 3R Design (Reduce, Reuse, Recycle) in all of their products. Their printing devices feature some of the lowest Total Cost of Ownership (TCO) in the industry thanks to their long-lasting consumables and parts.

Our manufacturers also offer complimentary recycling programs for used supplies.

THE BBT ADVANTAGE

While most companies in our industry offer similar products and services, we do some things differently.

COMPLIMENTARY TONER/METER MONITORING

If you've ever run out of toner in the middle of a big job, you know how frustrating it can be! We use industry-leading technology to monitor your devices. We'll send you toner before you even know you need it and you'll never have to send us a meter reading.

KYOCERA 3-TIER COLOR

Why should a full-page color photograph cost the same as a document with a small color logo? Kyocera doesn't think it should.

ONLY PAY FOR THE
COLOR YOU USE.

Introducing Kyocera 3-Tier Color. This technology allows us to bill for the color you use.

Customers utilizing 3-Tier Color can see significant cost-savings.

SPECIAL CONTRACT PRICING

Group purchasing contracts have been around for years, but most companies in our industry refuse to offer this special pricing to their customers. Why? The terms and conditions of these contracts limit how much profit the dealer can make on a sale.

BBT continues to offer this pricing to their qualifying customers.

Governments and non-profits can benefit from the **Association of Educational Purchasing Agencies (AEPA)** contract, which offers deep discounts for qualifying organizations.

This contract is nationally bid and both Kyocera and Konica Minolta won places on the contract. Because this contract was already bid, using this pricing supersedes any local or statutory requirement to seek multiple bids from vendors.

WISCONSIN-OWNED SINCE 1955

While many companies in our industry have sold to out-of-state dealers, BBT remains locally-owned and operated by the same family that started it in 1955. We pay taxes here, we support the communities we serve.
