TRAFFIC CALMING DEVICES REQUESTED ON FLORIDA ST LABELLE

We the undersigned live on Florida Street in Labelle and are concerned with the speed and volume of traffic on our road, likely due to easily controllable factors. Most of the nearby streets connecting Fraiser to Rt 80 already have traffic calming devices (speed humps), which we believe may be diverting some of the faster drivers to our road to avoid the impediments. Several of us have small children that may play in or near the street, and we all have seen alarming situations due to careless drivers. Additionally, this is a popular road for bikes, pedestrian traffic and dog walkers due to the location of the nature park. We believe that placing two properly designed speed humps (suggested design attached) between Wilson st and Fraiser st may sufficiently resolve the safety issue without causing undo impediment to properly paced traffic or emergency responders. We thank you for your consideration in this matter.
