LSI Quality & Durability
Advantage is
THE BEST in the industry.

In 2005, Ysleta School District purchased 31 Landscape Structures playgrounds. Over the next 14 years, these 31 structures had millions of play interactions. Total aggregate replacement part cost to the school district for all 31 playgrounds over 14 years was only \$4,370!

Quality Matters

THE IMPORTANCE OF QUALITY MATERIALS, THOUGHTFUL DESIGN, AND PRODUCT INNOVATION IS AT THE HEART OF EVERYTHING WE DO.

Durability and Strength

QUALITY MATERIALS = UNMATCHED CAPACITY

When considering the capacity of play equipment, we are proud to deliver quality that invites any number of visitors to play together!

The employee-owners of Landscape Structures gather at the Crab Trap in Central Park of Maple Grove, Minnesota. Another view shows the size of the structure, demonstrating just how much capacity a single play component can have!

Since 2004, Landscape Structures has been employee-owned. This drives every decision, every innovation and every aspect of our company culture. Under our ESOP (employee stock ownership plan) program, the stock value each of us owns grows with the company. It's a unifying motivation, keeping us deeply connected to each other and invested in our work.
