The City of Lake City staff has reviewed the application and documents provided for the above request and have determined the following.

- **Building-** Any alterations will require a permit. Applicant should understand that there will be ADA and FBC, Accessibility requirements when the property actually see commercial use.
- **Planning-** This property is contiguous to a commercial general zoning district.
- **Water Department-** If rezoning is approved, any water service on property will have to have a backflow device installed according to Lake City's Cross-Connection Control Program.
- **Customer Service-** If rezoning is approved, the utility impact fees and deposits must be reassessed, and additional impact fees and deposits may be required. Per State Law F.A.C. 62-555.360, a commercial property must have an RP backflow preventer. The utility account holder must establish a commercial account with Waste Pro directly.
- **Suwannee River Water Management-** As a single-family property, it is outside the jurisdiction of SRWMD. However, if the zoning changes to commercial, it will be within SRWMD jurisdiction and subject to 62-330, F.A.C. If property is commercial, it will require a stormwater management system if it exceeds 9,000 sf of total impervious area. Of this 9,000 sf total, no more than 4,000 sf can be subject to vehicular traffic without a stormwater management system.

Staff Recommendation

- Staff finds the petition in compliance with the City's Comprehensive Plan and Land Development Regulations. Therefore, staff's recommended action would be for the City Council to approve Ordinance 2025-2336.
