

Report to Utility Committee

Item Name: Director of Public Works and Utilities Report

Meeting Date: September 3, 2024

Referring Body:

Committee Contact:

Staff Contact: Greg Ulman

Report Prepared by: Greg Ulman

- A leak was detected on well pump #1, staff gathered 3 quotes and we are looking for approval.
- Van Ert will be upgrading the lighting at the wellhouse to vapor tight fixtures, they are necessary because of the chemicals we add for treatment. The cost for the fixtures in the office area is \$1,298.00 and the cost for the pump room fixtures will be \$2,496.00
- We received a complaint from a resident who lives on Cty Rd XX about heavy minerals in their water. We flushed the line which dead ends on Cty Rd XX to rid the end of the line from buildup. I asked the resident to let me know if the buildup continues even after we flush the line and they have not responded to me of a continuing problem.
- We have our fall hydrant flushing scheduled to start on September 16 and conclude on October 3
