You have access to my old email and everything is on that. All correspondence with the county, contractors and tenants went through that email. Plus there should be a file on the laptop with all that info in it.

Mr Sapp (Lic. El... SE >

Also while Marquette was moved out, we provided a storage unit for her and the storage unit got broken into and a police report was made. CCSO came out and did fingerprints. That report can be pulled as a time frame reference.
